## MARKET POTENTIAL

Market Potential is the most significant indicator in your report of the likely commercial success of your track. It combines both your Track Rating and your Passion Rating to provide you with a single aggregate score that predicts how commercially successful your track might be within your market. Your track's Market Potential score is calculated as a percentage between 0% and 85%. For the best odds of chart success, an artist should shoot for a score of 65% or better.

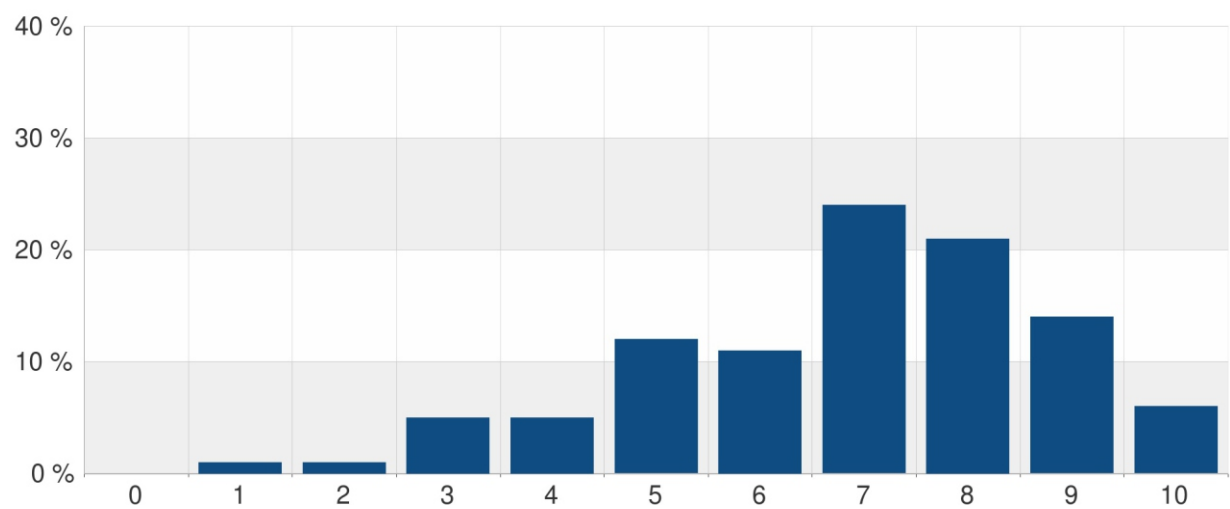

The Market Potential classification indicates where the track is positioned among over 100,00 other tracks.

Chart success assumes a reasonable promotional budget. It should also be noted that the relative success of a single is also directly related to the existing profile of an artist.

# DISTRIBUTION OF RATINGS

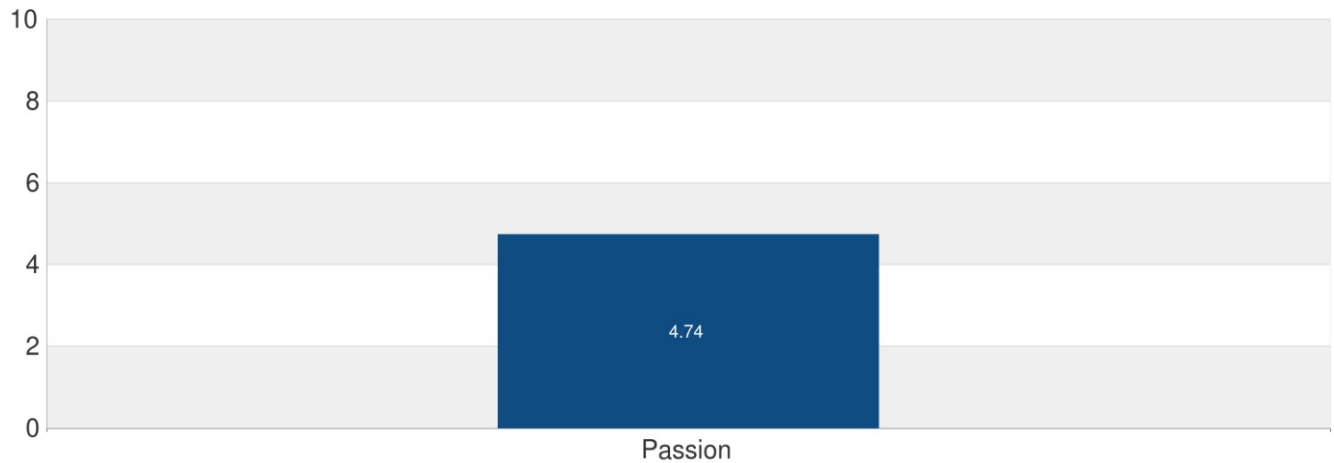

This graph shows how all of the scores your track received from reviewers were distributed over a 0-10 point scale. Track ratings simply measure how highly reviewers rated your music, which should not necessarily be confused with your track's market potential. Combining this information with your Passion Rating allows us to calculate the Overall Market Potential for your track. A high quality track should aim for a score of 7.0 or higher.

