

Shared ambition. Measurable action.

SUSTAINABLE
DESTINATION
PARTNERSHIP

Together, we are shaping a more sustainable Sydney. In FY25, the Sustainable Destination Partnership continued to turn shared ambition into measurable progress across the visitor economy, reducing emissions, improving water and waste outcomes, and increasing renewable electricity uptake. Since 2018, our partners have shown what is possible through collaboration. Together, we are building a destination that is more resilient, more responsible, and ready for the future.
