

LIST OF 2000+ USES

The uses of WD-40 Multi-Use Product described on this website were provided to WD-40 Company by end-users of the product, and do not constitute recommendations or suggestions for use of WD-40 Multi-Use Product by WD-40 Company. These uses have not been tested by WD-40 Company. Consumers should exercise common sense whenever using WD-40 Multi-Use Product. Always follow the instructions and take heed of any warnings on the WD-40 Multi-Use Product packaging.

AUTO/TRUCK & MOTORSPORTS

- Helps start wet engines
- Keeps locks from freezing during winter
- Lubricates air nozzle caps on tires
- Lubricates and protects hinge pins and points
- Lubricates and protects latches
- Lubricates and protects leaf and coil springs
- Lubricates garage door runners and keeps them from freezing to garage floor
- Lubricates gas cap locks and levers
- Lubricates hinges on trunks and car doors
- Lubricates hinges on windshield wipers
- Lubricates license plate bolts and screws
- Penetrates frozen locks
- Prevents oxidation on battery connections (keep can away from battery)
- Prevents spray nozzles for windshield washers from freezing
- Protects chrome and gives it a nice shine
- Protects rubber gasket around the sunroof
- Removes adhesive tape without damaging factory paint
- Removes baked-on bird droppings from car and truck exteriors
- Removes bumper stickers
- Removes decals from windows and bumpers
- Removes dog slobber from dash and seats in vehicle
- Removes grit from windshield wipers
- Removes gum stuck in carpeting or between seats (test small area first)
- Removes gunk and grease from fenders, windows and car interiors
- Removes insects from front grill
- Removes love bugs from car grills and bumpers
- Removes paint rub from other vehicles
- Removes road tar
- Removes scuff marks on cars caused by shopping carts
- Removes tar and sap from vehicle grills and bumpers
- Removes tree sap
- Protects metal and chrome parts from rust and corrosion when sprayed on before putting into storage
- Eases removal of nuts and bolts near chassis
- Eases removal of nuts and bolts near dash compartments
- Eases removal of nuts and bolts near drive train
- Eases removal of nuts and bolts near fenders
- Stops squeaking on windshield wipers
- Buffs out scuffmarks on bumpers
- Prevents windshield wiper blades from cracking and drying out when used in the early summer
- Makes truck bed liner easier to remove later when sprayed on truck bed before installation
- Dissolves rust from rusty bolts
- Eliminates squeaks from fan belt
- Frees rusted glove compartment door
- Frees sticky remote control mirror mechanism
- Frees stuck fuel door cable
- Frees stuck tin snips
- Helps hone cylinder walls
- Helps remove brake dust from wheels
- Helps remove grease and other marks on sidewalls of tires
- Helps remove rust from pistons of steam engine
- Helps remove vinyl bed-liners
- Helps to insert cables into cable looms
- Keeps air horn celluloid from sticking
- Keeps brake levers working well on motorcycles
- Keeps car battery terminals corrosion free (keep can away from battery)
- Keeps gear shifters lubricated
- Keeps glove box lock working smoothly
- Keeps hitch locks rust free
- Keeps rollers on wing slats from binding
- Keeps rubber door weather gaskets soft and pliable
- Keeps tire jack working smoothly
- Loosens crank arm on windows
- Lubricates ashtray for easy sliding
- Lubricates auto hood latch
- Lubricates automatic seat belt tracks
- Lubricates automatic side view mirrors
- Lubricates car antenna
- Lubricates car ashtrays for easy sliding
- Lubricates car door hinges
- Lubricates cargo straps on semi trucks
- Lubricates child safety seat buckles
- Lubricates choke levers
- Lubricates convertible top gears
- Lubricates convertible top zippers
- Lubricates door latch to gas cap
- Lubricates fuse box hinges
- Lubricates handicap lift on minivan
- Lubricates handles
- Lubricates hand-operated window cranks
- Lubricates hood release cables
- Lubricates hydraulic tailgate lifts
- Lubricates jack gears
- Lubricates key holes
- Lubricates knobs on air conditioners
- Lubricates lift chairs on vehicles
- Lubricates locks on vehicle bike racks
- Lubricates moveable parts of snowplow harnesses
- Lubricates moving parts of rotating CB antennas
- Lubricates pneumatic door lifters on station wagons
- Lubricates rear door of trailers
- Lubricates scooter lift
- Lubricates seat belt buckles
- Lubricates spinning wheels
- Lubricates stainless steel hood latches
- Lubricates sun visors in cars
- Lubricates sunroof crank
- Lubricates swiveling chairs in minivans
- Lubricates tire air knobs
- Lubricates trailer support cranks
- Lubricates trunk latch
- Lubricates valves on fire trucks
- Lubricates windshield wiper linkage
- Penetrates stuck car hoods
- Prevents corrosion of spark plug cables
- Prevents rust on seam areas on wings
- Removed a Boa Constrictor stuck in engine compartment
- Removes burnt oil from exhaust pipes on motorcycles
- Removes cell phone antenna glue from glass
- Removes crayon from dashboard
- Removes crayon from vinyl surfaces
- Removes glue from leather
- Removes grease and grime from motorcycle chains
- Removes greasy fingerprints from car interior
- Removes gum from school bus seats
- Removes gunk and lubricates the trigger of gas pumps
- Removes gunk and protects aluminum rims
- Removes gunk and protects CB radio antennas
- Removes gunk and protects chrome on cars
- Removes gunk and protects power antennas
- Removes light rust from car hood latches
- Removes marks from rubber surfaces
- Removes marks from white wall tires
- Removes paint from leather
- Removes paint rub caused by other vehicles
- Removes road oil from rocker panels
- Removes Silly Putty® stuck on car seats
- Removes wax from flat black car paint to remove cloudy "appearance"
- Restores shine on classic cars
- Restores vintage door locks
- Shines and protects bed liner
- Shines and protects chrome
- Shines car tires
- Shines motorcycle finish
- Spray aging rubber grommets to eliminate squeaks
- Spray brake button under brake pedal to loosen sticky brake lights
- Spray down the blade of snowplows; it helps make the snow slide "right off"
- Spray on seat coverings when fitting seat frames for easy application
- Spray stereo wires to keep them from sticking when running through auto firewalls
- Spray tachometer cables to ensure accurate readings
- Spray tie down ropes prior to securing load to keep them from scratching truck paint
- Stops belt noise on automobiles
- Stops squeaks caused by brake cable rubbing against chassis
- Stops squeaks on car doors
- Stops squeaks on clutch pedals
- Unsticks car door during cold weather
- Unsticks electric seats in vehicles
- Buffs out scuff marks on bumpers
- Removes gunk and protects engine compartment
- Removes dead insects from radiators
- Removes gummy buildup from steering wheels
- Removes gunk from pistons
- Removes gunk from ignition wires
- Removes gunk from Model T Jacks
- Removes gunk from pin striping tape from car
- Removes power steering fluid from driveway
- Removes rust from car hood latch
- Removes gunk from spare tire mount under pickup bed
- Drives moisture from convertible top hinges
- Drives moisture from DC auto batteries
- Drives moisture from electrical wiring in cars
- Drives moisture from front struts
- Drives moisture from ignition coils
- Drives moisture from ignition distributors
- Drives moisture out of trunk locks
- Eliminates static on volume and tuning control knobs
- Fogs interior of vintage motorcycle mufflers during winter storage
- Gets gunk off steering wheel mechanism
- Helps remove hand prints from truck bodies
- Helps remove protective coverings from new cars
- Helps remove road salt from car locks
- Helps remove window tint
- Helps remove wire rim wheels that are rusted to axle
- Keeps asphalt from sticking to dump truck bed
- Keeps cable on spare tire rack from seizing
- Keeps car locks from freezing during winter
- Keeps keys from rusting
- Keeps rubber particles from sticking to drag race car quarter panels
- Keeps speaker connections from arcing when applied to stereo amplifier
- Keeps truck bed anchors rust free
- Keeps windshield wipers rust free
- Lubricates and removes gunk from check-valves in pop-up headlights
- Maintains dashboard in car or truck
- Maintains interior in car or truck
- Protects cast iron brake rotors when storing vehicle
- Protects electrical connections in car/truck engines
- Removes carbon residue from spark plugs
- Removes leftover adhesive residue from tape that holds camper shells to vehicles
- Removes melted gum from dashboards
- Removes melted rubber from exhaust pipes
- Removes paint rub from another vehicle
- Removes pine tar from truck bed covers
- Removes road debris from license plate
- Removes rust from side view mirror

LIST OF 2000+ USES

The uses of WD-40 Multi-Use Product described on this website were provided to WD-40 Company by end-users of the product, and do not constitute recommendations or suggestions for use of WD-40 Multi-Use Product by WD-40 Company. These uses have not been tested by WD-40 Company. Consumers should exercise common sense whenever using WD-40 Multi-Use Product. Always follow the instructions and take heed of any warnings on the WD-40 Multi-Use Product packaging.

- Removes scuff marks from cars caused by shopping carts
- Removes wax from motor
- Spray on a rag and wipe steering wheel and gearshift knobs to keep them grease-free and grippable
- Spray on a rag and wipe window handles to keep them grease-free and grippable
- Spray on aluminum cylinder heads to prevent galling and cross threading
- Spray on suspension gaskets to resist deterioration
- Spray on windshield wipers in the early summer so the blades don't crack and dry out
- Unfreezes car doors
- Removes rust off used front chrome fenders

AUTOMOTIVE MAINTENANCE & REPAIR

- Displaces moisture from car wiring
- Displaces moisture from electrical connections and protects from corrosion
- Displaces moisture on engine and distributor
- Drives moisture from flooded engine
- Eases removal of stuck spark plugs from engine
- Keeps pop-up auto lights operating smoothly
- Keeps weather stripping and rubber car door seals soft and prevents drying and cracking
- Loosens and removes stubborn dirt and grease without scratching the paint
- Lubricates all metal and moving parts to reduce friction and prevent locking
- Lubricates and removes surface rust from tools
- Lubricates any moveable parts, especially in the fabrication phase
- Lubricates auto hood latches
- Lubricates rusted oil pan plug
- Lubricates the plastic connection of an automobile headlamp retaining nut
- Prevents rust on inside of door panels
- Protects chrome on cars
- Protects corrosion-sensitive areas of car
- Removes grease and grime from metal hand tools
- Removes grease and grime from pliers
- Removes grease and grime from screwdrivers
- Removes grease and grime from wrenches
- Removes grease caked onto the engine block and its compartment
- Removes sludge from outside engine block
- Makes nuts and bolts easier to remove later when soaked during disassembly or replacement
- Lubricates and protects parts from rust and corrosion
- Removes dirt and grease from parts
- Makes battery bolts easier to remove when sprayed on prior to installation
- Protects band saws from rust and corrosion
- Protects drill presses from rust and corrosion when sprayed on after each use
- Protects machining parts from rust and corrosion when sprayed on after each use
- Protects mills, lathes, shears, and grinders from rust and corrosion
- Makes removal of nuts and bolts easier
- Stops belt noise
- Stops squeaks in car strut mounts
- Keeps a disassembled race car engine well-oiled and prevents rust when parts are sprayed down and wrapped in plastic wrap for the off-season
- Prevents rust on transmission gears when coated after etching
- Eases installation of rubber exhaust hangers on exhaust systems
- Eases removal of pinion shafts on old pistons
- Frees stuck accelerators
- Frees stuck lugnuts on semi trucks
- Frees stuck motor shafts
- Frees up sticking carburetor linkage
- Helps free stuck battery cables from terminals
- Keeps heim joints free on race cars
- Keeps transmission linkages operating smoothly
- Loosens rusted oxygen sensor in car exhaust pipe
- Loosens slack adjuster locks
- Loosens stuck butterfly valves
- Lubricates 4-wheel-drive hubs to ease locking procedure
- Lubricates action on fluid lift gate pistons
- Lubricates ball joints
- Lubricates car ignition
- Lubricates choke linkage
- Lubricates control arm bushings on front or rear suspensions of autos
- Lubricates drive chain on motorcycles
- Lubricates emergency brake cable
- Lubricates fuel line remote opener
- Lubricates gears on hand-rolling car windows
- Lubricates hydraulic lifts on truck bed cover
- Lubricates latch mechanisms on snowplows
- Lubricates linkages on emergency brake release
- Lubricates lock cylinders during repair
- Lubricates lock shafts to check for bad bearings
- Lubricates manifold heat control valve
- Lubricates motorcycle chains
- Lubricates mounting bracket for alternator
- Lubricates pneumatic clutch
- Lubricates pneumatic cylinders
- Lubricates pneumatic starters
- Lubricates rear shock absorbers
- Lubricates rubber bushing
- Lubricates rubber wiring grommets to ease installation into fenders/firewalls
- Lubricates speedometer cables
- Lubricates squeaky fare box levers on city buses
- Lubricates throttle linkage
- Lubricates torsion bars
- Lubricates zippers on zip-up car windows
- Penetrates stuck brake bleeder valves
- Penetrates stuck fog light nuts
- Penetrates stuck radiator handle
- Prevents corrosion of underwater connectors on Remote Operated Vehicle (ROV)
- Prevents corrosion on console panel switches
- Prevents noise on car window tracks
- Protects against corrosion in retractable wheel wells
- Quiets squeaks on automatic sliding seat belts
- Quiets squeaky leaf springs
- Removes grime from engines
- Removes gummy deposits from PVC valves
- Removes gunk and compressor oil off pistons in solenoids
- Removes gunk and debris from Thermo King refrigeration units
- Removes gunk and protects brake shoe mechanisms
- Removes gunk and protects cables and connectors
- Removes gunk and protects gauges
- Removes gunk and protects the plates of injection molding machines on windshield washer nozzles
- Removes gunk and protects tracks on tracked vehicles
- Removes gunk from sealing equipment in GM assembly plant
- Removes squeak from brake pedal
- Spray inside radiator or fuel lines to slide them on easier during installation
- Spray on rubber intake air ducts to ease installation of fuel injected engines
- Stops squeak in alternator pulley
- Stops squeaks on steering wheels
- Stops squeaks on tail pipe hangers
- Removes gunk and lubricates the rubber surrounds on stereo sub woofers
- Removes gunk and polishes brushed aluminum face plates on old stereo receivers