## PASSION RATING

This rating indicates how passionate reviewers were on average about your track (i.e. how much more they liked your track compared to other tracks they have reviewed.) A passion rating of 5 is considered average. A rating higher than 7 is a strong indicator that your track stood out to our reviewers. High passion ratings are a useful indicator for potential commercial success.

## IN-GENRE CLASSIFICATION

In-Genre Classification indicates where your track's rating would be positioned among thousands of other tracks in the same genre. This should give you a sense of the track's commercial potential within your target market.

"Excellent": Top 5% of all tracks in this genre.

"Very Good": Top 15% of all tracks in this genre.

"Good": Top 30% of all tracks in this genre.

"Above Average": Top 60% of all tracks in this genre.

"Average": Bottom 40% of all tracks in this genre.

## TRACK RATING

Your Track Rating is a weighted average of all the ratings your track received from our reviewers. This number reflects how highly reviewers thought of your track, but does not necessarily reflect your track's market potential.

## GENRE TRACK POSITIONING

This section shows how strongly reviewers of your music agreed with one another regarding the quality of your track compared to the quality of other tracks in the same genre reviewed in the past 24 months. The more dots concentrated on the right-hand side of the graph, the more reviewers agreed with one another regarding the quality of your track, which suggests a strong consensus about the quality of your work (which positively impacts your Market Potential rating.)

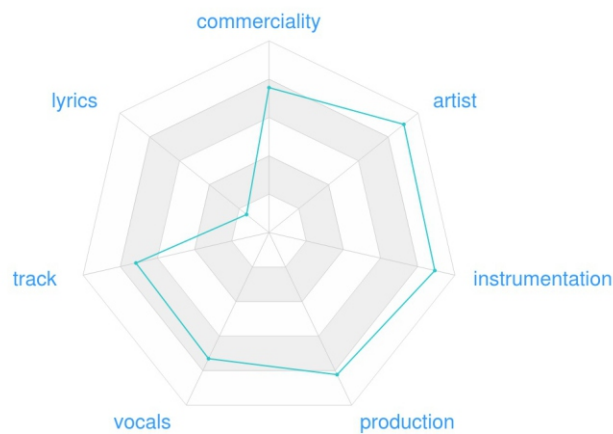

## WORD CLOUD & REVIEW SEARCH

This section highlights the words that reviewers used the most when describing their reactions to your music. Click on any word to see expanded below all the reviews in which that word was used.

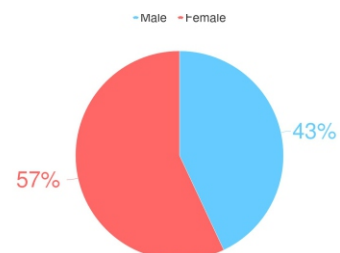

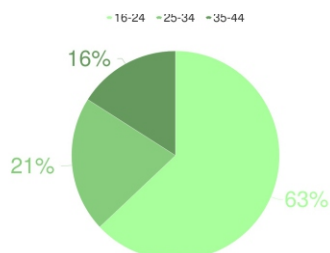

## ELEMENT ANALYSIS

This data was generated utilizing technology that processed all of the words used in this report's reviews of your music, identified which words were used the most, and analyzed whether those words were used positively or negatively. This analysis is particularly useful for identifying which elements of your music you might want to prioritize for improvement. The farther out from the center of the circle a given element is, the more positive the sentiment around that word was.

## SAMPLE GROUP

This is the group of music fans and consumers who listened to your track online and left their track rating and written review. Reviewers do not know they are conducting market research when they hear your track which helps to achieve honest and objective responses. The sample group is selected at random, since a diverse sample group of reviewers is required to form a "smart crowd" and ensure an accurate Track Rating. Other information known about these reviewers includes age, gender, employment status, location and genre preferences.

The beat and soft guitar at the beginning is very nice. The production is really good. The voice and the music match each other very well. The bells in the background make the song feel calm and mellow. This would be a song I would chill to if it was in English.

