The Knowledge collection

Schiavello's Knowledge collection is comprised of innovative products that are based on extensive research conducted by our Schiavello Design Studio and People and Culture Consulting teams. Led by strategic research into how businesses and employees function, the solutions are designed to enable new ways of working that intuitively foster collaboration, wellbeing and productivity.

Research-led design for health and wellbeing

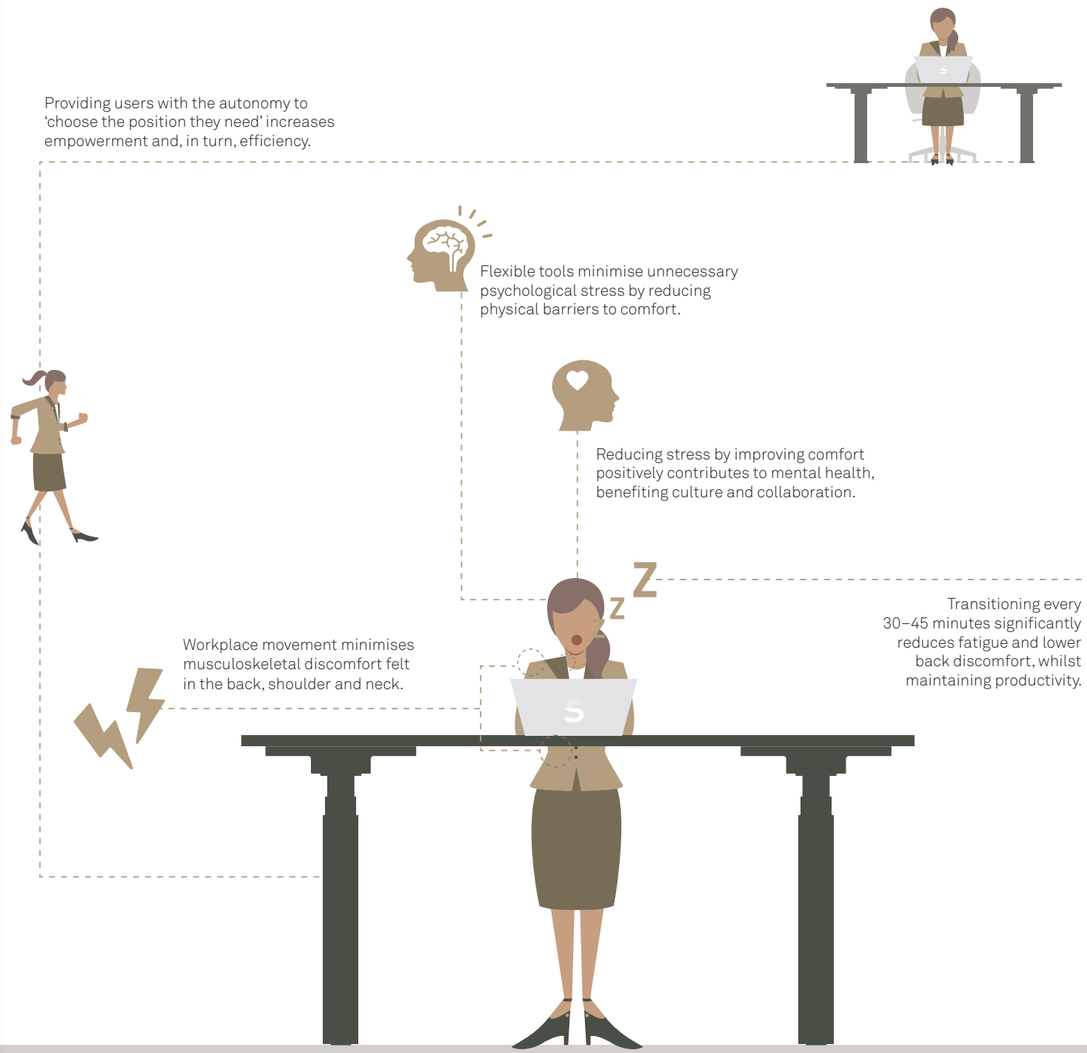
In 2008 – as evidence emerged into the impact static working had on health, happiness and productivity – Peter Schiavello set out to develop the first Australian designed and manufactured sit/stand workstation based on how the human body has evolved to move. Today, this product is known as Krossi Workstation.

Leveraging research by Schiavello's Knowledge Hub, the people-centred design was founded on flexible working postures and intuitive adjustments, enabling users to simply and naturally transition from sitting to standing. The easier it is to transition, the more often it will be used and more effectively address the negative impacts that both sitting and standing for long periods of time can have on an individual's physical comfort and long-term health. These findings are what form the foundational thinking of Neo today.