- Removes gunk and protects rear view mirror balls and sockets
- Removes gunk and protects rubber boots of drive axles on front-wheel drive vehicles
- Removes gunk and protects seat belt buckles
- Removes gunk and protects windshield wiper blades
- Removes pigeon droppings from cars
- Displaces moisture from electrical conduits
- Displaces moisture from spark plug wires
- Dissolves grease
- Filters dust when sprayed on AC filter

BOATING & WATERSPORTS

- Lubricates leaf springs on boat trailers
- Protects anchor chain from rust
- Coat rubber ties on boats to keep rubber from drying out
- Dissolves dirt in water pump of boats
- Helps detail outboard motors
- Keeps boat engine parts rust free
- Keeps boat shifter cables loose and free from rust
- Keeps boat tires non squeaky and lubricated
- Keeps boat trailer locks in good working order
- Keeps brass boat fittings from rusting
- Keeps prop shaft from seizing onto the prop on outboard hydroplanes
- Keeps winch cables rust free
- Loosens frozen boat parts
- Loosens lugnuts on boat trailers
- Loosens rusted monkey fists on boat
- Loosens rusted screws on ships and other watercraft
- Lubricates anchor rope pulley on boats
- Lubricates bearings of radar antenna on lobster boats
- Lubricates bilge pump on boats
- Lubricates choke lever on boat engines
- Lubricates crank on boat lift
- Lubricates drain plug on boat
- Lubricates galley latches
- Lubricates gyro compasses
- Lubricates hinge bearings on ships
- Lubricates hinges on compartment lids in boats
- Lubricates noisy dock posts on a windy night
- Lubricates pip pins used to hold outriggers on boats in upright position
- Lubricates recline hydro locks in pilot seat tracks
- Lubricates sliding window tracks on boats
- Lubricates speed brake rams and linkage
- Lubricates spool valve handles on boat hydraulic systems
- Lubricates squeaky boat mast
- Lubricates swivel on overhead monitor arms
- Lubricates the steering controls on boats
- Lubricates transmission buttons on old boats
- Lubricates wheel housings on ships
- Lubricates winches on boats
- Lubricates zippers on boat cushion covers
- Polishes and protects boat rails
- Prevents corrosion on boat battery terminals (keep can away from battery)
- Prevents corrosion on boat trailer axle
- Prevents corrosion on radar gear
- Prevents rust on ship seam areas
- Protects and lubricates floating boat docks after thawing
- Protects and lubricates tail shaft on boat propellers
- Protects fittings on boat moorings
- Protects vintage steam equipment on paddlewheel steam boats
- Quiets squeaky boat seats
- Removes buildup on tuner control on am/FM boat radios to get rid of static when tuning
- Removes crud and protects boating blocks
- Removes crud and protects console gauges on boats
- Removes crud from exposed vinyl on boats
- Removes dead insects from boat windshields

LIST OF 2000+ USES

The uses of WD-40 Multi-Use Product described on this website were provided to WD-40 Company by end-users of the product, and do not constitute recommendations or suggestions for use of WD-40 Multi-Use Product by WD-40 Company. These uses have not been tested by WD-40 Company. Consumers should exercise common sense whenever using WD-40 Multi-Use Product. Always follow the instructions and take heed of any warnings on the WD-40 Multi-Use Product packaging.

- Removes grease and grime and protects brass boat fittings
- Removes grease and grime and protects on-board machine and hand tools
- Removes grime and protects boat hardware
- Removes grime and protects porthole dogs
- Removes grime from boat mats
- Removes gunk and grime from boats
- Removes lake sludge from fiberglass
- Removes oxidation from boats
- Removes river sludge from boat hull
- Removes road tar from boat hulls
- Removes sap from boat frame
- Removes scuff marks from fiberglass areas on boats
- Removes tar from boat tarps
- Removes tree sap from boat windshields
- Removes wax from nonskid surfaces on boats
- Shines and protects blades on hydrofoils
- Spray on rudder to prevent corrosion and loosen stuck parts
- Unsticks stuck boat horn
- Winterizes boat engine parts to prevent rust and corrosion
- Removes ballast oil from tile floors (be sure to wipe floor clean after using WD-40)
- Drives moisture from boat parts
- Drives moisture from a boat's moving screws
- Helps remove gunk from bilge areas

CONSTRUCTION

- Aids in the removal of furnace blower wheels
- Keeps paint from sticking to doorknobs when coated before painting
- Drives moisture from heavy-duty drills
- Drives moisture from precision tools
- Eases replacement of fan blades
- Eases twisting of wire
- Frees stuck locks on lock boxes
- Frees stuck metal aviation snips
- Helps cool and protect drill bits
- Helps lubricate gate valve
- Helps provide dust-free surface when roofing
- Helps remove dirt, grime and rust from tools, including hammers, saws and pliers
- Helps remove gunk from electrical contacts
- Helps remove heavy grease deposits from heavy-duty conveyor systems
- Helps remove paint from tile flooring (be sure to wipe clean after using WD-40)
- Helps working on a "chiller" easier
- Keeps blades from rusting on sharp shooter
- Keeps metal surfaces from rusting
- Keeps Oklahoma red clay from sticking to shovels
- Keeps sewer machine wheels turning smoothly
- Loosens stuck chuck keys on drills
- Loosens and penetrates rusted or stuck plumbing joints
- Loosens interior plumbing device that controls bath drain plug
- Loosens interior plumbing devices
- Loosens rusted bolts
- Loosens rusted or stuck plumbing joints
- Loosens screws in shower valves to enable faceplate removal
- Lubricates airless paint guns
- Lubricates and protects air conditioner blades
- Lubricates and protects power tools
- Lubricates and protects power tools such as drills, nail guns and staple guns
- Lubricates cabinet hardware
- Lubricates dolly wheels
- Lubricates framing guns
- Lubricates hacksaw blades for cutting metal
- Lubricates hinges on doors, gates, toolboxes and ladders
- Lubricates hinges, latches and locks on trucks
- Lubricates latches on doors, gates, toolboxes and ladders

- Lubricates latches on electrical cabinets
- Lubricates locks on doors, gates, toolboxes and ladders
- Lubricates metal moving parts including vise grips, cutting wheels and garbage disposal blades
- Lubricates moving parts
- Lubricates nail guns
- Lubricates or thaws locks and latches
- Lubricates pipe cutting wheels on tubing cutters
- Lubricates reciprocating saw blades
- Lubricates sheet metal cutters and channel locks
- Lubricates tape measures
- Lubricates wire being pulled through a conduit
- Lubricates wood screws for easier installation
- Makes cast iron and black iron pipe look shiny and new
- Penetrates and loosens stuck screws on bathtub knobs
- Penetrates, loosens, and helps remove rusted and stuck parts, including screws, nuts, bolts and plumbing joints
- Prevents rust on outdoor air conditioners
- Protects plumbing "runner" ropes from being burned by molten lead
- Protects tools from rust including shovels, rakes and plumbing tools
- Removes adhesive residue
- Removes debris from vise-grip and channel locks
- Removes dried caulking from hands
- Removes duct tape residue from work boots
- Removes glue residue from old paneling
- Removes grime from electrical contacts
- Removes gunk when replacing old faucets
- Removes plastic cement from tools
- Removes roof mastics from tools
- Removes roofing tar and other grime from circular saw blades
- Removes rust from saws
- Removes rust from sewer cables and helps easily go down drain pipes
- Removes scuff marks on ceramic and wooden floors (be sure to wipe clean after using WD-40)
- Shines all kinds of metal
- Softens and dissolves dried manure from work boots
- Prevents rust when sprayed liberally on wet tools
- Eases removal of bolts when replacing a leaky evaporator coil
- Makes hand tools easier to operate
- Helps disconnect damaged pipe when sprayed on pipe threads
- Allows free movement of rusted equipment when sprayed on tight areas or "pinch points"
- Makes installation of window glass easier when sprayed on rubber gasket
- Unsticks painted radiator valves
- Makes backhoe ram pins easier to remove
- Loosens bolts and nuts around pipe clamps to help ease removal
- Keeps trench box pin lubricated and gunk-free when used after each job
- Protects electrical connections in engines
- Protects pneumatic and hydraulic fittings from rust
- Removes water from wet electrical cords
- Removes asphalt from trucks
- Helps keep exposed nail heads from rusting
- Loosens locking mechanism on ladders
- Protects chainsaw blades before storing
- Penetrates stuck bolt on frozen toilet shut off valves
- Keeps drill bits cool
- Provides long-lasting lubrication to prevent drills from sticking
- Provides long-lasting lubrication to prevent hinges from sticking
- Provides long-lasting lubrication to prevent saws from sticking
- Loosens hardened bolts on equipment

- Loosens stuck bolts
- Loosens stuck hinges
- Loosens stuck motors
- Loosens stuck nuts
- Loosens stuck nuts and bolts
- Loosens stuck pipes
- Loosens threaded rods
- Prevents binding or jamming on drills
- Prevents binding or jamming on hand tools
- Prevents binding or jamming on hinges
- Prevents binding or jamming on motors
- Prevents binding or jamming on pipes
- Prevents binding or jamming on power tools
- Prevents binding or jamming on saws
- Prevents binding or jamming on tools
- Prevents binding or jamming on wrenches
- Prevents corrosion or rust on bolts
- Prevents corrosion or rust on flush bolts
- Prevents corrosion or rust on hand tools
- Prevents corrosion or rust on hinges
- Prevents corrosion or rust on motors
- Prevents corrosion or rust on nuts
- Prevents corrosion or rust on nuts and bolts
- Prevents corrosion or rust on saws
- Prevents corrosion or rust on pipes
- Protects 18V power drills in hot temperatures
- Protects drills in hot temperatures
- Protects power tools in hot temperatures

FARMING

- Eases assembly of vinyl fencing
- Eases removal of heavy dirt from shovels
- Helps keep paint on farm machinery shiny and free from cracks
- Keeps pitchforks rust free
- Loosens rusted parts of antique farm dinner bell
- Lubricates barn door locks
- Lubricates barn door runners
- Lubricates foot feeder on tractor
- Lubricates gears on earth-moving tractor
- Lubricates joints on stock panels
- Lubricates latches on horse stalls
- Lubricates moving parts on combines
- Lubricates moving parts on farming equipment
- Lubricates moving parts on tractors
- Lubricates rototiller axle
- Lubricates rototiller blades
- Lubricates squeaky weathervanes
- Lubricates tractor throttle cables
- Lubricates wheelbarrow wheels
- Lubricates windsock swivels
- Penetrates stuck bolts on cultivator shovels
- Prevents calcium buildup on sprinkler heads
- Prevents corrosion on irrigation systems
- Protects barrels and metal containers against rust and corrosion
- Protects heavy-duty cutting heads
- Protects trailer hitch locking mechanism
- Reconditions brass tips on crop field sprayer nozzles
- Removes dirt from pitchforks
- Removes gunk from PVC valves
- Removes tar from chassis
- Prevents rust on rototiller blades during off-season
- Prevents swamp cooler from burnout or seizing
- Drives gunk from bearings seized by fertilizer
- Drives moisture from shovel handles
- Frees locking pins on tiller
- Helps dissolve rust from apple bagging machines
- Helps dissolve rust from corn sheller
- Helps dissolve rust from hog equipment
- Helps dissolve rust from pruning shears
- Keeps plant supports from rusting

LIST OF 2000+ USES

The uses of WD-40 Multi-Use Product described on this website were provided to WD-40 Company by end-users of the product, and do not constitute recommendations or suggestions for use of WD-40 Multi-Use Product by WD-40 Company. These uses have not been tested by WD-40 Company. Consumers should exercise common sense whenever using WD-40 Multi-Use Product. Always follow the instructions and take heed of any warnings on the WD-40 Multi-Use Product packaging.

