Apollo Property Group recognises that the disciplines of confidentiality, integrity and availability in Information Security Management are integral parts of its management function. Apollo Property Group is committed to protecting the security of its information and information systems in line with the requirements of the ISO/IEC 27001:2022/COR 2022 standard.

Senior Management of Apollo Property Group views these primary responsibilities and fundamental to the best business practice of adopting appropriate Information Security Controls, in line with ISO/IEC 27001:2022/COR 2:2022 requirements.

Apollo Property Group's Information Security Policy seeks to operate the highest standards including continual improvement, through Certification and annual review.

Apollo Property Group will:

- Comply with all applicable laws and regulations and contractual obligations.
- Implement continual improvement initiatives including risk assessment and risk treatment strategies, whilst making best use of its management resources to better meet Information Security requirements.
- Communicate its information security objectives, and its performance in achieving these objectives, throughout the organisation and to interested parties.
- Adopt an Information Security management system compromising a security manual and procedures which provide direction and guidance on information security matters relating to employees, customers, suppliers and interested parties who come into contact with its activities.
- Work closely with its customers, business partners and suppliers in seeking to establish appropriate Information Security standards.
- Adopt a forward-looking view on future business decisions, including the continual review of risk evaluation criteria, which may have an impact on Information Security.
- Train all members of staff in the needs and responsibilities of Information Security Management.
- Constantly strive to meet, and where possible, exceed its customers, staff, and suppliers' expectations.
- Provide education, training, and awareness for information security and for ensuring the continued operation of the Information Security Management System.

Responsibility for upholding this policy applies companywide under the guidance and with the assistance of the Systems & Compliance Manager who encourages the personal commitment of all staff to address Information Security as part of their skills.