The intro is very upbeat and attention catching. It immediately puts you in a good mood. The gentle, sort of husky vocals matches the almost folksy tune perfectly. The break in between verses makes the song more interesting. Even though it is in a different language, it makes me think of pretty, sunny days outside and driving with the windows down.

The intro was really long. It should've been shorter. He's not speaking English so I don't know what he is saying. I love the beat. I really like this song even though I don't know what he is saying. The production was good. His vocals were perfect.

The instrumentals in the beginning are cute and upbeat. The rhythm is definitely a foot-tapper. The vocalist has a soothing and beautiful voice, he sounds french. The instrumentals match him perfectly. They both flow through the song, I love the way this was produced. Even though I don't fully understand what he is saying, I enjoy listening to him.

The into leads into the song nicely, and has a nice tune to it. The vocalist has a nice voice as well, although I do think that his voice is a little plain. Unfortunately, I will be unable to comment further on the song due to the fact that this song is not in English.

Cute catchy beat! I really like this. Something i could play all day to get me started. French music is awesome and has a calming affect on me. The voice is calm but seems happy and inviting. I would love to listen to something like this live.

|    | <p>The guitar opening for this song is so sweet, it immediately brings a very happy feeling to the listener. The piano interludes in the background are also lovely, and help to back up the rest of the song. The lyrics are also adorable, and give the song a "feel-good" kind of vibe. The vocalist has a very nice voice, I would enjoy listening to more by this artist.</p> | 7 |

16-24		First off I don't understand what you're singing because I only speak English. I do like your instrumentals they make me feel very happy. Your voice sounds amazing even though I have no clue of what you're saying. I like how the clapping and the guitar mixed together gives the song an upbeat feeling. You did an amazing job.	8
16-24		This song has much more catch in the beginning with the guitar, and then it turns into a nice, happy, bouncy tune--the vocals are attractive, and good. The snaps/claps are a very good touch, and something you would play while getting ready for the day or when driving.	6
16-24		Love the acoustics. its a soft and light beat that would be uplifting. Good for a pick-me-up. I don't understand the lyrics because they aren't english but I find it still enjoyable to listen to regardless. I would suggest a little more of a beat or different instrument than just the snapping at those parts.	7
16-24		I liked this song!! It had a light upbeat feeling that i found cheerful to hear! I loved all the sound effects and i really liked the mans voice in this! He was speaking in a different language which i found amazing! Overall i really loved this!	10
16-24		This song starts off sounding like a typical pop song. It has a nice beat to it but its a little too much for me. Im not a fan of the overly cheery beat and i cant understand the laungauge the singer is singing. He has a nice voice though.	3
16-24		The artist had a very relaxing voice in his song. I liked how the use of instruments was positive. Not only that but the use of clapping really added its own uniqueness to the overall production of the song. This song was great for me and I like it.	9
16-24		The beginning of the song is immediately bringing a light to the world with its upset music. When the lyrics start, I was not expecting the foreign words, but regardless of the fact that I couldn't understand what the artist was saying, the way the voice sounded complimented the music given very well.	7
16-24		I have no idea what this song is about. I think it's in French? But it does have a nice, up lifting tune to it. It's nice to listen too and the gentle bells in the background put a smile to my face. If only I could understand what he was saying.	7

Love the guitar. The background sound sound kind of like snapping fingers and it is great. The lyrics sound great and vocals are good. A simple song that is easy to listen too and just makes you feel good. The xylophone is fun and light sound and a great element to the song.

I love the sound of the guitar in this piece. It has a very earthy and folk sort of feel to it. I don't really like songs in other languages all that often, but this one is okay. It sounds nice and sweet and easier to listen to.

Intro has a very nice clean sound, love it. Vocals match the instruments very well. Sounds happy. Enjoyable to listen to. The recording is done very well as the sound is very clear and loud, vocals are easily heard along with the well-played instruments. Variation of rhythm near the end pull it all together.

I really enjoyed the lyrics which were beautiful the guitar was also very good. As soon as the song started I instantly became happy. On the downside I felt like the sound quality when it came to the singer's voice wasn't so great which is a shame. I also felt like there was too much carillon sound going on, I wished there was less of it.

I like this acoustic guitar a lot, it's beautiful. It has a really positive, cheerful kind of beat, and it immediately puts me in a good mood. I wish the lyrics were in English, so I could understand them. Despite the language barrier though, it's a really beautiful song. It's super mellow and relaxing, and he has a great voice. It works with the song style perfectly. I have nothing to complain about at all.