- Loosens drive chains on hay balers
- Loosens threaded joint on water pumps
- Loosens valve bolts on tiller units
- Lubricates fence stays
- Lubricates garden windmills
- Lubricates gears on earth-moving caterpillar tractor
- Lubricates hose winder
- Lubricates rusted casters on rolling planters
- Lubricates steering linkages on tractor
- Lubricates throttle cables on rototillers
- Lubricates tractor shredders
- Lubricates worm gears in chicken house on poultry farm
- Protects fertilizer distributors
- Protects tools from corrosion
- Removes buildup from milking machine pulsator
- Removes crud from hoof trimmers
- Removes debris and lubricates automatic poultry feeders
- Removes debris and protects fertilizer spreader after use
- Removes debris from hoof trimming chute
- Removes debris from rototiller bits
- Removes graffiti from latex fences
- Removes gum from chicken feathers
- Removes crud and lubricates electric horse clippers
- Removes gunk and protects pitchforks
- Removes gunk from hydraulic tips on quick connectors on tractors
- Removes heavy mud and grime from shovels
- Removes mud and debris and protects wheelbarrow beds
- Removes resin from waterpipes
- Removes stuck on debris from wood planter bed
- Unsticks electric sheep shears
- Removes gunk and lubricates automatic poultry feeders
- Removes gunk and lubricates caulk holes in horse screw caulks
- Removes gunk and lubricates electric horse clippers
- Coat wire tomato plant cages to keep insects away
- Lubricates window hinges on horse trailers
- Coat collectible metal toys before storing to prevent tarnishing and corrosion
- Coat electric guitar pickups to prevent rusting
- Dissolves glues
- Drives out hard to remove debris from rock samples
- Frees stuck slides on brass instruments
- Frees up stuck keys on organ
- Gets glue stains out of jeans
- Gives a great shine to flat surfaces for stock photography
- Gives virtual rocks a nice shine
- Helps hone stones
- Helps lubricate fretboard on guitars
- Keeps clay from sticking to molds during crafting
- Keeps curling iron from sticking to plastic crafts
- Keeps flight controls for model aircraft in working order
- Keeps model trains rust free
- Keeps moisture and corrosion from building up on the control cables of model airplanes
- Keeps the throttle cable on model airplanes working smoothly
- Keeps trigger on glue gun from sticking
- Loosens arm and leg joints on porcelain dolls
- Loosens end joints on flute
- Lubricates landing gear on model airplanes
- Lubricates "fine tuner" screw on stringed instruments
- Lubricates air nozzle of balloon pump
- Lubricates and improves electrical contacts on model train tracks
- Lubricates antique toy trains
- Lubricates bass drum and high hat pedals
- Lubricates bass drum stands
- Lubricates coronet valves
- Lubricates craft punches
- Lubricates crank motors on antique mechanical phonographs
- Lubricates end pins on cellos
- Lubricates flute joints and screws
- Lubricates gear trains on servo motors
- Lubricates guitar case latches
- Lubricates joints of artist's easel
- Lubricates model airplane linkages
- Lubricates needles on knitting machine
- Lubricates piano hammer action in pianos
- Lubricates piano leg casters
- Lubricates robot joints
- Lubricates rotors on French horns
- Lubricates sewing machine handle
- Lubricates soap box derby wheel bearings and spindles
- Lubricates straight pins for easier sewing of heavy fabrics
- Lubricates stuck parts on vintage 8 mm film projectors
- Lubricates swiveling piano stool
- Lubricates tuba valves
- Lubricates tuning gears on guitars
- Lubricates tuning mechanisms on graphic equalizers
- Lubricates valves on peck horns
- Lubricates wheels on tuba case
- Makes rusty piano strings pliable again
- Penetrates stuck walking foot on sewing machines
- Polishes seashells
- Prevents detail from sticking to cast material in resin-kit model production
- Prevents rust on jewelry forging blocks
- Prevents rust on tripods
- Protects antique toys
- Protects DJ components from rusting
- Protects HAM radio antennas from moisture
- Protects metal bars on glockenspiels
- Quiets squeaky piano pedals
- Removes adhesives from sewing machines
- Removes duct tape
- Removes gaff tape
- Removes glue from carpet (test small area of carpet first)
- Removes glue from paneling
- Removes ink from blue jeans
- Removes ink from hands
- Removes old cellophane tape
- Removes play-dough from hair
- Removes rubber cement
- Removes rubber cement from clothing
- Removes stickers from guitars
- Removes stickers from Hummel figures
- Removes stickers from piano keys
- Separates lamination of plastics
- Shines doll shoes
- Shines mother-of-pearl accessories
- Shines seashells
- Shines steel
- Soak clarinet joints to loosen pins for easy disassembly
- Spray on glass bottles before drilling holes (to make lamps)
- Spray on hands before using heavy adhesives to prevent sticking
- Spray on poster board and let dry to provide interesting texture/base for art
- Spray sewing thread to prevent breakage
- Prevents knitting machines from binding
- Stops squeaks on tape dispenser
- Stops squeaks on stilts
- Unsticks keys on baritone horns
- Use as pen-polish on lathe turned wooden pens
- Use in art projects, the way the chemicals and oils react with paint is unique
- Use to lubricate the area under the hook of a sewing machine
- Use to help remove gunk from frets on guitars and prevent strings from rusting
- Removes gunk and lubricates bells on antique sleighs
- Removes gunk and lubricates rotary cutters
- Removes gunk and protects antique beer cans from rust
- Removes gunk and protects antique kitchen tools
- Removes gunk and protects kettle drums
- Removes gunk and protects mechanisms on music boxes
- Removes dried oil from antique oil can
- Removes gunk from furnace nozzle
- Removes gunk, protects and lubricates bells on antique sleighs
- Helps protect rubber trunk molding
- Helps remove stuck decorations at Christmas time
- Helps restore antique coffee grinder
- Keeps telescope swivel moving freely
- Loosens crud around stoppers on antique perfume bottles
- Lubricate raising mechanisms for Purple Martin (bird) houses
- Lubricates antique brass wheels
- Lubricates antique oil can levers
- Lubricates antique waffle iron
- Lubricates connectors on antique stove for easy assembly
- Lubricates fine tuner screws on stringed instruments
- Lubricates gears on old phonographs
- Lubricates hinges and wheels on toy wagons (wash well with soap and water after use)
- Lubricates hinges of birdcage doors
- Lubricates joints of art easels
- Lubricates latches on saxophone case
- Lubricates rolling cat toys (wash well with soap and water after use)
- Lubricates storm door piano hinges
- Lubricates wheels of homemade monorail systems
- Polishes and shines seashells
- Polishes silver jewelry
- Protects antique milk can from rust
- Removes artificial snow from windows after holiday season
- Removes crayon from chalk boards
- Removes rust from and protects antique irons
- Shines bronze sculptures
- Removes tree sap off metal (not cloth) Christmas tree ornaments

GARAGE/WORKSHOP

- Lubricates vise handles
- Protects hammers from corrosion
- Removes gunk from hacksaw blades
- Removes clogs from spray paint nozzles
- Removes roofing tar from circular saw blades
- Removes gunk from vinyl garage doors
- Lubricates garage door rollers
- Lubricates garage door runners
- Lubricates worn gear in garage door opener
- Polishes stems of antique lamps
- Removes crayon from ceramic items
- Stops squeaks on garage door casters

HOBBY & CRAFTS

- Prevents guitar strings from rusting
- Unsticks piano keys
- Lubricates threads of coax/antenna connectors on amateur radio antennas
- Prevents rust on Katana swords
- Adds moisture to, and preserves, ivory and bone items
- Removes gunk and protects collectible cans
- Removes gunk from electrical contacts on slot racing cars
- Removes glue from antique bottles
- Removes gunk from Hemming dies
- Removes gunk from metal figurines
- Removes gunk from microphone cables after rental
- Removes gunk from old coins
- Removes gunk from ostrich eggs for craft use
- Removes crud and grime from piano keys
- Removes gunk from piston valves on horns and tubas
- Removes gunk from potentiometers on guitar amplifier
- Removes gunk from synthesizer keys
- Removes gunk from tin-plated parts on model trains
- Lubricates antique toy trains
- Lubricates bass drum and high hat pedals
- Lubricates bass drum stands
- Lubricates coronet valves
- Lubricates craft punches
- Lubricates crank motors on antique mechanical phonographs
- Lubricates end pins on cellos
- Lubricates flute joints and screws
- Lubricates gear trains on servo motors
- Lubricates guitar case latches
- Lubricates joints of artist's easel
- Lubricates model airplane linkages
- Lubricates needles on knitting machine
- Lubricates piano hammer action in pianos
- Lubricates piano leg casters
- Lubricates robot joints
- Lubricates rotors on French horns
- Lubricates sewing machine handle
- Lubricates soap box derby wheel bearings and spindles
- Lubricates straight pins for easier sewing of heavy fabrics
- Lubricates stuck parts on vintage 8 mm film projectors
- Lubricates swiveling piano stool
- Lubricates tuba valves
- Lubricates tuning gears on guitars
- Lubricates tuning mechanisms on graphic equalizers
- Lubricates valves on peck horns
- Lubricates wheels on tuba case
- Makes rusty piano strings pliable again
- Penetrates stuck walking foot on sewing machines
- Polishes seashells
- Prevents detail from sticking to cast material in resin-kit model production
- Prevents rust on jewelry forging blocks
- Prevents rust on tripods
- Protects antique toys
- Protects DJ components from rusting
- Protects HAM radio antennas from moisture
- Protects metal bars on glockenspiels
- Quiets squeaky piano pedals
- Removes adhesives from sewing machines
- Removes duct tape
- Removes gaff tape
- Removes glue from carpet (test small area of carpet first)
- Removes glue from paneling

LIST OF 2000+ USES

The uses of WD-40 Multi-Use Product described on this website were provided to WD-40 Company by end-users of the product, and do not constitute recommendations or suggestions for use of WD-40 Multi-Use Product by WD-40 Company. These uses have not been tested by WD-40 Company. Consumers should exercise common sense whenever using WD-40 Multi-Use Product. Always follow the instructions and take heed of any warnings on the WD-40 Multi-Use Product packaging.

