

KYBELLA® PRE-CARE

- Ensure you schedule your treatment at least 2 weeks prior to any special events to allow time for possible bruising, swelling, and/or redness to subside.
- Inform us if you have a history of difficulty swallowing, medication allergies, history of anaphylaxis, or any other medical problems.
- Take Ibuprofen, Motrin, or Advil about 1 hour before appointment.
- You may take an over-the-counter antihistamine (such as Claritin [Loratadine], Zyrtec or Benadryl) 1 hour before your appointment. This may help with post-treatment discomfort and swelling.

Leave us a review

We work hard to perfect the patient experience at Elevé MedSpa and would love to hear your feedback.