I love the instrumentals in this, very good and catchy, makes you want to bop your head back and forth. I don't speak whatever language the song is sung in, but I think the voice of the person singing meshes well with the music he's playing. I almost wish this song was in English so I could give it a good listen! I like this song a lot, it sounds very upbeat and happy.

It sounds like a upbeat and happy song. The instrumentals and vocals go together very well. The instrumentals are not too extreme. The singer is easy to understand and matches the background music. it has a nice a nice beat. Doesn't take too long to start. Easy to sing along too.

Love it! I love the fun melody that the song starts out with and pulls in throughout the song. I also really like the piano parts that come in throughout the song. Definitely something I would listen to on a regular basis. The song is very catchy

01-Feb-2017

the beginning of the song reminds me of a summer day. I'm not a huge fan of the international lyrics because I can't understand the lyrics. I do really like how the guitar is the main instrument used in the song. This song puts me in a happy mood.

16-24

01-Feb-2017

The instrument that I really liked in this song is what sounds to be a triangle. It adds a sweet charm to it. It's in a different language but even then, I still enjoyed his soft, smooth vocals. It sounds to me a little bit like Jack Johnson, writing songs that sound like Banana Pancakes. The guitar playing is very relaxing and it flows through the entire song. The artist added clapping in the background and it gives it a sense of cheeriness. Usually, songs without drums don't appeal to me. But the beat comes from the guitar, the clapping, and the chime of the triangle. It's all very happy. I found myself smiling. The singer seems like a natural at knowing how to make a song flow and still be a minimalist while doing so. I'm very pleased with this. I could listen to this all day.

10

16-24

01-Feb-2017

The introduction is very carefree and light, and the main singer is warm and comforting, and his accent adds to this. The periodic keyboard is unnecessary, but the instrumentals maintain a fun and unworried tone. The song, while nothing groundbreaking, is very relaxing, though the change at 2:30, while still pleasant, makes it a bit less so.

7

16-24

02-Feb-2017

I do not speak Spanish so I don't know what the song is about maybe if it was also transferred over to English then I could rate it better. But in general it has a nice background beat to it. The tone it sets seems romantic.

16-24

02-Feb-2017

The intro sounds like a type of beat you would hear in a commercial or another thing like that. The intro also lasts quite long. French lyrics are not my favourite however this singer uses them very well with his smooth vocals. He sings at a nice pace which is very good.

16-24

01-Feb-2017

Cheerful and positive composition with a beautiful voice and sunny mood! The vocalist's voice is admired for its simplicity and positivity - I want to listen to him constantly! The guitar and piano produce an incredible instrumental backing song relaxing the listener into a series of the great voice!

I love the way this song came on. letting the instrumentals flow before singing. Production level sounds like it could have been just a little better. certain music sounds different when using headphones. This artist vocal is very calm and and controlling. I would like to see this artist to continue the great work.

16-24

Joyful sounding tune. Really boosts mood, would definitely advise listening to while getting ready in the morning or leaving work early. No idea what that French man is saying but it sounds like he's singing about a beautiful woman. Very bright and happy song, I could see it being on the radio.

16-24

What a nice song, I loved it, its musical tempo and rhythm is so glad that all you want to do is sing and dance during the whole song. Instrumentally, this case has a lot of potential thanks to the high quality of the sounds produced by the guitar and the singer's vocal skills, The lyrics are some simple but very fresh and understandable which is cool for this kind of songs

01-Feb-2017

5

16-24

this intro right from the start grabs your attention making you with out thinking to pay attention. with confident vocals and a professionally arranged instrumental. this song is powerful and relaxing at the same time and is building and calming. the overall vocals are amazing showing true skill, passion, and love for the art that is music it's almost reasuring

01-Feb-2017

5

16-24

This song begins with a funky introduction. The tempo of the song is relaxed. The male vocal has great variation to it and the tempo is soothing and relaxed. The guitar accompanies the vocal. Their melodies are in harmony. The piano adds a soothing rhythm. I enjoy this song a lot as i enjoy the style and rhythm of the song.

01-Feb-2017

6

16-24

flows brilliantly, great use of harmony the melody trades off, all the dynamics really flow together and the different instruments that are used just really top the song off. the vocals sound good and makes the song all together fit well and sound beautiful, this is an everyday song

01-Feb-2017

5

16-24

Very upbeat musical song. Give you a feeling of joy with the into alone. The french singer sounds passionate and almost seductive with his singing style. the little piano licks in between the verses really add a nice flavor to the song that is usually forgotten by most artists. My biggest problem is a slight clicking sound that comes with the snapping put into the song that is a bit high pitch and strains the hearing, distracting from the piece. C'est tres bon, j'aime le music. Keep it up, I'd listen to your album, everything works together well to make a nice happy song.