HOME & GARDEN

- Prevents corrosion on blender blades when coated regularly
- Drives debris from rototiller bits
- Drives moisture from moving garden tools to help prevent corrosion
- Frees sticky snow blower throttle cable
- Helps remove broken keys from locks
- Helps remove residue that remains after removing calcification (caused by mineral water) from ceramic pots
- Improves cutting time for drill bits
- Keeps ax blade from rusting
- Keeps blades from rusting on garden plow
- Keeps clay from sticking to shovels
- Keeps garden ornaments in fountains and ponds rust free
- Keeps garden plant cages bright and rust free
- Keeps garden tools rust free
- Keeps gas shutoff valve from getting stuck
- Keeps grass from sticking to lawnmower blades
- Keeps hose ends from corroding
- Keeps lawnmower wheels turning smoothly
- Keeps snow from sticking to shovels and plows
- Keeps wicker chairs from squeaking
- Loosens height adjuster on lawnmower wheels
- Loosens rusty parts on lawnmower
- Loosens stuck gas cap on lawnmower
- Lubricates the area under the hook of a sewing machine
- Lubricates wheels on dishwasher racks
- Lubricates adjusting mechanisms on chairs
- Lubricates aluminum blind stopper to prevent blinds from sticking
- Lubricates baby swings
- Lubricates doggie doors
- Lubricates double glazing mechanisms on window locks
- Lubricates hinge on pruning shears
- Lubricates hinges on pruning shears and other gardening tools
- Lubricates locks on lawnmower control cables
- Lubricates oven door hinges
- Lubricates raising mechanisms for Purple Martin (bird) houses
- Lubricates screws on lawn furniture
- Lubricates slide-out attic ladders
- Lubricates small kitchen cabinet door hinges
- Lubricates snow blower linkage
- Lubricates squeaky parts
- Lubricates the exhaust fan over the stove
- Lubricates the inside of an old stapler - so it glides easier to load staples
- Lubricates threads on (table) umbrella poles
- Lubricates well crank handle
- Lubricates wheels of paper shredders, to prevent paper from jamming
- Penetrates and prevents corrosion on stuck bathroom fixtures
- Penetrates frozen mail box doors
- Penetrates rusted parts
- Penetrates to help open stuck paint can lids
- Polishes brushed aluminum face plates on old stereo receivers
- Prevents foliage from sticking to pruning shears
- Prevents rust on shut-off valve of main water source
- Protects lawnmower blades
- Protects rubber seals on lawn and garden sprayers
- Protects tools, garden implements and lawnmower blades from rust
- Protects weed wacker blades
- Protects wheelbarrow beds from rust
- Removes grime and other build up on hedge trimmers
- Removes coffee stains from tabletops, counters and floors (be sure to wipe clean after using WD-40)
- Removes dirt from ax blades
- Removes grease from rubber hoses
- Removes gunk from barbecues
- Removes grime from chain saws
- Removes hard water deposits
- Removes Silly Putty from furniture
- Removes tree sap from Christmas ornaments
- Removes tree sap from tree snippers
- Revitalizes the color on faded vinyl shutters
- Makes dirt slide off hole diggers when sprayed on before using
- Prevents corrosion on hula hoe swivels
- Helps unstick lawn mower pull cord
- Eases removal of dried paint from metal stencils when sprayed on before painting
- Makes replacing a toilet paper roll much easier when sprayed on stuck rollers
- Unsticks gummed-up buttons on an air conditioner
- Waterproofs chimney cleaning tools
- Winterizes lawnmower to prevent freezing and rust while in storage
- Frees stuck LEGO® blocks (be sure to wash with soap and wipe clean before use)
- Keeps beard trimmers working well and quietly
- Lubricates antique cuckoo clock pendulum
- Lubricates mousetrap machinery
- Lubricates small rolling toys (be sure to wash with soap and wipe clean before use)
- Pre-treats laundry before washing to help remove roofing tar stains
- Removes dog poo from tennis shoes
- Removes dried contact cement from hair
- Removes stains left from silly string
- Helps make snow "roll" right off snowplow blades
- Unkinks gold chains
- Removes crayon off of rock walls
- Eliminates squeaking from locks
- Erases marks caused by chair backs on running boards of wall
- Frees locking nuts on lawn mower blades
- Frees rusted hinges on fire alarm boxes
- Helps prevent rust on hide-a-key containers
- Keeps sewing needles from rusting
- Keeps zippers on outdoor umbrella covers from sticking
- Loosens rusted screws on outdoor barbecues
- Loosens screws on toilet seats
- Lubricates adjuster button on canes
- Lubricates air nozzles of balloon pumps
- Lubricates antique waffle irons
- Lubricates bird house hinges
- Lubricates cigarette case hinges
- Lubricates cork screws
- Lubricates folding metal stools
- Lubricates hinges on antique smoking stands
- Lubricates hinges on metal filing boxes
- Lubricates hinges on refrigerator doors
- Lubricates hinges on swing doors
- Lubricates hinges on TV cabinet doors
- Lubricates landscaping spikes to make it easier to drive into landscape timbers
- Lubricates lawn fertilizer spreader gears
- Lubricates locks on chains securing propane tank to barbecue grill
- Lubricates locks on dog kennels
- Lubricates luggage zippers
- Lubricates microwave oven doors
- Lubricates piano bench hinges
- Lubricates piano lid hinges
- Lubricates plate holder hinges
- Lubricates propane tank hinges
- Lubricates pullout handles on luggage
- Lubricates shoe buckles
- Lubricates stuck temperature regulators on refrigerators
- Lubricates sunshade joints
- Lubricates swiveling picture hangers
- Lubricates zippers on lawn mower grass catcher bags
- Makes dead bolt locks work better
- Penetrates and loosens locking levers on windows
- Penetrates and loosens sticky knobs on adjustable chairs
- Pre-lubricates threads on wood screws
- Prevents medicine cabinets closures from sticking
- Prevents rust on patio furniture screws
- Removes adhesive from precious china
- Removes adhesive price tags from shoe bottoms
- Removes black streaks from hardwood floors (be sure to wipe floor clean after using WD-40)
- Removes coffee stains from floor tiles (be sure to wipe floor clean after using WD-40)
- Removes crayon from carpet (be sure to test WD-40 on low visibility area of carpet before using)
- Removes crayon from compressed wood furniture
- Removes crayon from inside clothes dryers (make sure to unplug dryer first)
- Removes crayon from place mats
- Removes crayon from plastic
- Removes crayon from plastic tables
- Removes crayon from screen doors
- Removes crayon from shoes
- Removes crayon from television screen
- Removes crayon from toys
- Removes crayon from wallpaper
- Removes crayon from walls
- Removes crayon marks from glass
- Removes crud and protects blades of pruning shears
- Removes felt pen marks from floors (be sure to wipe floor clean after using WD-40)
- Removes glue from refrigerators
- Removes grime from grout on bathroom floors (be sure to wipe floor clean after using WD-40)
- Removes gunk and protects medicine cabinet door latches
- Removes gunk from piano keys
- Removes gunk on vacuum cleaner dials
- Removes labels from medicine bottles
- Removes marking pen from glass objects
- Removes marks on floors left by chair feet (be sure to wipe floor clean after using WD-40)
- Removes mascara from tile floors and mirrors (be sure to wipe floor clean after using WD-40)
- Removes melted tape from dining room table
- Removes nail polish from hardwood floors (be sure to wipe floor clean after using WD-40)
- Removes paint from tile flooring (be sure to wipe floor clean after using WD-40)
- Removes permanent ink from most items
- Removes Rollerblade® marks from kitchen floor (be sure to wipe clean after using WD-40)
- Removes rust stains from floors after mopping (be sure to wipe floor clean after using WD-40)
- Removes scuff marks from ceramic tile flooring (be sure to wipe floor clean after using WD-40)
- Removes sticker residue from clothes (be sure to test WD-40 on low-visibility area of garment before using)
- Removes stickers from credit cards
- Removes stickers from crystal
- Removes stubborn temporary tattoos
- Removes tile adhesive from new no-wax floors (be sure to wipe floor clean after using WD-40)
- Removes VELCRO® stickers
- Spray on plant holders to stop squeaks on windy days
- Brings back paint on faded house shutters and makes them look new
- Apply on medicine cabinet closure to prevent sticking
- Removes gunk and protects medicine door latches

LIST OF 2000+ USES

The uses of WD-40 Multi-Use Product described on this website were provided to WD-40 Company by end-users of the product, and do not constitute recommendations or suggestions for use of WD-40 Multi-Use Product by WD-40 Company. These uses have not been tested by WD-40 Company. Consumers should exercise common sense whenever using WD-40 Multi-Use Product. Always follow the instructions and take heed of any warnings on the WD-40 Multi-Use Product packaging.

- Removes gunk from bed frame
- Apply on the tip of dead ball point pen to rejuvenate
- Breaks down silicone when coating a toilet or tub
- Camouflages scratches in ceramic tile
- Camouflages scratches in cultured marble
- Camouflages scratches in linoleum
- Removes black scuff marks from shoes off the floor (be sure to wipe floor clean after using WD-40)
- Removes gunk and polishes gold and brass lamps
- Removes gunk and protects blades of pruning shears
- Removes gunk and protects copper pots
- Removes gunk and protects grandfather clock cables
- Removes gunk and protects pruning shears
- Removes gunk and protects underside of cast iron skillets
- Removes gunk and protects washer lid
- Removes gunk and protects weed wacker blades
- Removes gunk and shines bathroom Formica® tiles and fixtures fast
- Removes black scuff marks from hardwood floors (be sure to wipe floor clean after using WD-40)
- Removes gunk from blackened skillets
- Removes gunk from blades of mustache trimmer
- Removes gunk from bobby pins
- Removes gunk from bottoms of pots and pans
- Removes bugs from rooftop cellular antenna
- Removes build up on hedge trimmers
- Removes candle soot
- Removes dirt from door latches
- Removes dog hair from sliding door rollers
- Removes gunk from DVDs
- Removes gunk from fiberglass bathtubs
- Removes food stuck in and around refrigerator
- Removes gunk from gold-plated faucets
- Removes gunk built up on doorknobs
- Removes gunk from base of toilet bowl
- Removes gunk from knife blades
- Removes gunk from lawnmower blades
- Removes lime stains from toilet bowls
- Removes gunk from lock nuts around gate latches
- Removes gunk from marble windowsills
- Removes marks on shelves made by coat hangers
- Removes melted vacuum belt from carpeting (test small area of carpet first)
- Removes mildew from refrigerator gasket
- Removes gunk from old muffin tins
- Removes gunk from patio door glide strip
- Removes gunk from remote controls
- Removes rust from rusty doorknobs
- Removes sand from door joints
- Removes sand from patio door runners
- Removes gunk and shines silver serving trays
- Removes gunk and sap stains from Christmas tree holders
- Removes gunk from the exterior doors of wood pellet stoves
- Removes gunk from window sills
- Removes gunk from woks after cooking
- Removes wood stain from metal step ladders
- Drive moisture from bottom of leaky coffee pot (be sure to clean well after using WD-40)
- Drives moisture from door sill plate
- Drives moisture from electrical contacts on weed eater
- Drives moisture from hearing aids and removes crud from battery compartment
- Drives moisture from home wiring
- Drives moisture from moving parts of electric jewelry boxes after washing
- Drives moisture from outdoor latches
- Drives moisture from wheel bearings in shower door wheels
- Eases disassembly of hammock supports
- Eases installation of rubber hand grips on home exercise equipment
- Eases removal of brass fittings in toilet tank
- Eases replacement of couplings in a garden hose or rubber hose
- Eases separation of bunk beds
- Frees frozen parts on electric coffee grinder
- Frees locking nut on lawnmower blade
- Frees old drawer-type broiler when stuck
- Frees seized joints on satellite dish
- Frees stuck beater-release switch on mixers
- Frees stuck buttons on electric stove
- Frees up rusted circulator bolts on hot water heating systems
- Gets hair color dye stains out of towels
- Helps remove gunk from showers
- Helps dismantle chandeliers
- Helps hide scratches on glass dishes
- Helps join plastic shelving to make disassembly easier
- Helps keep swinging plant hooks from squeaking
- Helps keep wooden handles on garden tools from splintering
- Helps loosen rusted toilet seat bolts
- Helps remove built up mineral deposits from freezer grid
- Helps remove caked-on dirt and grime from furniture rails
- Helps remove calcium deposits from bathtub drains
- Helps remove ketchup stains from carpet (test small area of carpet first)
- Helps remove keyed-shaft impellers from rusted and/or calcified stub shafts on electric motors used for swimming pool pumps
- Helps remove soap scum from bathroom cleaning materials
- Helps remove stubborn pieces of stuck floor padding under carpet
- Helps shovel wet sticky snow
- Helps to open lock boxes on home that have swollen from the heat
- Helps to remove rusty nails from lawn furniture
- Keeps branch-cutting tools rust free
- Keeps Christmas tree stand from rusting
- Keeps clay from sticking to hoes
- Keeps clay from sticking to rakes
- Keeps flower pots from sticking together when stacked in storage
- Keeps garbage disposal from seizing after periods of idleness
- Keeps kitty-doo from sticking to electric cat-box rakes
- Keeps lawnmower carburetors free of gunk
- Keeps line from binding on string trimmer spools
- Keeps metal wind chimes rust free
- Keeps metal wire screens rust free
- Keeps plant hangers from rusting
- Keeps refrigerator door gasket from sticking
- Keeps rubber snow blower blades free of snow buildup
- Keeps snow from sticking to patio door
- Keeps snow from sticking to satellite dishes
- Keeps snow from sticking to shovel
- Keeps tapping knives from rusting
- Keeps VCR tapes from sticking in VCR
- Loosens caked-on food from stove (ensure stove is turned off)
- Loosens grime on toilet tank float shaft
- Loosens hard to open twist tops
- Loosens latches on suitcase
- Loosens plastic pump handle on weed killer sprayer
- Loosens rusted bolts on outdoor TV antenna
- Loosens rusted joints on tree loppers
- Loosens rusted screws on outdoor barbecue
- Loosens rusted wheels on lawn spreader
- Loosens rusty parts on lawnmowers
- Loosens stubborn curtain rod
- Loosens stuck bolts on mail boxes
- Loosens stuck keys on TV remote control
- Loosens stuck light switches
- Loosens valve stems on lawnmower tires
- Lubricate hose bars for easy insertion into new synthetic rubber hoses
- Lubricate wheels on kitchen bake center
- Lubricates arms on window awnings
- Lubricates ball valve handle on sprinkler system
- Lubricates ballcock on toilet
- Lubricates barbecue wheel casters
- Lubricates bassinet wheels
- Lubricates bearings on TV table wheels
- Lubricates bi-fold door locks
- Lubricates blade spindle in bathroom fans
- Lubricates blade-agitator assemblies in food blenders
- Lubricates can openers
- Lubricates closet door hinges
- Lubricates clothesline retractor
- Lubricates compact mirror hinges
- Lubricates covering air vent on dryers
- Lubricates crib rails to prevent sticking (wash well after using WD-40)
- Lubricates crib wheels
- Lubricates curtain rods for better sliding
- Lubricates dog nail clippers
- Lubricates drive belt pulley bearings on lawnmower
- Lubricates drive pulley of lawnmower blades
- Lubricates extensions of pool cleaning poles
- Lubricates external pivots on lawnmowers
- Lubricates fan in motor on window A/C
- Lubricates fans
- Lubricates flag on mailboxes
- Lubricates folding metal stool
- Lubricates folding parts of ironing board
- Lubricates freezer doors
- Lubricates French door lock
- Lubricates garbage disposal blades
- Lubricates garden hose trigger nozzle
- Lubricates gears on grill height adjuster handle on barbecues
- Lubricates gears on icemaker
- Lubricates gears on meat grinder-sausage maker
- Lubricates gears on pool pump filter systems
- Lubricates gears on rotisserie barbecue
- Lubricates gears on smokers
- Lubricates grandfather clocks
- Lubricates handle on ice cream makers
- Lubricates heat register vent levers
- Lubricates hide-a-bed retracting mechanisms
- Lubricates hinge bearings on swing doors
- Lubricates hinges of eyeglasses
- Lubricates hinges on beer steins
- Lubricates hinges on refrigerator door
- Lubricates in metal rocking chair
- Lubricates joints on stand mixers
- Lubricates kitchen drawer sliding tracks
- Lubricates kitchen sink handheld spray nozzle
- Lubricates knobs on light shades/lamps
- Lubricates knobs on propane barbecues
- Lubricates lawn cart axles
- Lubricates lawnmower throttle cables
- Lubricates limbs of artificial Christmas trees
- Lubricates lock on chain securing propane tank to barbecue grill
- Lubricates luggage locks
- Lubricates meat slicer knob
- Lubricates mechanical Christmas reindeer
- Lubricates metal latches on chain link fences
- Lubricates microwave oven door
- Lubricates mixer gears
- Lubricates movable parts on Christmas presents
- Lubricates moving joints of futon

LIST OF 2000+ USES

The uses of WD-40 Multi-Use Product described on this website were provided to WD-40 Company by end-users of the product, and do not constitute recommendations or suggestions for use of WD-40 Multi-Use Product by WD-40 Company. These uses have not been tested by WD-40 Company. Consumers should exercise common sense whenever using WD-40 Multi-Use Product. Always follow the instructions and take heed of any warnings on the WD-40 Multi-Use Product packaging.