"By fitting working tools to the body, instead of one's body to the tools, energetic and dynamic working environments can be tuned to inspire creativity and innovation."

Powered by an electric system, desk height is displayed on a LCD screen, Neo boasts memory capability to store up to four preferred height variations, putting user convenience at the fore.

By empowering each individual with complete control, flexibility and adjustment over their work point, health and wellbeing benefits include:



Introducing Neo Workstation

N

Human-centred design

Backed by Schiavello's knowledge-led sit-stand research, Neo Workstation offers electric height-adjustability in a simple yet highly ergonomic form. Reaching heights up to 1220mm, Neo fosters employee health and wellbeing by making movement in the workplace easy and accessible.

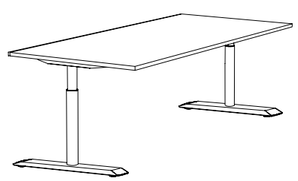
Specifications & Configurations

Specifications & Configurations

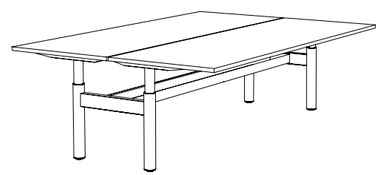
The functionality of Neo's knowledge-led design can be achieved in a range of shapes and configurations to suit your space.

Workstations

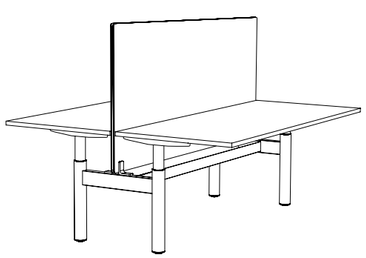
Rectilinear Single desk



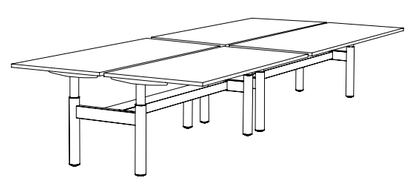
Rectilinear Back-to-back



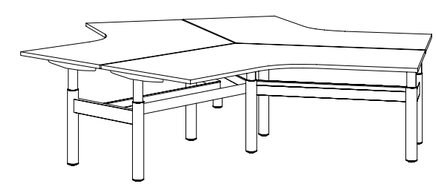
Rectilinear Back-to-back with panel



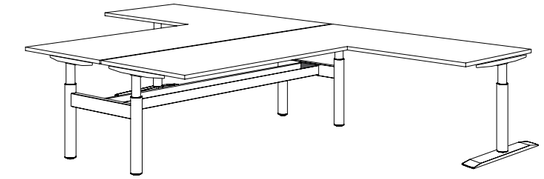
Back-to-back linear cluster



120° Three-way cluster



90° Two-way workstation



Worktops	Leg Configuration	
25–33mm / 1–1.2" Thick 750–800mm / 29.5–31.5" W 1350–2100mm / 70.8–82.6" L	Dual stage	600–1200mm / 23.6–47.2"

***Worktops** only refer to Rectilinear Single Desk, Back-to-back and/or with panel and linear cluster.

Accessories

Designed in-house by the Schiavello Design Studio and Schiavello Technologies, Neo's range of accessories – including panels and electric service modules – tailor the workstation to your specific needs, finished cohesively through our curated ColourLab collection.

Panels

System 18 Panel 18mm thick

System 30 Panel 30mm thick

Vide Panel 25mm thick (rubber or metal trim)

Ecology and sustainability

Schiavello's most important commitment to sustainability is the company-wide Environmental Management System under ISO 14001. The environmental design principles realised means we design for the environment, focusing on efficient energy use and minimum emissions, longevity and durability, re-use and recycling of our products.

Our principles of ME WE (Materials, Energy, Waste Emissions) give us a simple way to think about how our operations impact the environment.

Printed on an Australian made paper stock that is PEFC Certified and made from elemental chlorine-free bleached pulp sourced from sustainably managed forests and non-controversial sources. It is manufactured by an ISO 14001 certified mill using renewable energy sources.

About Schiavello

Schiavello is a multi-disciplinary company dedicated to developing intelligent, inspiring, ecological and resilient solutions for the office, the home and public spaces.

Schiavello's concepts and products are developed in Australia by applying a design process that brings together the company's core design principles and engineering with the creativity of local and international designers.

The Schiavello head office and world-class manufacturing facilities are integral to our continually developing rich tapestry of knowledge. This knowledge ultimately assists us in informing the right solutions and tools for each organisation's needs and people, allowing us to consistently achieve our philosophy that 'Anything is possible'.
