

UWB

# ULTRA-WIDEBAND TECHNOLOGY

UWB precisely measures distances, so users can unlock doors at close proximity with their UWB-enabled phone

## Next generation access control

Ultra-wideband enables secure and hands-free access to buildings and spaces that's instant, more secure, and more precise than other technologies

## Brings the keyless car entry experience to workplaces

Securely unlock doors at close range, without needing to wave or tap for a true **hands-free** experience

## Phone remains in pocket

Hands-free instant unlock

## Works on iPhone 11 and later and Android phones with UWB

Mobile credentials are harder to clone

## More secure than Bluetooth alone

Shorter, more precise range