- Lubricates noise dampening bearing on outdoor paddle fan
- Lubricates oil fan motors on furnaces
- Lubricates old-style double-sash windows
- Lubricates on bathtub knobs
- Lubricates on patio doors
- Lubricates parts of mechanic rocking chairs
- Lubricates patio door hydraulic self closing hinge
- Lubricates pool pump motor belt
- Lubricates pullout handle on luggage
- Lubricates return springs on riding lawnmowers
- Lubricates rotating spice racks
- Lubricates runners of screens
- Lubricates runners on porch glider
- Lubricates runners on recliners
- Lubricates rusty metal coil box springs
- Lubricates safe rollers
- Lubricates screws in Christmas tree holder
- Lubricates shower door rollers
- Lubricates speed control cable on power mower
- Lubricates spin wheel on vertical blinds
- Lubricates spray arm in dishwasher
- Lubricates springs on garbage can foot pedal
- Lubricates squeaky stove knobs
- Lubricates steering mechanism on riding lawnmower
- Lubricates sticky drawers
- Lubricates storage drawer at bottom of stove (ensure stove is turned off)
- Lubricates swing arm lamps
- Lubricates swivel rocker legs
- Lubricates swiveling vanity mirror
- Lubricates table leaves
- Lubricates the exhaust fan over a stove, keeping it in excellent working order
- Lubricates toaster slides
- Lubricates toilet handle linkage
- Lubricates toilet paper rollers
- Lubricates tomato slicer handle
- Lubricates TV stand swivel mechanism
- Lubricates vertical blind swivel drivers
- Lubricates washer doors
- Lubricates wheels on dishwasher rack
- Lubricates wheels on rolling dressers
- Lubricates wind-driven attic turbo vents
- Lubricates zippers on lawnmower grass catcher bags
- Penetrates and frees stuck mechanism inside power toothbrush handle
- Penetrates and frees stuck toilet shutoff valve
- Penetrates and loosens locking lever on windows
- Penetrates stuck doorknobs for smooth operation
- Polishes and protects brass candlesticks
- Polishes away scratches on countertops
- Preventative maintenance on cooking burner
- Prevents antenna from freezing during winter
- Prevents corrosion on connectors used to install TV antennas and satellite dishes
- Prevents corrosion on copper parts of fountain
- Prevents corrosion on outdoor light fixtures
- Prevents corrosion on stored drill bits
- Prevents corrosion on valves under toilet
- Prevents mildew growth on fountain
- Prevents moisture damage on cable TV field strength meters
- Prevents rake from rusting
- Prevents rust form forming on blender blades during storage
- Prevents rust on chipper/shredder rollers
- Prevents rust on metal patio chairs
- Prevents rust on outside of door panels
- Prevents rust on oyster knife
- Prevents rust on pool cover studs
- Prevents rust on portable electric equipment
- Prevents rust on rabbit cages
- Prevents rust on side trim
- Prevents surface rust on stainless steel laundry coin boxes
- Protects electric pump on furnace
- Protects grout from mildew in outdoor shower
- Protects hand trowels from corrosion
- Protects inner machinery in toilet against corrosion
- Protects light sockets from rust (turn power off before use)
- Protects outside of cast iron brake drums on riding lawnmower
- Protects patio door from sun damage
- Protects pool furniture for winter storage
- Protects shower heads from rust
- Protects snow shovels from the effects of salt
- Protects stored Kaiser blades from rust
- Protects storm window gaskets
- Quiets squeaky roof ventilator hinges
- Quiets squeaky speaker stands
- Rejuvenates gears on old clocks
- Removes berry stains from patio furniture
- Removes caked-on food from bottom of cookie sheets (wash well after use)
- Removes coffee stains on floor tiles (be sure to wipe clean after using WD-40)
- Removes copper water line stains from bathroom fixtures
- Removes corrosion on outdoor on/off switches
- Removes crayon from carpet (test small area of carpet first)
- Removes crayon from clothes dryer (make sure to unplug dryer first)
- Removes crayon from sofas
- Removes crusted gunk from bird cages
- Removes debris stuck on floor mats
- Removes decals from bathtubs (wash well after use)
- Removes depilatory wax from floors (be sure to wipe clean after using WD-40)
- Removes depilatory wax from floors, counters, mirrors, etc. (be sure to wipe clean after using WD-40)
- Removes dried toothpaste stains
- Removes felt pen marks from floor (be sure to wipe clean after using WD-40)
- Removes fingerprints from bay windows
- Removes glue from refrigerator
- Removes grape juice stains
- Removes grease from clothing (test in small area first)
- Removes grime from book covers
- Removes grime from grout on bathroom floor (be sure to wipe clean after using WD-40)
- Removes gum from bed sheets
- Removes gum from dryer lint screen
- Removes gum from floor boards
- Removes gum from floor mats
- Removes gum from linoleum floor (be sure to wipe clean after using WD-40)
- Removes gum from wallpaper
- Removes gum stuck in door locks
- Removes gum stuck to concrete
- Removes gunk from plastic dish-drainer
- Removes hardened wax from fiberglass showers (be sure to wipe clean after using WD-40)
- Removes hardened wax from fiberglass tubs (be sure to wipe clean after using WD-40)
- Removes ink from carpet (test small area of carpet first)
- Removes ink from vinyl
- Removes Kool-Aid stains from carpet and fabric (test small area first)
- Removes laundry detergent stain from washer
- Removes lipstick from carpet (test small area of carpet first)
- Removes lipstick from fabric (test small area of fabric first)
- Removes makeup from carpet (test small area of carpet first)
- Removes marks from floors left by chair feet (be sure to wipe clean after using WD-40)
- Removes mascara from tile floors (be sure to wipe clean after using WD-40)
- Removes melted crayon from upholstery (test in small area first)
- Removes melted jelly beans from carpet (test small area of carpet first)
- Removes melted plastic from toaster oven
- Removes melted adhesive tape from dining room table
- Removes mineral and rust buildup on water faucets
- Removes nail polish from hardwood floors (be sure to wipe clean after using WD-40)
- Removes oxidation from aluminum window frames
- Removes paint from tile flooring (be sure to wipe clean after using WD-40)
- Removes peanut butter from dog hair
- Removes rust from chair feet
- Removes rust from cookie tins (wash well after use)
- Removes rust from curtain rods
- Removes rust from hair curler
- Removes rust from potbellied stoves
- Removes rust from shower chair wheels
- Removes rust from steam irons
- Removes rust stains from bathroom tubs (be sure to wipe clean after using WD-40)
- Removes rust stains from tile floors (be sure to wipe clean after using WD-40)
- Removes scuff marks from ceramic tile floor (be sure to wipe clean after using WD-40)
- Removes scuff marks from lawn furniture
- Removes scuff marks from luggage
- Removes scum from bottom of drinking glasses (wash with soap and water after)
- Removes splattered grease on stove (ensure stove is off first)
- Removes squeaks from humidifier unit attached to furnace
- Removes stains from hot tubs
- Removes starch residue from sole plate on iron
- Removes sticker residue from clothes (test in small area first)
- Removes stickers
- Removes stickers on CD cases
- Removes strawberry stains from countertops
- Removes streaks and marks from new slate while polishing
- Removes streaks from Formica®
- Removes stubborn body oils and shampoo residue from bath mats
- Removes stubborn stuck-on leg wax
- Removes tape marks from the wall where posters hung
- Removes tar and grease from upholstery (test small area first)
- Removes tar from shovels
- Removes tea stains from countertops
- Removes tile adhesive from new no-wax floor (be sure to wipe clean after using WD-40)
- Removes tomato stains from clothes (test small area first)
- Removes triple track screens that are stuck
- Removes water spots from mirrors
- Removes wax from vinyl surfaces
- Shines aluminum sinks
- Shines black rubber baseplates
- Shines leaves of artificial houseplants
- Shines mailboxes
- Shines outdoor sculptures
- Shines shower doors
- Shines wheelbarrow tires
- Spray around bottom of garbage cans to prevent animals from getting in
- Spray around flower beds gently to keep cats out
- Spray bottoms of chain-link fences that surround gardens to keep rabbits and rodents out
- Spray down drain throat to remove scum
- Spray handles of garbage can to prevent rust and corrosion
- Spray in cracks between sidewalk and cinderblock wall to prevent weeds from growing in them
- Spray in old radio speaker coil to stop rattling noise

LIST OF 2000+ USES

The uses of WD-40 Multi-Use Product described on this website were provided to WD-40 Company by end-users of the product, and do not constitute recommendations or suggestions for use of WD-40 Multi-Use Product by WD-40 Company. These uses have not been tested by WD-40 Company. Consumers should exercise common sense whenever using WD-40 Multi-Use Product. Always follow the instructions and take heed of any warnings on the WD-40 Multi-Use Product packaging.

