16-24	 02-Feb-2017	I like the acoustics and the girls voice moves really well with the flow of the song. I would definitely listen to this. She also has a really good pitch and pitch. The harmony is really nice between the two also. Very good lyrics as well.	7
16-24	 02-Feb-2017	Beautiful, but also with an edge of sadness to it. I like the subtle harmony that's in the song, the voices blend well together. The music is beautifully played and suits the song well. The imagery is very nice as well. It's also quite calming.	5
16-24	 02-Feb-2017	i love the melody , very soothing i can really relate to the words. that always good because then i can out myself in the song and be able to paint a movie in my head . i love couple songs especially if harmonies well . this song has hit all my points. would love to her more	10
16-24	 02-Feb-2017	I love the intro . You can feel the heart the artist has put in the lyrics of this song. i love the instrumentals , the vocals are incredible. I wish i could hear a full album even go to a show . It has that smooth country feel .	10
16-24	 02-Feb-2017	The way she sings is kind of sloppy. The lyrics are good with a few lame verses. The intrumental sounds amazing. The duet part is good. I like the overall message and rythem. Sounds like someone with expercience that just needs practice with her voice transistioning into different keys.	7
16-24	 02-Feb-2017	I really like the duet section around 0.30s, and 0.52. I feel that it gives depth to the song. I really like this song, however i find it a little bit folk. The vocals are really nice, and i like the guitar, but i feel the tone could change more throughout	6

16-24

The beginning chords grabbed my attention immediately and the opening vocals were clear and pleasant. The male vocalist is also very good and the harmonies in the chorus flow well. The lyrics are also very interesting. The instrumental and tone of the song seem like something I would hear on the radio.

02-Feb-2017

16-24

The beginning guitar chord instrumentals give a country or acoustic vibe to it. When the female vocals come in, it still gives off the same vibe, especially when the male vocals harmonize with the lead female vocals. The production sounds likely moderate or high quality, for how clear the instrumentals and vocals are without one overpowering the other.

16-24

It's a really soft song, and I can imagine it to be produced by Miranda Lambert or Carrie Underwood. That alone says a lot about the vocalist's skills. The artist or lyricist seems to be really skilled, and I would recommend this song to a few acquaintances. I could really see this song being produced. Kudos to whoever sang and wrote this song. The instrumental aspect of this song really grasps onto that slow-country feel. It is a little cliché, but it is still nice to listen to.

I LOVE THIS SONG! The beginning of the song, how the guitar was playing is great. The singer's voice was great. The song's got a great beat. I absolutely love the lyrics of this song. its got a great meaning. And would anyone tell me what's the name?

02-Feb-2017

9

16-24

Good constant beat. Female voice is better than the male voice,however still needs vocal work. Topic of song is popular. The guitar sounds a bit beat up and out of tune, but it works well with the song and how it sounds. Beat matches the lyrics and how it is sung

16-24

In my opinion, this is just another generic country radio hit that i can listen to on any country pop station. The vocals sounds decent, but nothing standout. It is hard to even comment on the song because there is nothing about it that stands out to me

16-24

I like the subtle and sweet sounding guitar instrumentals in the introduction. The introduction is a perfect length and does not drag on long enough to get boring. The emotions in the vocals fit perfectly with the emotions that the instrumental accompaniments reveal. The vocal male accompaniment with the lead vocals sounds very well harmonized and attractive. The lyrics are well-written and relatable, which causes them very magnetizing to teenagers. The music arrangement is excellent and this song has very high potential. The song stays interesting throughout the whole song and never gets boring or irritating. The change up around 2:40 sounds good and is much needed.

Great intro. The artist gets straight to the song. The vocals are strong and in sync with the instrumental. In some sections of the song, the artist should pick up the vocals to stay in tune with the instrumental. Overall, great song and very soothing.

I love the introduction of it. The sound is great and the vocals are PERFECT! Absolutely fantastic harmonizing and instrumental. I can definitely see myself turning up the radio to this song. Very emotional and captivating. My rating is a solid ten for this song.

She has a wonderful amazing spectacular and great voice. Wonderful harmony's. Love the acoustic effect. Great lyrics, I love the song. Love the tambourine, adds a great element to the song and elevates it's quality that much more. I am to scared to be alone so i am living with ghosts. Great guitar solo... wonderful ending. Overall I am in love with this song... I would buy it. Its a perfect balance of everything, wonderful quality. It definitely catches my ears, possibly could become a big hit.

The song is really soothing~ The harmony is really great, their voices match well together. The instrumental in the background is also really really good! The guitar matches well with the beat and the whole song. I really sincerely wish to know the title of the song to download it!

