

## **FARM FIELD CREW**

*\$18.00 per hour commensurate with experience*

*Full & part-time positions available*

*Seasonal, March/April through October/November*

Our field crew is the centerpiece of the farm – it's what gets the food from the field to the table. As part of our Field Crew, you'll participate in the growing process from seed to harvest and even further through post-harvest delivery. Responsibilities include seeding, preparing fields for planting, transplanting, plant maintenance (e.g., tomato trellising!), harvesting, and washing/packing farm produce. Other responsibilities include making donation deliveries to our partner sites and attending pop-up farmers' markets. We connect with community members through our donation sites, farm stand, public events, fundraisers, and volunteer opportunities.

Candidates should be interested in farming, sustainability, and food justice. Varying experience levels are welcome – we encourage first-time field crew through seasoned farm staff to apply for the position. We are looking for hardworking, positive people that enjoy learning through direct experience. Other important qualities are solid time-management skills, the ability to work independently and within a team, and an interest in the mission-driven work of our organization.

## **ABOUT SHARE THE HARVEST**

Founded in 2010, Share the Harvest Farm is a 501c(3) non-profit with a mission to fight food insecurity on the East End of Long Island, NY, by growing and donating high-quality produce to local food pantries, charitable organizations, and community partners.

## **REQUIRED SKILLS & ABILITIES**

- Farming or gardening experience preferred, but not required
- A task-oriented attitude driven by a desire to complete projects efficiently
- Experience collaborating with a team
- Strong organizational and time-management skills
- Ability to lift at least 50 lbs
- Be physically able to stand, kneel, and walk outdoors for long periods in all weather