- Spray inside candle holders prior to burning to make candles slide out easier
 - Spray lightly over stagnant water to keep mosquito eggs from hatching
 - Spray on balcony to keep pigeons away (they hate the smell)
 - Spray on bathroom mirror to keep it from fogging
 - Spray on bottom 6 inches of wooden patio table to prevent mildew build up
 - Spray on bottom of cat pan for easy removal of plastic liner and changing pan
 - Spray on bottom of garage door to keep it from sticking to concrete during winter
 - Spray on cable and telephone lines to keep animals from chewing them
 - Spray on disposable razor blades to make them function longer
 - Spray on electrical panel boxes to drive out moisture
 - Spray on glass objects that are stuck together to separate without breaking
 - Spray on hula hoe swivels to remove gunk & prevent corrosion
 - Spray on lamp arm for easy swivel
 - Spray on lawnmower pull cord when stuck
 - Spray on metal picture frame parts for easy assembly
 - Spray on rubber hose to make cutting easier
 - Spray on shower doors to keep them from rusting
 - Spray on silverware during unused periods to prevent tarnishing (wash well before use)
 - Spray on stepping stone molds before pouring to ease removal from mold
 - Spray on trash can lids to keep messes from sticking
 - Spray on trees to prevent beavers from chewing on them
 - Spray on videotapes to remove the label so you can re-label it
 - Spray on watch band to keep it from pulling out your arm hairs
 - Stops squeaks in trash compactor
 - Stops squeaks on baby cribs (wipe clean afterwards)
 - Stops squeaks on baby gate lock (wipe clean afterwards)
 - Stops squeaks on full-length swivel mirrors
 - Stops squeaks on noisy bathroom curtain hooks
 - Stops squeaks on noisy temperature control knobs
 - Stops squeaks on stove doors
 - Stops squeaks on swinging address signs
 - Unclogs shower heads
 - Unfreezes patio door locks
- ## HVAC
- Removes gunk from valves on compressors
 - Helps unravel cleaning wands on vacuum cleaners
 - Loosens old nozzle from wet/dry vacuum cleaner
 - Lubricates armatures of vacuum cleaners
 - Lubricates casters on shop vacs
 - Lubricates high-performance positive-displacement vacuum pump used in cleaning carpet
 - Lubricates moving parts of vacuum motor
 - Lubricates vacuum cleaner roller brush
 - Lubricates vacuum cleaner wheel joints and beater bar joints
 - Lubricates vacuum cleaner wheels
 - Prevents rust on swamp cooler nuts
 - Removes rust from vacuum cleaners
 - Spray on vacuum handle for easy assembly and disassembly
- ## ON THE JOB
- Lubricates elevator cables
 - Removes chewing gum from parking meter coin slot
 - Prevents "pits" on stainless steel tables (used to collect/pack fish) from rusting
 - Removes gunk and polish Alaskan Oil Pipeline at visitor viewing
 - Removes tape residue on audio/visual cables
 - Removes gunk from airbrushes
 - Removes gunk and lubricates commercial coin rollers/counters
 - Removes gunk and prevents rust on oil tank exterior
 - Removes gunk and protects areas affected by bi-metal conditions and disassembly of machinery
 - Removes gunk and protects cargo release systems
 - Removes gunk and protects forklift brake hardware
 - Removes gunk and protects forklifts from rust
 - Removes gunk and protects handcuffs
 - Removes gunk and protects heavy-duty cutting heads
 - Removes gunk and protects jaws on electric drill chuck
 - Removes gunk and protects jet compressor blades
 - Removes gunk and protects manicuring implements at beauty shop
 - Removes gunk and protects moving parts of old printing presses
 - Removes gunk and protects outdoor popcorn stands
 - Removes gunk and protects reamers
 - Removes gunk and protects safe deposit boxes
 - Removes gunk and protects sewer cleaning cables
 - Removes gunk and protects wire mesh black bay boxes
 - Removes gunk and shines the exterior of stainless steel frozen yogurt machines
 - Removes gunk from axe blades
 - Removes gunk from bed of metal lathe
 - Removes crud from bed pans
 - Removes gunk from blades on box cutters
 - Removes gunk from chair wheels
 - Removes gunk from clipper blades in dog grooming shop
 - Removes gunk from clogged Inkjet nozzle
 - Removes gunk from concrete from shovels
 - Removes debris from vise-grip
 - Removes crud from dirty power cords
 - Removes gunk from engraving machines
 - Removes gum from boots
 - Removes gum from parking meter coin slot
 - Removes gunk from chain saws
 - Removes gunk from phone buttons
 - Removes gunk from pricing guns
 - Removes gunk from safety glasses/goggles
 - Removes heavy lube from bull gears on Drag line
 - Removes gunk from interiors of soda machines
 - Removes gunk from jointer and planer blades before and after sharpening
 - Removes gunk from lock nuts around gate valves
 - Removes gunk from magnifying glass handle
 - Removes mastic off floor tiles (be sure to wipe floor clean after using WD-40)
 - Removes gunk from mechanical hoist gears
 - Removes newspaper ink from tables
 - Removes gunk from overhead projectors
 - Removes gunk from plastic desk protectors
 - Removes gunk from Plexiglas
 - Removes printer toner from unwanted places
 - Removes gunk from pushbutton switches on hand controls for patient hospital beds
 - Removes gunk from reflectors on fluorescent lights
 - Removes gunk from resin encrusted table saw blades
 - Removes roofing tar off circular saw blades
 - Removes rust on conveyors
 - Removes gunk from rusty saws
 - Removes salt-impregnated ice from the soles of work boots
 - Removes sawdust from wood working tools
 - Removes scum from rubber gloves
 - Removes gunk from shoe repair equipment
 - Removes gunk from spray paint nozzles
 - Removes stickers from postal mail sorting equipment belt rollers
 - Removes tape and glue left from microscope stand and equipment
 - Removes gunk from vending machine motors
 - Removes welding dust
 - Removes window caulking
 - Coat dental instruments before putting in autoclave to prevent excessive oxidation
 - Coat door knobs prior to painting to keep paint from sticking
 - Coat drill press spindle for rust protection
 - Use bottom of can to draw perfect circles
 - Use as coolant and polishing agent in a grinding operation
 - Drives moisture away from push buttons that can become oxidized
 - Drives moisture from helicopter quadrants
 - Drives moisture from seismic cable connectors
 - Drives moisture from spark plugs on tanks
 - Drives moisture from telephone wire connections in network interface box
 - Drives moisture out of electric generators
 - Eases removal of concrete grout from test cubes used in construction
 - Eases removal of old ID stickers from computer cases
 - Eases removal of solidified spitballs
 - Eliminates squeaks from locks
 - Frees stuck conveyor belt rollers
 - Frees stuck escape slides located at bottom of entry doors on planes
 - Frees stuck lock on lock boxes
 - Frees up extendable paint roller poles that get clogged with paint
 - Frees up hot tar pipes
 - Frees up mechanisms in ergo chairs
 - Helps remove oxidization from bronze grave markers
 - Helps detect cracks in welds
 - Helps dissolve rust from fork lift parts
 - Helps hide scratches on plastic safety goggles
 - Helps maintain waterproof seal in telephone splice cases
 - Helps protect sluice boxes
 - Helps reclaim rusted plumbing snake
 - Helps remove a chair base from a press fit hydraulic cylinder
 - Helps remove hands from stuck pipe
 - Helps remove rust from calipers
 - Helps remove shoe polish stains from socks
 - Hides scratches on metal elevator doors
 - Hides small scratches on woodwork
 - Increases life of high-speed dental hand pieces
 - Keeps adhesive from building up on face cut dies
 - Keeps circumference rulers from rusting
 - Keeps construction lifts tidy from stucco job
 - Keeps knobs on heart monitor defibrillators gunk free
 - Keeps lock down plate well-kept on oil wells
 - Keeps metal filing tools from filling with lead or zinc
 - Keeps office chair wheels rolling smoothly
 - Keeps paint from sticking to glass
 - Keeps paint from sticking to paint brushes
 - Keeps prison cell doors from squeaking
 - Keeps snake and reptile skins pliable in taxidermy
 - Keeps table saw arbor from gumming up and sticking
 - Keeps tape from sticking to drywall tools
 - Loosens frozen infuser pumps from poles in hospitals
 - Loosens gum stuck to bottom of tables
 - Loosens gummy residue from carbide tipped blades
 - Loosens knobs on adjustable drafting table
 - Loosens locking mechanisms on ladders
 - Loosens pulleys on cable-operated bulldozers
 - Loosens rusted bolts on radio antenna clamps
 - Loosens rusty hinges on mail carts
 - Loosens rusty security gate hinges
 - Loosens strapping tape after a hurricane
 - Loosens stuck buttons on adding machines
 - Loosens stuck locks on parking meters
 - Loosens tooling on tablet making machine

LIST OF 2000+ USES

The uses of WD-40 Multi-Use Product described on this website were provided to WD-40 Company by end-users of the product, and do not constitute recommendations or suggestions for use of WD-40 Multi-Use Product by WD-40 Company. These uses have not been tested by WD-40 Company. Consumers should exercise common sense whenever using WD-40 Multi-Use Product. Always follow the instructions and take heed of any warnings on the WD-40 Multi-Use Product packaging.

- Loosens up the crank on old hospital stretchers
- Lubricate guide rollers on digger derrick
- Lubricate O-rings when rebuilding oil pumps
- Lubricate wheels of paper shredders, to prevent paper from jamming
- Lubricates adjusting mechanisms on office chairs
- Lubricates adjustment knob on overhead projector
- Lubricates aluminum extrusion when cutting for length
- Lubricates and removes gunk from tension idlers on theater rigging system
- Lubricates and protects bucksaw blades
- Lubricates and protects electric stapler
- Lubricates antenna parts on tall broadcast towers
- Lubricates arm of post-office letter sorter
- Lubricates automatic envelope making machine
- Lubricates axle on rotating shoe polisher
- Lubricates ball bearings in chairs
- Lubricates battery handles on laryngoscopes
- Lubricates bone joints of skeletons in laboratories
- Lubricates boxcar doors on rail cars
- Lubricates bulk loading caulking gun
- Lubricates C-Clamps on stage lighting instruments
- Lubricates cash drawer locks
- Lubricates casters on antique desks
- Lubricates casters on mobile pizza making table
- Lubricates casters on power tool stands
- Lubricates casters on Rubbermaid utility carts
- Lubricates caulk guns
- Stops squeaking caused by new leather work boots
- Lubricates chain-link conveyor belt in pizza ovens
- Lubricates child safety seat latches on shopping carts
- Lubricates cipher locks
- Lubricates cogs on rollers of x-ray film processing machine
- Lubricates computer cart wheels
- Lubricates control pulleys
- Lubricates cop saws
- Lubricates crank mechanism on pencil sharpener
- Lubricates curtain tracks in hospital rooms
- Lubricates date stamps
- Lubricates desk locks
- Lubricates diamond cutting wheel on glass cutter
- Lubricates draw heads on railroad boxcars
- Lubricates drive system of dollar bill changers
- Lubricates dumpster wheels
- Lubricates during lathe turning operations
- Lubricates electric pencil sharpeners
- Lubricates emergency gear handle on Piper Aztec
- Lubricates fiber optic cable when routing through narrow ducts
- Lubricates file cabinet hardware
- Lubricates fingers stuck in hole
- Lubricates flagpole pulleys
- Lubricates flashlight switches
- Lubricates gas chromatography motors
- Lubricates gate locks
- Lubricates gears on light bars on police cars to keep lights spinning freely
- Lubricates gears on paper shredder
- Lubricates grinder bit on stained glass grinder
- Lubricates gripper bar on printing presses to allow sheets to release properly
- Lubricates gumball machine mechanisms
- Lubricates gurneys
- Lubricates handles on three-hole punch and prevents handles from sticking
- Lubricates hanging IV pole stand wheels
- Lubricates head stops on litho presses
- Lubricates heavy-duty machine screws
- Lubricates hell hole micro switches
- Lubricates hell hole roller switches
- Lubricates hole punches
- Lubricates hydraulic barber chairs
- Lubricates inside of orthopedic shoes for easy removal of cast/mold
- Lubricates interchangeable numbers on gas station price placards
- Lubricates jet engines to ease overhaul and disassembly
- Lubricates joints of folding sawhorses
- Lubricates kiln lid hinges
- Lubricates large mixing bowls in commercial mixers
- Lubricates lead snippers
- Lubricates legs on HETs (Heavy Equipment Transporter) for easy sliding
- Lubricates lever on razor scraper
- Lubricates lift arms on fork lifts
- Lubricates locking mechanisms on video drop slots
- Lubricates log splitters
- Lubricates Mayo stands for smooth up and down movement during surgery
- Lubricates mechanical pens and pencils
- Lubricates metal before running through a roll-former
- Lubricates metal joints on bed frames
- Lubricates micrometers on precision tools
- Lubricates miter saw blade
- Lubricates mop bucket casters
- Lubricates mouse trap machinery
- Lubricates nails to ease disassembly of pallets
- Lubricates notebook binders
- Lubricates O-rings prior to assembly
- Lubricates outflow valves
- Lubricates overhead projector cart wheels
- Lubricates paper cutter blades
- Lubricates pencil sharpener gears
- Lubricates piano hinges on tool box
- Lubricates power injecting device strung from the ceiling in Cardiac Catheterization Lab
- Lubricates precision grinding saws
- Lubricates pressure hose on gold dredge
- Lubricates pressure hose on silver dredge
- Lubricates pull starter on generator
- Lubricates rings on ring binders
- Lubricates rollers on copper tubing cutter
- Lubricates rollers on metal cash register drawers
- Lubricates rollers on radial arm saw
- Lubricates rolodex bearings
- Lubricates rooftop evaporative coolers
- Lubricates rotating coffee shop chairs
- Lubricates rotor head of helicopters to stop elastomeric dampers from squeaking
- Lubricates router collets
- Lubricates rubber wheels
- Lubricates rusted fasteners
- Lubricates rusted screws
- Lubricates school locker latches
- Lubricates shifting links on bulldozers
- Lubricates side guides on litho presses
- Lubricates slide for box cutter
- Lubricates sliding doors on passenger trains
- Lubricates sliding power saw guides
- Lubricates sliding rollers on diamond blade tile saw
- Lubricates socket wrench
- Lubricates spinning magazine racks
- Lubricates spring-loaded office chairs
- Lubricates staple guns
- Lubricates stethoscope
- Lubricates sticky brakes on a Genie lift
- Lubricates sticky mechanisms on old typewriters
- Lubricates stuck buttons on push-button calculators
- Lubricates stuck screws on overhead projectors
- Lubricates stuck vending machine knobs
- Lubricates stuck washers
- Lubricates swivels on 35-ton grove crane
- Lubricates table saw casters
- Lubricates table saw runners
- Lubricates tank ignition system
- Lubricates tills on cash registers
- Lubricates tilt mechanism on swivel chair
- Lubricates track adjusting screws
- Lubricates transcription machines
- Lubricates trunk latches
- Lubricates tuning mechanism on scanners
- Lubricates turnbuckles
- Lubricates vending machine locks
- Lubricates vice handles
- Lubricates vise
- Lubricates wheels of pallet jack
- Lubricates wheels of rolling book bags
- Lubricates wood shapers
- Makes Tygon flexible tubing fit over glass tubing with approximately the same diameter
- Penetrates and frees stuck buttons on telephones
- Penetrates and frees up stuck packing glands on water valves
- Penetrates and loosens screws on furniture clamps
- Penetrates levers on office chair for easy adjustments
- Prevents breakage of contact pins and support when changing fluorescent light bulbs
- Prevents corrosion on helicopter blades
- Prevents corrosion on wing interior
- Prevents rust on clamps
- Prevents rust on floor sanding machines
- Prevents rust on hand saws
- Prevents rust on testing bars
- Prevents the hydraulic unit on a B0105 helicopter from malfunctioning; Apply WD-40 every morning during daily inspection
- Protects against corrosion on high tension circuits
- Protects and maintains armor suits
- Protects and polishes bronze grave markers
- Protects archeological tools
- Protects bandsaw bearings
- Protects chains from getting rusty
- Protects coaxial fittings on modem
- Protects combination locks
- Protects drives on wire welders
- Protects drywall tools
- Protects helicopter M/R blades from rust
- Protects metal water meters from rust and corrosion
- Protects motors coupled to pumps to prevent faulty packing glands
- Protects plumbing "runner ropes" from being burned by molten lead
- Protects rhinos (a digging tool for fighting forest fires) from rust
- Protects steel doctor blades on flexographic printing presses
- Provides protective coating for Teflon® heating strips
- Reconditions old mining tools hauled in from desert gold mines
- Reconditions rollers in fax machines
- Rehydrates paintbrush bristles
- Relieves squeaks on crystallographic grease machine
- Removes tape from office furniture
- Removes asphalt from overshoes
- Removes asphalt from tools
- Removes concrete from metal
- Removes chewing gum from lunch trays
- Removes coffee stains from leather
- Removes Cosmeline coatings from milling machines and other shop tools
- Removes crater grease from rail lines
- Removes crayon from Formica®
- Removes deposit buildup on sand belts
- Removes evidence tape glue from evidence tape after evidence has been processed
- Removes fingerprints from glossy covers of magazines and book covers

LIST OF 2000+ USES

The uses of WD-40 Multi-Use Product described on this website were provided to WD-40 Company by end-users of the product, and do not constitute recommendations or suggestions for use of WD-40 Multi-Use Product by WD-40 Company. These uses have not been tested by WD-40 Company. Consumers should exercise common sense whenever using WD-40 Multi-Use Product. Always follow the instructions and take heed of any warnings on the WD-40 Multi-Use Product packaging.

