

NZ national Myrtle Rust (MR) surveillance

Data as of 23 February 2021

- ★ MR finds from 23 Jan-23 Feb 2021
- ★ MR finds before 23 Jan 2021
- Myrtaceae host plant record 23 Jan-23 Feb 2021
- Myrtaceae host plant record before 23 Jan 2021

We would like to acknowledge the significant contribution from staff at MPI and DOC who were involved in collecting, compiling, anonymising and formatting the large amount of data since the beginning of the NZ Myrtle rust response. These data were critical to improving the coverage and quality of data. Diagnostic validations were provided by plant pathologists at the Plant Health and Environment Laboratory (PHEL-MPI).

Data compiled from Ministry for Primary Industries, Department of Conservation, Plant and Food Research, Botanic Gardens and iNaturalist.
