EXPLORING MĀTAURANGA MĀORI

Purpose

- To develop our understanding of kaitiakitanga
- To share pūrākau connected to kaitiakitanga
- To inspire you to reflect on your inclusion of the concept in your teaching

ENRICHING TEACHING & LEARNING

"The Science Learning Hub is widely used and hugely valued by students and teachers at our kura. It really does keep the classroom dynamic, the students are engaged and inquisitive in their science learning." – Secondary school teacher

TELLING THE STORIES OF SCIENCE

AOTEAROA IN SPACE

“The content that the team has developed and the contributions from the sector have surpassed our expectations. The resources really demonstrate how diverse the space sector is and shows the applications and impacts of space on our everyday lives in a relevant way. We think this is going to be an amazing resource for students and teachers to engage in space education.”

– Hannah Doherty, MBIE

SUPPORTING TEACHERS

“It is the best website a teacher can visit because the lessons and activities contribute to knowledge building with a focus on the future of science education – where teachers are preparing students to be active problem-solvers and creative thinkers and demonstrate confidence with communication skills.” – Primary school teacher

PROMOTING ENGAGEMENT WITH REAL DATA

“We are once again excited to partner with the Science Learning Hub in developing material to support the Environment Aotearoa 2022 report. We believe that the work that they do in the education space will be having meaningful engagement with our tamariki.” – Nigel Wong, Ministry for the Environment

PAPA KĀINGA HOME LEARNING TV

Forty junior and middle science episode scripts written for the Ministry of Education to support home learning during the COVID-19 lockdowns.
