GOODBYE - Jay Samuelz, Arya Lee

GOODBYE - Jay Samuelz, Arya Lee

Oh my god, those guys think they're so cool
Because they worked hard for years and years
And now they're like a tiny bit successful
You know, we used to make fun of them (yeah)
For the whole work thing, right? (yeah)
You think we couldn't have worked hard? (yeah)
And now after putting up with it for years (yeah)
They won't even pay for our takeout (yeah)
When you think you are?
Wait, when you think you just say?
Bitch, I say goodbye, say goodbye
No more gifts so pay the price
No, this bitch can't stay the night
Known to switch associates
Get close when digits raise up high
Told these misfits, "Take a hike"
This took me forever to figure out
So when the fuck did it all stop being fun?
Been Cowardly Lion, bout wantin' to be a lion
Bitch, you got blessings, you got a crown
And they'll remember you, you'll go
Jimmy Carter, Jimmy Carter, been a president, you'll go
Kickin' the shit out of the dollars
Gave me a million from nada
Now that the pen and paper ain't no proper problems
They'll pursue your profits like piranhas
I am no fish fodder, I'm a fish out of water
While y'all end up swallowed at Benihana
Any time he hopping on the stage
Dip my toe, still it gon' spin
This I know, bitch
I'll keep it real
Slit my throat or leave it in that
Meeting your match lil' boy
My feet on the dash lil' boy
Ran three to five laps lil' boy
Get beat on the track lil' boy
Bitch, I say goodbye, say goodbye
No more gifts so pay the price
No, this bitch can't stay the night
Known to switch associates
Get close when digits raise up high
Told these misfits, "Take a hike"
Say goodbye, say goodbye (uh)
Mary Jane
Toke 'em on this joint in many ways homes (yuh, yuh)
Pure poison with the pinpoint precision
See I don't play no games
Better get an antivenom injection
Don't trip, bitch, okay
Y'all soyya, you soyya
Cut the bitch off the shit
No, I ain't eating your fuckin' tomato
Chase a dolla, bitch, on a bridge
Drowned in a hundred problems, hit the switch (switch)
Thousand dollars been ditched
I'm resilient, know millions of ways not to quit (facts)
Yung Lee laid the bricks (uh)
Soon free, fortified, six
Digit deals put it on the list
Letting the world know I exist
Bitch, I insist, uh (yeah)
Get me my slice of the pizza (yeah)
Double cheese, she needs some
Two shawty's with the pizza (yeah, yeah)
Put me on the Chainway
Watchin' 'em play the same sax (yeah)
They singing in key while I'm laidback
Got the side with me next to the main task, yeah
Bitch, I say goodbye, say goodbye
No more gifts so pay the price
No, this bitch can't stay the night
Known to switch associates
Get close when digits raise up high
Told these misfits, "Take a hike"
Say goodbye, say goodbye