I like the acoustic guitar and the girl artist. I also really like the beat and tune of this song. It sounds very country and beautiful. I also really like her voice i think she stays with the tune perfect and the lyrics make me happy and are relatable.

i like it.. not something i would listen too but the female can really sing and it has a nice tune and meaningful lyrics. She can really sing but i feel like her vocals could be a little stronger. But it is a nice country/ pop song

Can really hear the emotion in their voice. The melody isn't repetitive it actually changes and changes with the lyrics of the song. The chords of the songs is very interesting. Kind of wish i could hear the male voice a little bit more but overall the harmonization of both is awesome.

The instruments in the background touches the soul. The harmonies are beautiful and goes great with the music. The song is amazing and the guitar solo is incredible. The woman vocalist is awesome and the acoustic guitar is beautiful with its rhythms. This song is outstanding. The ending leaves the listener awed.

02-Feb-2017

16-24

I love it. The guitar melody was amazing. The beginning started off as a simple strum. end it continues throughout the whole song. Especially during the bridge the electric guitar had its own solo. Which I love. The voices of the artist harmonize was well done and lyric was amazing.

16-24

At first listen, this song reminds me so much of Taylor Swift and Ed Sheeran! Even the line about how nothing has changed reminds me of their popular collaboration "Everything Has Changed." The vocals and instrumentals are very easy to listen to and I can see a lot of people enjoying this song! However, I think it needs a catchier hook in order to really become a bigger hit! In my opinion, some more vocal range would draw more attention too.

02-Feb-2017

7

16-24

The guitar in the introduction gives an endearingly unexperienced vibe, and while the main singer needs a bit more energy, she is obviously talented, and having a deeper voice makes her not seem frilly. The duets are really effective, and the melody has a great variation in volume and energy.

02-Feb-2017

9

16-24

Excellent intro. This is a subtle not to mention lovely song. Quite ballad like. The performer clearly has a soft and calm voice. The production of this song is superb. However, this song got to be repetitive rather quickly. the first half of the song was my favorite.

03-Feb-2017

4

16-24

The lyrics are really nice. I also like the melody of the whole song. I felt like there should've been more instruments. The chorus is a little weak but I like the simplicity of it. Amazing voice, it sounds sweet and relaxing. Overall I enjoyed it.

03-Feb-2017

6

16-24

I really enjoyed listening to this duet. The lyrics are simple but I like the storytelling type of songs. The chorus is catchy and the melody gives you a feel-good mood. Listening to music like this makes me happy , there's something comforting about finding relateable tunes to your current mood!

03-Feb-2017

8

16-24

The female lead voice is very strong and confident and pure. I like how subtle the song started out and the male voice joining in sounds beautiful. Reaching the chorus, it's very energetic and upbeat. I enjoy it very much. I like how the guitar and the low hits pull the musical track together.

03-Feb-2017

8

16-24

The vocalists had great harmony and I thought they blended very well together. I enjoyed their performance. I could identify with the lyrics and felt the piece was well-written. Although I did especially enjoy the beautiful acoustic guitar, there is definitely room for additional instrumentation.

03-Feb-2017

6

16-24

the vocals of this are great, along with the production and instrumentals. as someone who doesn't regularly listen to music like this, I'd place it into a country genre. some of the lyrics could be changed to make it catchier, the ending could be a little more interesting. overall the song is great and a few tweaks could make it a hit

03-Feb-2017

7

16-24

This song is pleasing to the ears. Simple instrumentals and harmonic voices they give off a soft country vibe. Has an emotional component that feels like hope is lost, but is looking for it in someone else. The vocals could have more harmonizing with the male singer, but the female has a strong voice.

03-Feb-2017

6

16-24

I am amazed with how this song starts out. I love how mysterious the song starts and how the vocals ease in. I love the mix between male and female vocals. Vocals are amazing and so are the instruments and background music. Everything blends so well, even with multiple vocals and instruments. The instruments are well adjusted to bring out the vocals.

03-Feb-2017

10

16-24

Her voice is gorgeous. His voice is choppy. Awesome guitar skills. The guitar brings it all together. The octaves at which they sing is ok. The production is pretty good, I just feel they could have given him some more spotlight. The lyrics are ok, but all in all a pretty good song

03-Feb-2017

9

16-24

The guy's voice seems great, but not the way it's in the song. If he had sung more with just him, he would have sounded better. But the girl is also really great, and beautiful, just not their voices together. The guitar is played nicely and is so smooth and has a great tune.

03-Feb-2017

7

16-24

the beat goes along with her vocals, and also keeps the rhythm up with the guitar. the way that she sings and sounds really country. its purpose behind the song is very confusing though, but other than that it was good! i would like to hear more of her music because her vocals are amazing

03-Feb-2017

4

16-24

Song is very ear catching. Her vocals and voice is so perfect and amazing, her voice is just perfect for this song and the way the background music plays. The words to the song are so heart touching and can definitely reflect a person's day to day experiences.

