---

Apartment 45 Adlay Apartments  
3, Millet Place  
LONDON  
E16 2YE

Energy rating

B

Valid until

8 August 2029

Certificate number

0265-3841-7283-9501-7681

Property type

Mid-floor flat

Total floor area

70 square metres

## Rules on letting this property

Properties can be let if they have an energy rating from A to E.

You can read [guidance for landlords on the regulations and exemptions](#).

## Energy rating and score

This property's energy rating is B. It has the potential to be B.

[See how to improve this property's energy efficiency](#).

Score	Energy rating	Current	Potential
92+	A		
81-91	B	87	87
69-80	C		
55-68	D		
39-54	E		
21-38	F		
1-20	G		

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

- the average energy rating is D
- the average energy score is 60

## Breakdown of property's energy performance

### Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
<b>Walls</b>	Average thermal transmittance 0.19 W/m <sup>2</sup> K	Very good
<b>Windows</b>	High performance glazing	Very good
<b>Main heating</b>	Community scheme	Very good
<b>Main heating control</b>	Charging system linked to use of community heating, programmer and TRVs	Good
<b>Hot water</b>	Community scheme	Very good
<b>Lighting</b>	Low energy lighting in all fixed outlets	Very good
<b>Air tightness</b>	Air permeability 0.8 m <sup>3</sup> /h.m <sup>2</sup> (as tested)	Very good
<b>Roof</b>	(other premises above)	N/A
<b>Floor</b>	(other premises below)	N/A
<b>Secondary heating</b>	None	N/A

## Low and zero carbon energy sources

Low and zero carbon energy sources release very little or no CO<sub>2</sub>. Installing these sources may help reduce energy bills as well as cutting carbon emissions. The following low or zero carbon energy sources are installed in this property:

- Community combined heat and power

## Primary energy use

The primary energy use for this property per year is 47 kilowatt hours per square metre (kWh/m<sup>2</sup>).

► [About primary energy use](#)

## How this affects your energy bills

An average household would need to spend £259 per year on heating, hot water and lighting in this property. These costs usually make up the majority of your energy bills.

You could save £0 per year if you complete the suggested steps for improving this property's energy rating.

This is based on average costs in 2019 when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

## Heating this property

Estimated energy needed in this property is:

- 150 kWh per year for heating
- 2,030 kWh per year for hot water

## Impact on the environment

This property's environmental impact rating is A. It has the potential to be A.

Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO<sub>2</sub>) they produce each year.

## Carbon emissions

An average household produces  
6 tonnes of CO<sub>2</sub>

This property produces  
0.6 tonnes of CO<sub>2</sub>

This property's potential production  
0.6 tonnes of CO<sub>2</sub>

You could improve this property's CO<sub>2</sub> emissions by making the suggested changes. This will help to protect the environment.

These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.

## Steps you could take to save energy

The assessor did not make any recommendations for this property.

## Advice on making energy saving improvements

[Get detailed recommendations and cost estimates \(www.gov.uk/improve-energy-efficiency\)](http://www.gov.uk/improve-energy-efficiency)

## Help paying for energy saving improvements

You may be eligible for help with the cost of improvements:

- Heat pumps and biomass boilers: [Boiler Upgrade Scheme \(www.gov.uk/apply-boiler-upgrade-scheme\)](http://www.gov.uk/apply-boiler-upgrade-scheme)

## Who to contact about this certificate

### Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

Assessor's name

Joseph Price-Buchanan

Telephone

01924 237 500

Email

[j.price-buchanan@stroma.com](mailto:j.price-buchanan@stroma.com)

### Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Accreditation scheme

Stroma Certification Ltd

Assessor's ID

STRO016219

Telephone

0330 124 9660

Email

[certification@stroma.com](mailto:certification@stroma.com)