01-Feb-2017

8

16-24

Light open melodic acoustical guitar with strumming for percussion makes for a bright lovely sound, the Frenchman makes an ardent duality with the bright keyboard chords in the backdrop. The slides on the fret-board add to the singularity of the song. Hopeful and uplifting, a bright piece.

01-Feb-2017

8

16-24

The guitar at the beginning sounded very dry and the vocals sound dry as well. Could use some reverb on vocals. I love the uplifting sound of the song. The bells were very nice. Overall the song had a good feel to it and was nicely balanced

01-Feb-2017

6

16-24

Great intro i like the childish sight of the song. Its a great nostalgia song with great lyrics. Great instrumental like the song in any context enjoyable. This song easily fits in a video montage and picture souvenir. Relaxing can listen that only or with best friend to chilled out.

01-Feb-2017

9

16-24

The begining of the song is catchy, and the singer's voice matches the rythm. I don't speak french but i would definetly keep listening to this. I would add a little for strength in the voice. The chimes of the bells gives it a type of magical touch.

01-Feb-2017

7

16-24

The vocals to this song is highly well done. The tone is perfect to this music. The production to this is really well. The perspective to this song is great. The instrumentals to this is nicely pitched. Overall, the song is a really great song.

01-Feb-2017

7

16-24

The intro takes a bit long to fade in, I would prefer that if it is going to be a happy song like such it would more or less 'jump' into things if that makes sense. Vocal melody is not terrible. although sense I do not speak french I cannot understand the lyrics. With the exception of the language the vocals are smooth and tasteful but at the same time warm and catchy. The lyrics I cannot comment on because I do not speak french. The rhythm flows well with the over all body and the vocal melody. With a catchy beat and a more of a 'Do op' type theme it is hard not to enjoy the tingly sensation of a happy song as such. The instrumental variety and balance is quite evened out. Though I must say the tone and sound of the vocals does not pair with the instrumentals all that well. Digital effects are used in a detailed manner, such as a 'bing' or a 'pop' every once and a while. Although as said above the vocals do not fit so well with the tune and melody. Over all 4/10, the vocals do not pair well at all with the melody.

01-Feb-2017

4

16-24

I like the playfulness of the intro, smooth vocals that compliment it as well. I didn't really understand the lyrics, however, because it's not sung in my language. Overall, I really appreciate the light-heartedness of this song and the "good vibes" that it deals out in a similar fashion to musical artists like Jason Mraz.

01-Feb-2017

9

16-24

I loved the whole song. Even though the song was not in English it still had a nice acoustic vibe to it. The best bit about this song is the instruments that play in the background. However i did feel that by 1 minute i had heard enough as i think the backing track was very generic.

01-Feb-2017

3

16-24

Good voice. Good music. I didn't sign up for foreign music and world music when I did the survey thing so my comprehension for this song is absolutely non-existent. Good composition, although incomprehensible by myself, I see this as something that could be good in your home land

01-Feb-2017

7

16-24

Very nice start to the song, I really liked the beginning of the song it reminds me of nice situations in life, the vocal of the man is very nice and sweet even though he is singing in french the song is very well done.

01-Feb-2017

8

16-24

I hated this song. The intro was extremely annoying. The singer had a nice voice which was cool, it was french so I couldn't understand it but he had a nice voice. I wasn't a fan of the instrumentals because they were very plain and dull. It was just the same acoustic guitar over and over. Not my style.

01-Feb-2017

3

16-24

Upbeat and straight away engage, the guitar doesn't sound completely authentic however it works well, very minimalist piece. Can't really judge the lyrics on account of them being french but very much enjoy the clapping in this piece. Could be featured during an ad for a car or banking, or during a feature of a car journey. Also show kids playing. The build up at the end is small but leaves you wanting something bigger

01-Feb-2017

8

16-24

The instruments used at the start is great. It eases you into the song nicely. I don't know what language the song is in but I would listen to it against regardless of that. The melody is soft and cool and genuinely nice to listen too. The production is good, they have made this piece of music very well.

