

You deserve to feel safe & secure online

With **ProtectIQ** on the My Lit Fibre App, you can enjoy online peace of mind, knowing all of your connected devices are protected!

No extra equipment

To be protected from online threats, all you need is your Lit Hub - so no need to install or manage any software.

Network security

All devices connected to your home network are protected 24/7.

Secures everything

From thermostats and cameras to smart TVs and baby monitors.

Viruses and Malware

Constantly on the look out for anything that could damage your devices or security.

Cyber Security

World-class cyber-security is updated daily to keep you safe from the latest threats.

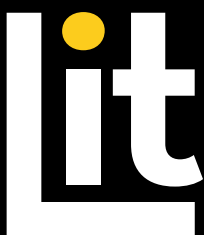

Get alerted

When a threat or attempted attack is blocked, you get a notice in your app.

Intrusion prevention

Your network access and sensitive information is protected from criminals and unauthorised users.
