Start Date	End Date	Position title	Employer

Academic qualifications

Degrees

Please list your degree/s, date awarded and institution below. Please add more rows if required.

Degree	Date Awarded	University

Years post-PhD experience

You are eligible to apply for a Snow Fellowship if you are within the 10-year (PhD) and 12-year (MD/PhD) post-PhD year limits. In cases of Career Disruption, these limits may be extended commensurate with the period of the Career Disruption.

Years

Comments

Please refer to "Career Disruptions and consideration of other career circumstances" in the FAQs on our website for more information on what constitutes 'Career Disruption' for the purpose of determining an applicant's eligibility to apply for a Snow Fellowship.

Statement of Intent

The intent of the Snow Fellowship Program is to empower outstanding biomedical researchers to be **original, bold and ambitious** in their science. The Fellowship affords researchers the funds and timeframe to take risks, accelerate discovery, **drive impact** and improve lives. Snow Medical invests in developing fellows and their teams, to adopt **entrepreneurial mindsets** and think strategically, and to lead with integrity and generosity.

Please provide a short description of **why you are applying** for the Snow Fellowship, how you embody the principles of being a Snow Fellow, and how award of the Fellowship will allow you to undertake an 8-year scientific program at a scale and vision not otherwise achievable. 250 words.

Track record

Research opportunity and performance statement

Please detail any **significant interruptions** to your career which have affected your research capacity, productivity or contribution. We take gender equity seriously and research output relative to opportunity is an important element of assessment of track record. Please feel free to use dotpoints.

Please refer to “Career Disruptions and consideration of other career circumstances” in the FAQs on our website for more information on what constitutes ‘Career Disruption’ for the purpose of determining an applicant’s eligibility to apply for a Snow Fellowship.

200 words.

Publications

List your top five publications relevant to the proposed research project. Please indicate what you found, why this is important, and your role in this research.

#	Full reference	Importance	Role	Year of publication
1	List your top five publications relevant to the proposed research project. Publications include journal articles, book chapters, government/industry-commissioned research reports, etc.	What have you found and why is this important? How have your findings influenced your field of research and science/medicine more broadly?	What was your contribution to this body of work?	
2				
3				
4				
5				

Other Relevant Experience and Recognition

List up to 10 key achievements, e.g. conference presentations, awards, committee appointments, peer review experience, working group participation.

#	Type	Details
1	Conference presentation	
2	Award	
3	Committee appointment	
4	Peer review experience	
5	Working group participation	

6	Other -	
---	---------	--

Funding awarded

List funding awarded to current and past projects for the past five years, add a new row for each additional example if required.

#	Grant title	Chief Investigators	Funding source	Grant type	Grant amount	Currency	Years covered by grant
1	Grant Title	Indicate investigator level (e.g. CIA, CIB, CIC, etc.) and role		eg. Project	0.00		Years covered by grant e.g. 2022-2025

Research proposal details

Project title

Project start date

1/01/2028

Project end date

31/12/2035

Abstract

Please briefly summarise your scientific proposal, outlining the specific field you are working in (including associate disease, if relevant), your aims, research plan and significance. Please include one figure/image as a graphical abstract if required (optional). 250 words.

[Empty text area for abstract]

Research proposal

Please outline your research proposal, including a short background, key aims, approach and methods, detailed research plan and brief outcomes. If required, please include up to three figures/images. 1,500 words.

[Empty text area for research proposal]

References

Please list up to a maximum of 20 reference publications that support your research proposal.

Reference 1

Areas of discipline

Please select a maximum of 3 areas of discipline which your research represents.

Emerging leadership

Please provide a short description of your leadership experience to date and any recognition you have received. Examples include your ability to supervise and mentor other researchers, providing a suitable environment for students, capacity to build world-class collaborative research teams that demonstrate inclusion, diversity and innovation including potential links to industry, if appropriate. 200 words.

Certification

Applicant certification

I certify that:

- (i) all information in the application is true, accurate and complete;
- (ii) I meet the eligibility criteria for the Snow Fellowship as specified in the Funding Rules;

- (iii) I have complied with and agree to the Snow Fellowship Funding Rules;
- (iv) there are no allegations of research misconduct currently being investigated against me nor have any allegations been previously upheld;
- (v) there are no allegations of bullying and harassment currently being investigated against me nor have any allegations been previously upheld;
- (vi) no conflicts of interest exist in connection with this application and the research proposal. If a conflict of interest arises, I will immediately report it to my Host Organisation and Snow Medical;
- (vii) I will promptly notify Snow Medical if there are any changes in my circumstances that affect my eligibility or participation in the research project that is subject to this application form; and
- (viii) I have read, understood, and agree to Snow Medical's Privacy Policy and consent to my personal information being disclosed to overseas entities, organisations or individuals in connection with the assessment of my grant application.