01-Feb-2017

7

16-24

always a good song to be upbeat and mellow. probably played and coffee shops. french id such a great language! Qui! Qui! the sound of the instresments are great and the production was well put to make the feel all together come together and blend

01-Feb-2017

7

16-24

I like the intro part of the music. It builds a mood, also it surprises me when the male vocal appears. In general, the rhythm is quite good, I personally think it would be better for the musician to stick to a few instruments for now, otherwise it would feel too much.

01-Feb-2017

7

16-24

I like the guitar intro a lot. The tone is good and it has great rhythm as well. The guitarist is very talented and the central riff is really good. The introduction of piano is a good touch too, and it gives the song more depth

01-Feb-2017

6

16-24

I like how upbeat and happy the song sounds. It doesn't matter that I can not understand the words that are being sung because I enjoy the flow of the singing voice as well as the instrumentals. I feel as if I would listen to this song when I'm having a bad day because it would automatically put me into a much better mood. I think that the production value of this song is solid, there's nothing I would critique about it. I could definitely see this song becoming very popular, especially with a singing voice as good as yours.

01-Feb-2017

8

16-24

Fine melody. not so great beat . Bad chord work. French lyrics that in recognized. it was good in all in my opinion. Good acoustic guitar use. Nice same lyrics though is what messes it up. Lyrics aren't meaning as I though. Can be improved though.

02-Feb-2017

2

25-34

im not shore what language its in so i couldnt underatand the words. but it has a nice simple upbeat aound to it. would be some kind of easy listening. i like the voice of the singer and the vocals matches the music well. could use a climax or hook.

01-Feb-2017

4

25-34

The melody in the introduction captured the listener and even if the song was not in English the vocals sounded so smooth, calming and peaceful made me feel the emotion that the artist was feeling when he was recording the song. The tempo is good, perhaps a little too fast for the smooth voice of the singer but it did not sound bad at all either way. I think that this production, overall, was great and the performance of the artist was so good that makes you forget all of the flaws that the instrumental had.

01-Feb-2017

10

25-34

Beat was fun but a bit juvenile. I thought it was a child's song at first. The vocals were pleasant to listen to. Nothing super special about the song though. It didn't wow me. It was a cute song, I wish I could have understood the lyrics however I don't speak the language.

01-Feb-2017

4

25-34

A soothing melody, I liked the french language in the lyrics. A smooth buildup to the chorus and an easy listening type of song. The quality is great and I would enjoy listening to it on another occasion. A very interesting piece of music. Brilliant!

01-Feb-2017

7

25-34

nice upbeat from the guy beating on a drum, guitar. Then this french guy starts signings. hes kind of a downer. The beat is hopping and hes just bringing us down. This guy needs to be happier. Would be nice to hear some other voices in the background to make this guy sound happy. Even if the words are happy.

25-34		I love the instrumental intro to this song! The guitar sounds very raw and I like that. It almost sounds like it's going to be a Jack Johnson song until you hear the vocals start. The vocals are really good. His voice is very light and airy. His tone and pitch are beautiful and he has a great quality to his voice. I don't know what he is saying but the song makes me feel really happy and I could listen to the whole thing without even caring what the lyrics are.	10
25-34		I like the beat and the guitar sounds pretty cool. Its in french, i think. Which i don't understand too much of. I wish there was an english version of this so g because it sounds super pretty and i like the artist's voice. Is a good song.	8
25-34		This song's tune is upbeat, putting a skip to the tempo that is cheerful and engaging to listen to. I think it could contain a bit more variety in the instrumental selection, as it gets a bit too consistent and makes it predictable. The vocals are fitting, but I cannot understand the lyrics' language. It sounds like French, and though beautiful to listen to, it makes the song difficult to enjoy without being able to know what it is about.	8
25-34		The music is very upbeat, cheery, and jolly. The vocals are attractive and balanced. The artist perform the vocals in a very sexy and soothing way. The lyrics flow effortlessly with the music. Not sure about the lyrical meaning but to me comes across as romantic and uplifting.	7
25-34		ooo love the intro super indie alternative the strings are fabulous. Ahhh the french throws me off but his voice is pretty decent. I could totally jam to this song but only once i get my wife to translate the lyrics for me haha. Its a super catchy tune !	7
25-34		The intro to the song made me think of commerciels on tv. The song was in a different langue so I did not understand the lyrics. But all together the mixture of instuments was very pleasing to listen to. I would enjoy a translation for this song.	3
25-34		This song is just long enough, the beginning of the song is good makes you want to listen to more. The artist tone of his voice is low, and the instrumental is way louder than his voice which makes it hard for you to understand him even more. Sounds like that artist is mumbling more than anything.	7
25-34		This beat awesome even though it sounds a little Christmas like. Ut i love it. The lyrics of the song goes nicely with the beat of the sound they both complement each other very lovely. I would recommend this song to someone. I really like the song.	5

25-34

There appear to be two acoustic guitars coupled with a male foreign singer. I am unsure what language he is speaking but it appears to be Mediterranean, perhaps french. At approximately one minute in a piano appears which plays a beautiful melody. I quite enjoy this song.