- Removes glue from copper foil during stained glass production
 - Removes grease from lunch boxes
 - Removes gunk from book bags
 - Removes gunk from cooler doors
 - Removes gunk from lace hoops on work boots
 - Removes ink from rollers in printing press
 - Removes ink stains from leather
 - Removes marks-a-lot ink from most items
 - Removes oil from hands
 - Removes oil stains from nylon
 - Removes paint from dungarees
 - Removes paint from shoes
 - Removes paint from windows
 - Removes permanent marker from dry erase boards
 - Removes petroleum stains from clothing
 - Removes pine pitch from table saw blades
 - Removes roofing tar from shoes
 - Removes rust from dog tags
 - Removes rust from files
 - Removes rust from metal table legs
 - Removes rust from old keys
 - Removes rust from rollers on storage shed door
 - Removes rust from stainless steel vault doors
 - Removes scuff marks from walkie-talkies
 - Removes spray paint from reflectorized street markers
 - Removes squeak from dental chairs
 - Removes stains from coffee cups
 - Removes surgical tape from hospital bed rails
 - Removes tape marks from dry erase boards
 - Removes tar and asphalt from soles of shoes
 - Removes tar from feet
 - Removes tar from hands
 - Removes transparent tape from x-ray machines
 - Renews dried-up ink on adding machine ink rollers
 - Softens rubber O-ring
 - Spray a little on the tips of "dead" ball point pens to rejuvenate them
 - Spray bottoms of storage containers to prevent sticking to shelves
 - Spray chalk lines drawn on asphalt to keep them from washing away in the rain
 - Spray chisels for smooth cutting
 - Spray in a box of nails to keep them fresh and rust free
 - Spray locking rods of portable fire proof safes to keep them operating freely
 - Spray on bed liners to keep rebar from sticking
 - Spray on main valve for pond pumps to check for a tight seal
 - Spray on paint before scraping to make paint come off easier
 - Spray on rag and wipe exterior to help keep CPR mannequins well-kept
 - Spray on sewer vent cover to keep it from freezing shut
 - Spray on swing blade for smoother cutting
 - Spray on the inside of Victaulic pipe clamps for easier application of anti-seize
 - Spray on workbench to keep glue from sticking
 - Spray pegs in peg board for easy adjustment
 - Spray stainless steel tables (used to collect/pack fish) to prevent "pits" from rusting
 - Stops squeak of calculator tape register
 - Stops squeaks on add-ons to police gun belt
 - Stops squeaks on gears of hydraulic chairs
 - Stops squeaks on metal library book carts
 - Stops squeaks on papercutters
 - Stops squeaks on shopping cart wheels
 - Stops squeaks on sliding keyboard holder
 - Stops squeaks on web gear (pistol belt) during army maneuvers
 - Stops the squeaky noise from x-ray film cartridges
 - Use a full can for a nifty paperweight
 - Use as a cutting oil when drilling
 - Use as a tapping lubricant
 - Use as cutting fluid when drilling copper
 - Use can to prop open windows
 - Use for science project on rust prevention
 - Use full cans for bookends
 - Use on chair fittings to reduce noise
 - Use to unstick telephone buttons
 - Wipe across heavy laminates to make cutting easier
 - Works well for dissolving thread lock compound
 - Removes gunk and protects control panel boards
 - Removes gunk from ballast oil off tile floors (be sure to wipe floor clean after using WD-40)
 - Dissolves butyl caulk
 - Lubricates handle of heavy-duty ingredient mixers
 - Removes dried garbage from trash compactor wheels
 - Removes hydraulic fluid from Lear jets
 - Spray copper wire before applying rubber insulation with glue to allow lines to slide easier
 - Spray electronic TV circuit boards to prevent oxidation before installation
 - Stops squeak from dental chairs
- ## OTHER
- Lubricates vinyl records to prevent skipping
 - Lubricates wheels on power wheelchairs
 - Removes gunk and protects blower fans
 - Removes gunk and protects porthole dogs
 - Removes gunk and shines magnetic tape
 - Removes gunk from ashtrays
 - Removes gunk from battery chargers
 - Removes gunk from cell phone battery connections
 - Removes gunk from cell phones
 - Removes gunk from clogged propane nozzles
 - Removes gunk from cup holders
 - Removes dust from artificial flowers
 - Removes grease pencil from ceramic tile
 - Removes gum from door sills
 - Removes gum from turtle shells
 - Removes gunk from gummed up soap trays
 - Removes gunk from electrical contacts
 - Removes gunk from lock cylinder pins and plugs when re-keying lock
 - Removes mastic off ceramic and marble floor tiles (be sure to wipe floor clean after using WD-40)
 - Removes gunk from music racks
 - Removes gunk from oil burner parts
 - Removes gunk from outdoor electrical relay contacts
 - Removes gunk from reusable air filter elements
 - Removes rust from metal exterior of speakers
 - Removes rust off Santa's sleigh runners
 - Removes rust from rusty jewelry
 - Removes salt-impregnated ice from the soles of Doc Marten boots
 - Removes smoke stains
 - Removes gunk from stainless steel ashtrays
 - Removes tar from rubber water hoses
 - Removes gunk from transmission valve body parts
 - Removes gunk from tuner controls on AM/FM boat radios to eliminate static when tuning
 - Removes gunk from vacuum cleaner dials
 - Removes water stains from outboard motor
 - Removes gunk from wire rims on glasses
 - Removes gunk, protects and lubricates metal buckles on snow gear
 - Conditions synthetic rubber to make slicing easier
 - Creates pretty rainbow formations when applied to empty aquariums
 - Drives moisture from antenna connectors
 - Drives moisture from bird bath heaters
 - Drives moisture from boat trailer lights
 - Drives moisture from gyro compasses
 - Drives moisture from pocket watches
 - Drives out moisture from flashlights
 - Eases assembly of intricate devices when light oil is needed
 - Frees rusted hinges on fire alarm box
 - Frees stuck hands from narrow bars and railings (stairwells)
 - Frees stuck intercom buttons on apartment security systems
 - Frees stuck purse latches
 - Helps remove gunk and messes from crevices and holes in clunker van
 - Helps remove gunk from metal surfaces
 - Helps remove rust from wire shelves
 - Helps fix watches
 - Helps remove candle soot from glass containers
 - Helps remove flood water marks from cedar paneling
 - Helps remove skid marks from concrete
 - Helps seal gaskets
 - Helps separate dual layer projection TV screen so that outer screen can be replaced without damaging the inner screen
 - Keeps jack from sticking on c-band satellite systems
 - Keeps pendants from sticking to clasps on necklaces
 - Keeps winch cable lubricated and gunk-free
 - Loosens rusted blower motor from blower wheel
 - Loosens screws in watch bands to enable link removal
 - Loosens stuck joints on rusted light trees
 - Loosens stuck screws on overhead projectors
 - Lubricate snap swivels on dog runs
 - Lubricates adjustment knobs on overhead projectors
 - Lubricates and stops squeaks on folding animal cages
 - Lubricates auger blades and discharge chute of snow blower
 - Lubricates blades on Flowbee hair cutting system
 - Lubricates chain on scrubber machines
 - Lubricates flapper in vent shield on gas meter
 - Lubricates flashlight battery compartment to ease removal of stuck batteries
 - Lubricates hamster play wheel
 - Lubricates hinges on antique smoking stand
 - Lubricates hospital sterilizer doors
 - Lubricates lift shaft of sump pumps
 - Lubricates metal fasteners on corsets
 - Lubricates oil filter gasket
 - Lubricates onion ring breader machine
 - Lubricates pulley on sump pump
 - Lubricates recoil starter on snow blower
 - Lubricates roof ventilation turbines
 - Lubricates rotating coffee shop chair
 - Lubricates rubber insulation around storm doors
 - Lubricates screen channels upon installation of rubber bead
 - Lubricates slide locks
 - Lubricates sliding battery covers for easy removal
 - Lubricates sliding tracks on French doors
 - Lubricates the threads of coax/antenna connectors on amateur radio antennas
 - Lubricates volume control on hearing aids
 - Lubricates wood screw for easier installation
 - Preventative maintenance on Christmas decorations before storage
 - Prevents metal components on Christmas decorations from rusting
 - Prevents rust and discoloration on lids of jars of canned fruits and vegetables (ensure jar sealed tightly)
 - Prevents rust from forming on washing machines
 - Protects exposed metal parts on snow blowers
 - Protects powder coated metal
 - Protects shellfish rakes from rust
 - Protects silver from blackening
 - Protects wrought iron from rust

LIST OF 2000+ USES

The uses of WD-40 Multi-Use Product described on this website were provided to WD-40 Company by end-users of the product, and do not constitute recommendations or suggestions for use of WD-40 Multi-Use Product by WD-40 Company. These uses have not been tested by WD-40 Company. Consumers should exercise common sense whenever using WD-40 Multi-Use Product. Always follow the instructions and take heed of any warnings on the WD-40 Multi-Use Product packaging.

- Quiets noisy turbine ventilators
- Removes bees wax
- Removes blue baked-on acrylic cover shields from acrylic windows
- Removes boot marks from deck of navy boat
- Removes calcium deposits from dehumidifier
- Removes carbon from burn marks from tile flooring (be sure to wipe clean after using WD-40)
- Removes excess wax from rubber bumpers
- Removes extension glue from hair
- Removes floodwater marks on paneling
- Removes grime from cellular antenna to improve reception
- Removes gum from aluminum siding
- Removes gum from flagpoles
- Removes liquid nails from hands
- Removes masking tape residue from linoleum (be sure to wipe clean after using WD-40)
- Removes residue left by double-backed toupee tape
- Shines diamonds
- Soften stiff leather sandals
- Softens stiff leather dog collars
- Stops squeaks on and protects metal can crusher
- Stops squeaks on rotating parts
- Tones down shine of polyurethane
- Unfreezes snowshoe zippers
- Use as a parting agent between a surface and a sealant
- Apply to golf shoe spike threads to prevent rust
- Helps lubricate chin strap snaps on football helmets
- Helps remove golf club grip tape during regripping process
- Keeps mud from sticking to cleat bottoms when playing in rainy weather
- Loosens screws on old bicycle bells
- Lubricates flyball box trigger mechanisms
- Lubricates folding mechanism of golf bag pull-carts
- Lubricates folding parts of Razor[®] scooters
- Lubricates golf bag zippers
- Lubricates mountain bike derailleurs
- Lubricates moving parts on playground equipment
- Lubricates sections of telescoping golf ball retrievers
- Lubricates stuck zippers on wetsuits
- Removes adhesive from bicycle frames
- Removes adhesive from racquetball racket grips prior to installation
- Removes paint from fishing lures
- Removes squeaks from shin guards
- Aids attachment of spars to sail of kites
- Allows for easy removal of arrows from targets
- Anti-rust agent and lubricant for gun magazines (not gun barrels)
- Removes gunk and conditions rubber on table tennis paddles
- Removes gunk and lubricates remote control model helicopter
- Removes gunk and polishes cooking kettles (wash well before use)
- Removes gunk and protects adjusting screws on bicycle seats
- Removes gunk and protects bayonets
- Removes gunk and protects boot buckles
- Removes gunk and protects cowboy boots
- Removes gunk and protects dune buggy rotor caps
- Removes gunk and protects metal buckles on snow gear
- Removes gunk and protects metal fencing uniform parts
- Removes gunk and protects miniature golf gear
- Removes gunk and protects radar gear
- Removes gunk and protects shoelace eyelets
- Removes gunk and protects toy trucks (be sure to wipe clean after using WD-40)
- Removes gunk and protects trailer hitch locking mechanism
- Removes gunk from bike chains
- Removes gunk from bottom of coil on metal detector
- Removes gunk from bowling ball finger holes
- Removes gunk from bowling balls
- Removes gunk from chrome bicycle frame
- Removes gunk from dice
- Removes gunk from dirt from stabilizer jacks on camping trailer
- Removes doggie doo from tennis shoes
- Removes gunk from exterior of drums
- Removes gunk from golf balls
- Removes gunk from golf cart seats
- Removes gunk from golf club faces
- Removes gunk from golf club shafts
- Removes gum from skateboard axles
- Removes gunk from hiking boot treads
- Removes gunk from rollerblade bearings
- Removes gunk from travel trailer siding
- Removes gunk from snow chains
- Removes lacquer from bronze hardware fittings
- Removes mud from shoes
- Removes peanut butter from shoestrings
- Removes gunk from pool cue sticks
- Removes gunk from reloading dies
- Removes residue on luggage handles
- Removes gunk from runners on slot cars
- Removes rust from sprockets
- Removes spots from shoes
- Removes gunk from swing arms on dirt bikes
- Removes gunk from table tennis rackets
- Removes gunk from volleyballs
- Degreases bicycle chains
- Degreases bicycle frame
- Displaces moisture from guns after cleaning
- Displaces moisture from submerged cellular phones
- Drives moisture from bicycle bearings
- Drives moisture from bicycle gear shifting cables
- Drives moisture from buckles on scuba diving belt
- Drives moisture from fishing tackle
- Drives moisture from fishing waders after use
- Drives moisture from lifejacket turnbuckles
- Drives moisture from moving parts of compound bows
- Drives moisture from radar gear
- Drives moisture from tire air nozzles after washing
- Drives out moisture from jet ski and other watercraft spark plugs
- Eases application of rubber racquetball racquet grips
- Eases installation and removal of tent stakes
- Eases removal of bicycle training wheels
- Frees rusted locks on tackle boxes
- Frees rusted trailer hitch pins
- Frees stuck elevator cables on ultralight aircraft (gliders)
- Gives bowling balls "less grab" on the lanes
- Helps break in leather gun holsters
- Helps break in shoe portion on new roller skates
- Helps break in softball mitts
- Helps break-in tough hi-top shoes
- Helps disassemble stuck parts of swing set
- Helps lubricate chinstrap snaps on football helmets
- Helps remove light bulbs from digital scoreboard
- Helps remove rust from pins in weightlifting equipment
- Helps remove stubborn rust from tow ball
- Helps remove stuck freewheel
- Helps remove stuck prosthetic leg
- Helps remove turntable plates from phonograph record player
- Helps removes golf club grip tape during regripping process
- Helps removes rust from golf clubs
- Keeps barbells from rusting
- Keeps camping gear free of rust
- Keeps fishing lures corrosion free
- Keeps fishing reels rust free
- Keeps golf cart wheels rust free
- Keeps horseshoes from rusting
- Keeps lures from snagging on lily pads and lake grass
- Keeps plastic fishing lures from sticking together
- Keeps rust from forming on hockey skate blades
- Keeps RV slides rust free
- Keeps saddles rust free
- Keeps seat staples from rusting on personal watercraft
- Keeps snow from sticking to impeller
- Keeps stationary bicycle pedals from squeaking
- Keeps tackle from freezing during ice fishing
- Keeps tap shoes working smoothly
- Keeps top line guides from freezing on fishing rods when ice fishing
- Keeps trailer hitch receiver and insert looking new
- Loosen stuck golf cart parts
- Loosens chainsaw triggers
- Loosens football cleats for easier removal
- Loosens hammer locks and chamber of starting pistol for track meets
- Loosens joints of costume
- Loosens lock on golf cart shed
- Loosens oar locks on rowboats
- Loosens old LPs from turntable spindles
- Loosens rusted nuts on volleyball net
- Loosens stuck trailer hitches
- Loosens swivel on bicycle handlebars

