

# IMPROVE YOUR BUSINESS SKILLS IN JUST 1 HOUR

Join the free session and learn how to quickly master your business skills with your own capabilities.

## Editing the Landing Page

This landing page can be edited like any other Account Engagement landing page, with a few extras. This page comes with the following features:

- The ability to remove/hide section
- Changeable background colour
- Removable content with responsive form/text
- The ability to change the order of the sections

To remove/hide each section click into the corresponding 'options' tag and write the word 'hide' or 'remove'.

To change the colour of a section, click into the corresponding 'options' tag and write the hex code of the colour you wish to use. It must be in this format: **#efefef**

Removing the form from the landing page can be done in the landing page options. The text will format automatically to take up the remaining space.

To remove the text beside the form and allow the form to fill the screens width, click into the corresponding 'options' tag and write 'remove-body'.

To change the order of the sections, in each corresponding 'options' tag write 'order-1'. You must write your orders from 1 - 7 in all of the options tags, making sure you do not repeat numbers as this may cause issue.

You may include multiple options in each 'options' tag by simply separating each with a space.

### Heading 3 - Form Title

Normal - Form subtitle  
%%content%%