01-Feb-2017

9

25-34

this song has a funky hyped hypnotic uplifting feel. I like the harmony between the guitar and the vocals I don't speak french but the lyrics song lovely. this song has a warm passionate symphony its rhythm is gentle nice song to drive down a county road

01-Feb-2017

8

25-34

The guitar in the beginning has that muffled stroke sound and then it comes in and nice and balanced. I dig the dynamics that the guitar brings to the track. The vocals sit very nicely in the mix and have been well mixed and mastered. I wish I could understand what he was saying though. The lyrics are not in English.

01-Feb-2017

5

25-34

I do not enjoy this type of music but honestly sounds very good through the speakers. Great production and vocals. A little more drums and bass seems like it would make it more enjoyable. The guitar in the back is very nice and tempo is perfect.

01-Feb-2017

5

25-34

I cant understand the language but i really like the way the song grooves. The singer seems to be talented along with the rest of the members. The happy tone in the song is always good to hear. The quality of the track itself has great quality.

01-Feb-2017

8

25-34

Upbeat acoustic opening swells into the vocals of this summery song which just makes you want to grin. A shame I don't understand the lyrics! But what I can comprehend are those tuneful toe-tapping beats which flow serenely behind it. The sort of song to make you happy after a bad day at work!

01-Feb-2017

6

25-34

This song has a lot of style especially for the language that it's in. It sounds really jolly and I like it. The mixed pitch noises really set the mood and I love the positive vibe that it generates. I wish I can understand the lyrics but I can tell the singer knows how to stay on beat and Rhythm as well. This gets a 8/10 from me.

01-Feb-2017

8

25-34

Sounds like song I would hear in a coffee shop. The production quality is good, and not over done. I would love to walk in the sun, with my headphones on to this song, and look at the trees. The song is very uplifting, I could definitely hear it being used in a commercial for a family vehicle, or something relating to joyful moments. The vocals are good, and the instrumentals sound fun and whimsical. I like it. I would put it on my lounge playlist.

02-Feb-2017

8

35-  
44

This song starts with a fast-and short beat of instrumental. A male voice sings in French. He has a warm voice and sings in a calm way. It is a little relaxing hearing his voice. The song has a joyful mood with sounds of snapping fingers in a nice beat. The lyrics is happy and makes this song easy to listen. Not for the crowd. This is a song for people that like Music.

01-Feb-2017

9

35-  
44

Mediocre song. Despite the fact that the singer is singing in French, it does not add any flavor to the song. Doesn't come off as mysterious beause one wonders what he's saying , but instead rather irritating. The instrumental was okay but could be sped up alot. Vocals were fine but I couldn't tell if the frontman was faking a french accent or not

01-Feb-2017

7

35-  
44

The melody for the introduction was very nice and made me kind of dance while listening to it. I love listening songs that are in other language even if I do not understand all the letters but I look up the lyrics afterwards so I can understand at least a little bit and feel the true meaning of the song. I think this song is smooth and the melody so catchy I would recognize it if I hear it once again.

01-Feb-2017

9

35-  
44

There is too much high tone while there is no singing. The music needs to be more of a background while the singer is singing. the singer needs to say the words with emotion while singing. The rhythm has a good catchy beat. With this being a different language, I can't tell if the music is appropriate for the lyrics.

01-Feb-2017

4

35-  
44

Very relaxing song. Not sure what they lyrics are saying, but the vocalist is good. The guitar and other instrumentals are good. Production quality is good. Song has a good beat. I can actually picture myself sitting in a little cafe sipping something tasty while listening to this song. In Europe of course.

01-Feb-2017

8

35-  
44

I loved the tune, immediately it was catchy and I found myself tapping my foot right away. The singer's voice was soothing and fluid. I did not understand the language but feel good music transcends language, as in this case. The melody, lyrics, and singer all worked well together and I thought the finished product was great. I can picture hearing this song in a movie!