SPORTS & RECREATION

- Removes fingerprints and smudges from martial arts swords
- Drives moisture from wet bicycle chains
- Drives moisture from and prevents corrosion on SCUBA gear
- Drives moisture from and prevents rust on rappelling equipment
- Drives moisture from bicycle chains after washing
- Drives moisture from canoe accessories and fittings
- Drives moisture from fishing gear
- Drives moisture from fishing lures, hooks and tackle
- Drives moisture from jet ski spark plugs
- Helps break-in baseball mitts
- Helps drive out excess water from kayaks
- Helps remove reflector tape from life jackets
- Keeps camping gear free from rust
- Keeps dirt and mud from sticking to ATVs
- Keeps dirt and mud from sticking to mountain bikes
- Keeps dirt and mud from sticking to outdoor recreational gear
- Keeps ice skate blades from rusting
- Lubricates moving parts of fishing flies
- Lubricates moving parts on sailboats such as sheaves, shackles, tiller arms and sail tracks
- Lubricates sailboat pulleys and other moving parts
- Lubricates ski and snowboard bindings
- Lubricates zippers on camping equipment storage bags and sleeping bags
- Penetrates and loosens lug nuts on boat trailers
- Penetrates and lubricates choke lever on boat engines
- Penetrates rusted parts on fishing gear
- Penetrates rusted parts on snowmobiles
- Penetrates rusted parts on snowshoes
- Polishes and protects golf clubs
- Prevents mud from sticking to undercarriages of ATVs
- Prevents saltwater oxidation on bikes
- Protects fishing gear from rust and corrosion
- Removes barnacles from bottom of boats
- Removes moisture between handle & shaft of golf irons
- Removes mud and debris from mountain bike gears and chains
- Removes surfboard wax from car roof
- Removes water marks from sea kayaks
- Stops squeaks on backpacking accessories and gear

LIST OF 2000+ USES

The uses of WD-40 Multi-Use Product described on this website were provided to WD-40 Company by end-users of the product, and do not constitute recommendations or suggestions for use of WD-40 Multi-Use Product by WD-40 Company. These uses have not been tested by WD-40 Company. Consumers should exercise common sense whenever using WD-40 Multi-Use Product. Always follow the instructions and take heed of any warnings on the WD-40 Multi-Use Product packaging.

- Loosens tight folding chair hinges
- Loosens track shoe spikes
- Loosens zippers on sleeping bag
- Lubricate arrow inserts for easy replacement
- Lubricate sections of telescoping golf ball retrievers
- Lubricates air holes before inserting hand air pump nozzle onto tires
- Lubricates amplifier knobs
- Lubricates and removes gunk from prosthetic arms
- Lubricates and protects snowmobile suspension
- Lubricates and protects unicycle seat post
- Lubricates and stops squeaks in handle of adjustable cane
- Lubricates ankle braces
- Lubricates auto cocker on paintball gun
- Lubricates axles of golf cart
- Lubricates axles on miniature racing cars
- Lubricates baby buggy wheels
- Lubricates baseball pitching machine and prevents rust
- Lubricates bearings in wheels on boat trailer
- Lubricates bed wheels for more speed while bed racing
- Lubricates belt drive for golf cart to stop shuddering on startup
- Lubricates bicycle brake pad hinges
- Lubricates bicycle shocks
- Lubricates bicycle U-locks
- Lubricates boot zippers
- Lubricates brake levers on wheelchairs
- Lubricates cams of compound bows
- Lubricates crossbows
- Lubricates dart guns
- Lubricates fishing reel knobs
- Lubricates flywheels on "spinning" cycles at the gym
- Lubricates folding mechanism of golf pull-carts
- Lubricates folding parts of collapsing golf clubs
- Lubricates folding tent pole joints
- Lubricates foosball table axles to make figures move better
- Lubricates foot pedals on wheelchairs
- Lubricates gear sprockets on mountain bikes
- Lubricates gears on exercise bikes
- Lubricates gears on RC cars
- Lubricates go-cart gears
- Lubricates go-cart linkage
- Lubricates golf bag zipper
- Lubricates gun table rollers
- Lubricates handheld clay pigeon launcher
- Lubricates hinge on beer stein
- Lubricates hinges and wheels on toy wagon
- Lubricates hinges of trick (folding) golf clubs
- Lubricates hinges on plastic coolers
- Lubricates hinges on skunk racing box
- Lubricates hydraulic rams on slideout of 5th wheel
- Lubricates ice chest locks
- Lubricates inner tubes for faster sledding
- Lubricates inside of handgrips to ease installation
- Lubricates iso-kinetic workout machines
- Lubricates joints on golf pull-carts
- Lubricates leather gasket of Coleman stove
- Lubricates leg brace hinges
- Lubricates locks on money boxes on gaming tables
- Lubricates metal joints on old wooden toys
- Lubricates metal joints on pool cues
- Lubricates metal parts of badminton net
- Lubricates mountain bike derailleur
- Lubricates moving parts of cross country skis
- Lubricates moving parts of Swiss Army® knife
- Lubricates moving parts of toys (be sure to wipe clean after use)
- Lubricates moving parts on Black Spider Ride in Coney Island Amusement Park
- Lubricates paddleboat axles
- Lubricates paintball gun barrel
- Lubricates pedals of paddle boats
- Lubricates pellet guns
- Lubricates pinball machine flippers
- Lubricates pin-setters in bowling alleys
- Lubricates potato guns
- Lubricates racquetball racket grips prior to installation
- Lubricates retractable legs on "standing" golf bags
- Lubricates rollers on rowing machine
- Lubricates rotating weightlifting seats
- Lubricates rowing machines
- Lubricates rubber part of sandals for easy repair (putting plastic back into designated hole)
- Lubricates runners on diving board to make fulcrum move
- Lubricates rusted parts on snowmobile tie-down bars
- Lubricates rusted umbrellas
- Lubricates rusty pogo sticks
- Lubricates sail tracks
- Lubricates sailboat shackles
- Lubricates sailboat sheaves
- Lubricates shaft of slot machine coin receiver
- Lubricates sleds and toboggans
- Lubricates snaps to make putting on boat top easier
- Lubricates snowboard bindings
- Lubricates sports bag zippers
- Lubricates stationary bicycles
- Lubricates steel zippers on camping equipment storage bags
- Lubricates stuck bolts on diving boards
- Lubricates stuck zipper on wetsuits
- Lubricates swinging leg rests on wheel chairs
- Lubricates swivel on swing set
- Lubricates swivels on fishing lures
- Lubricates target turners at shooting ranges
- Lubricates tent pole twist locks
- Lubricates the oar joints in racing shell
- Lubricates tiller arm on sailboat
- Lubricates training wheels
- Lubricates vintage jukebox mechanisms
- Lubricates walkers for easier folding
- Lubricates weight machine pulleys
- Lubricates wheelchair axles
- Lubricates wheelchair bearings
- Lubricates wheelchair gears
- Lubricates wheels of Tonka trucks
- Lubricates wheels on compound bow
- Lubricates wheels on portable batting cages
- Lubricates wheels on rolling Ping-Pong tables
- Lubricates winding mechanisms on wind-up toys
- Lubricates window hinges on horse trailer
- Lubricates windsurfing gear
- Lubricates zippers on bowling bags
- Penetrates and removes gunk from stiff buckles on horse equipment
- Polishes fishing lures
- Polishes splash guards
- Prevents buildup of grease and dirt on portable lanterns
- Prevents buildup of grease and dirt on portable stoves
- Prevents canopy stakes from rust
- Prevents corrosion on my sailboat pulleys
- Prevents fishing flies from rusting
- Prevents rust and Removes gunk from Katana swords
- Prevents rust from forming on metal picnic cups
- Prevents rust from forming on ski bindings
- Prevents rust on bicycle brake cables
- Prevents rust on bicycle brake threads
- Prevents rust on bicycle frame
- Prevents rust on bicycle spokes
- Prevents rust on golf spikes
- Prevents rust when sprayed on bike scratches
- Prevents salt damage on aluminum exterior components of personal watercrafts
- Protects arrowheads from corrosion
- Protects baseball gloves during off-season
- Protects bayonets from rust while stored in sheaths
- Protects bicycle chain
- Protects bike frame from salt water corrosion
- Protects football helmets
- Protects golf clubs against rust and corrosion
- Protects gun parts when being stored
- Protects gym lockers from steam/water damage
- Protects ice-fishing auger from rust
- Protects jet-ski engine compartment from corrosion
- Protects kite line
- Protects metal baseball bat from rust
- Protects metal fencing blades
- Protects swing chains from rusting
- Protects trucks on skateboards
- Quiets fastening mechanism on snowshoe crampons
- Quiets squeaks on baby strollers
- Reduces friction on cardboard box for mini-hockey game
- Refurbishes antique fishing lures
- Rejuvenates soft plastic fishing lures
- Removes adhesive from kayak
- Removes adhesive from sunglasses
- Removes adhesive price tag from shoe bottoms
- Removes algae from canoes
- Removes athletic tape from ankles
- Removes ball marks from aluminum baseball bats
- Removes bike skid marks from driveway
- Removes dead insects from golf carts
- Removes deep stains from basketballs
- Removes duct tape residue from mono-ski seat
- Removes fish slime from tackle
- Removes grass stains from sneakers
- Removes grass stains from softballs
- Removes gum from bottom of shoes
- Removes gum from plastic stroller wheels
- Removes gum from tents
- Removes paint from lures
- Removes pine tar from baseball bat
- Removes road film from brake cables
- Removes rust from sled runners
- Removes scuff marks from rubber edges of tennis shoes
- Removes scuff marks from slides and climbers
- Removes sports tape from uniforms
- Removes squeak from deer hunting stands
- Removes squeaks from sky gliders
- Removes stickers from arrows
- Removes stickers from surfboards
- Removes stiffness from dried out leather work gloves
- Removes tape from aluminum bats
- Removes tape from hockey stick
- Removes tar from beach and sand toys
- Removes tar from horseshoes
- Removes tire marks from fiberglass body of go-carts
- Removes unwanted decals from bicycle frames
- Removes wax from shoes
- Restores transparency of plastic shoes
- Rub into hands before touching lures or bait to disguise human scent
- Shines bike tires
- Shines golf clubs
- Shines vinyl on jukeboxes
- Shines vinyl sneakers
- Softens and removes gunk from netting on lacrosse sticks
- Softens plastic hockey stick blades
- Softens stiff ice hockey skate boots
- Softens stiff leather sandals
- Spray cleats before playing in rainy weather to keep mud from sticking
- Spray golf shoe spike threads to prevent rust from forming in sockets
- Spray in rubber over-booties to make putting them on easier

LIST OF 2000+ USES

The uses of WD-40 Multi-Use Product described on this website were provided to WD-40 Company by end-users of the product, and do not constitute recommendations or suggestions for use of WD-40 Multi-Use Product by WD-40 Company. These uses have not been tested by WD-40 Company. Consumers should exercise common sense whenever using WD-40 Multi-Use Product. Always follow the instructions and take heed of any warnings on the WD-40 Multi-Use Product packaging.