01-Feb-2017

9

35-  
44

I like the guitar at the beginning. The tempo of the song brings it alive and the instrument with high notes is adding flavour to the melody. I like the way the harmony is arranged and it is very simple and not complicated. The singer has a nice voice and even though i do not hear what he is saying i still enjoy the song. It is easy to remember the tune.

01-Feb-2017

7

35-  
44

The start of the song sounds as if it was from a positive commercial, and the rhythm is really positive. The instrumentals are shapely, and the vocals are good as well. The singer's voice suits the tone of the song and sounds really calm. The production is well made. However, the rhythm is a bit slow, so in some parts of the song it could be faster.

01-Feb-2017

9

35-  
44

I love the introduction to this song; it is light-hearted, optimistic, and beachy. The singer's voice matches it well. Although I don't understand most of the words, I find myself enjoying the tune and moving my body to the music. This could be a big hit as summertime approaches.

01-Feb-2017

9

35-  
44

A shuffling beat is accented by bouncy leads and fills. Good French vocals ensue. The singer has a professional tone and well placed pitch. The score is richly instrumented and includes hand claps. The lyrics are very well enunciated, and easy to follow. This is a well executed, easy listening, adult contemporary styled track.

01-Feb-2017

7

35-44

The track does have a sort of Bohemian singer songwriter groove. The piano playing is good and tastefully done. The singing is good. It could be a bit better produced overall. the song does have a nice easygoing style. The lyrics are good and in a storyteller vein.

01-Feb-2017

7

35-  
44

Love the intro to this song which makes you want to get up and dance from the first note. It's super catchy and sounds like you should be sitting in a French cafe listening to some guy on a small stage while you drink wine or coffee. Even though I couldn't understand the words, I could feel the music which is a universal sign of successful songwriting. The bridge and chorus worked great together.

01-Feb-2017

10

35-  
44

The song has an interesting hook that makes you want to listen to more of the song to hear it. It appears the studio that produced the song has a very high production value it was made very professionally. The vocalist was very talented and the instrumental was very satisfying, overall it was a good song.

01-Feb-2017

6

35-  
44

there is a good rhythm created by the jaunty playing of the guitar and the uplifting percussion that sets the beat in the track, this light and breezy feeling carries though the track, and with no oppressive drum work the track is given more substance by a nicely mixed in piano. As breezy as the tune, the leads voice lifts the lyrics up and his style is welcoming all the time. I like this, its a great summers evening track, warm and fun.

01-Feb-2017

9

35-  
44

like the intro and the sutle build. Nice warm voice although I don't understand the language. Good mix with the instruments. Talented musicians. This song could really use some soft drums. The strum form the guitar is nice but should be used as an acoustic accent to some nice drums. The song sounds playful and is easy to listen to.

01-Feb-2017

6

35-  
44

I'm digging that beat in the beginning of the song. This song is catchy and good. I love the guitars in this one. Even though I don't understand the words. I do like this one I can tell the singer has a very good voice and the instrumentals go in

## DEFINITIONS

### Weightings

The better a Reviewer is at judging the broader consensus rating of the track, the higher weighting their opinion receives. When calculating the Overall Market Potential, each Reviewer's track rating is weighted in accordance with their influence. For example a track rating from a highly respected Reviewer, who has proven to be accurate at identifying strong or weak tracks in that genre, can carry a much heavier influence than a track rating from a newer Reviewer.

### Reviewers/Sample Group

This is the group of music consumers who have listened to the track online and left their track rating and written review. They are sourced from our sister site, Slicethepie and they do not know they are conducting market research when they hear the track, which helps to achieve honest and objective responses. The sample group is selected at random and screened by their age, gender, location and genre preferences. A diverse sample group of reviewers is required to form a "smart crowd" which ensures an accurate Market Potential. See "Wisdom of Crowds" below.

### Wisdom of Crowds

Wisdom of Crowds is a proven methodology that large groups of ordinary people organised under the right conditions (a "smart crowd"), outperform small groups of experts in making decisions and predictions. It is not new. It is the science behind Google and decision-making in some of the largest companies in the world. It has been proven time and again that collective wisdom consistently surpasses the experts. It also means that SoundOut can guarantee a high level of accuracy with results.

The 4 conditions required to form a "smart crowd" that delivers an accurate result are:

1. Diversity of opinion: A sample group of reviewers with many different points of view makes better decisions than one where everyone has the same information.
2. Independence: The reviewers' opinions are not influenced by others.
3. Decentralization: Answers are given by individual reviewers based on their own local and specific knowledge rather than by a central person.
4. Aggregation: There is a way of accurately measuring the sample group's collective answer.