03-Feb-2017

10

16-24

I like the instrumentals a lot. The male singer is very good. The female voice is slightly too over powering for my tastes. Her voice is almost border line county. I also think the pitch in her vocals is all over the place, almost a Britney spears vibe.

03-Feb-2017

3

16-24

I love the slow country like rhythm.the vocals are absolutely amazing and fit with the instrumental well.wouldn't change a thing its beautiful. Love the duet like tones sounds wonderful.would love to hear more like this. The guitar is beautiful complex but still simple and beautiful.

03-Feb-2017

10

16-24

The duet has a perfect harmony together! They both have amazing vocals. This is a great song and it is truly beautiful. The lyrics are interesting and meaningful with some catchy phrases. It's instrumentals are rich and with the song a great atmosphere. It would be a song I play and sing along with all the time. I would show this song to others because of how much I like it.

03-Feb-2017

10

16-24

At first when the beat began playing I thought it was a country song, but towards the middle it also had an indie vibe. The vocals suit the beat and the theme of the song and help complete the song. The vibe the song gives off makes me think of love and calmness. It has a very soothing melody as well.

03-Feb-2017

6

16-24

I really like this song, it has very good rhythm, and the beat isn't too fast. It has very good singers, It's a good romantic/breakup song. It makes me want to download it and listen to it all the time. It has very good instruments in the song.

03-Feb-2017

16-24

This song brings you back to every heartbreak, but doesn't make you feel sad. This was incredibly well written and the musical background is phenomenal and i cant place an emotion on it. Beautiful guitar and rhythm. I love her voice. Definitely an easy listening piecez

03-Feb-2017

10

16-24

I love the acoustics in the beginning, its soothing and relaxing. It also makes the mood when the lyrics come into play. Making it easy for the listener to relate to the lyrics and enjoy the music. Nice, calm. relaxing, sad song that brings anyone with a broken heart near.

03-Feb-2017

9

16-24

I really like the overall drive of the piece. The vocalist has a beautiful tone that keeps the listener interested. The backup vocals are well executed in the chorus, but were slightly lack luster in the verses. However, I think it does bring out the chorus, so I am not entirely opposed to the simplicity of the verses. The instrumentals are very reflective of the feeling the song is going for. I especially enjoyed the short guitar solo. Such a unique song and I really enjoyed listening.

03-Feb-2017

8

16-24

The main riff is simple but that's what makes this song nice - one but catchy riff. The composition is also simple but it exposes the guitar. The guitar solo is short but very pleasant. What's great - when the woman's and the man's voices collide. She has a soft voice and the man's voice makes her stronger. Simplicity makes great. Because there's no need to prove your guitar playing skills when you have an acoustic that sounds so lovely.

03-Feb-2017

7

16-24

I love the guitar and tambourine in the background. I also like how even-paced the song is throughout the whole piece. The lyrics are clear, and easy to understand. I love it when the two performers sing together. They harmonize perfectly. The song is simple, and every aspect of the song works together beautifully.

03-Feb-2017

7

16-24

The intro is good, I really like the guitar playing. This girl has a great voice. I can hear the lyrics perfectly . The men voice is incredible and when they join in together the song is even better. I really enjoy the lyrics . Good song to bring back memories.

03-Feb-2017

9

16-24

I really like the beginning with the guitar. The artist's voice is really beautiful and the background singer is also very nice. I think this song is a song that you can listen to when you are in love. I really like how the only instrument you can really hear is the guitar.

03-Feb-2017

9

16-24

I instantly loved this song, it sends a great message and is just all out amazing. It has great vocals, and i love how the guitar sounds. Its the perfect length and doesn't get boring have way through. I believe tons of people will love this song and listen to it over and over again. Its definently on my favorites list!

03-Feb-2017

10

16-24

This song is good. It has very nice vocals and I really enjoy the singers voice. I also enjoyed the lyrics. they are very good and have a bit of meaning. good song to listen to and I definitely recommend this song to anyone who is looking for a new song to love.

03-Feb-2017

8

16-24

I enjoy this song and I would recommended this song to friends. I usually like don't listen to this genre of music but its easy beat and the artist is voice. Would maybe enjoy it more if it had a duet. But the message she was singing was well put together and really pulled at emotions

03-Feb-2017

10

16-24

This song starts off good but then the beat gets higher and also adding some more bass would help. But to rap it up this is a very good song and i would listen to this song but it talks about love and how if the person is numb then the male figure would notice her and in some situations that would happen but it just needs more upbeat about love.

03-Feb-2017

16-24		I thouroughly enjoyed this song. The female singer has a very soft, yet powerful voice which is a magical combination. Her voice carried emotion beautifully and made the lyrics very true to the song. The male voice was a great asset, adding a bit of a haunting element which was a good choice and matched the song. The guitar solo was amazing, and perfectly timed, not too much, not too little and it added just the right touch to the song. The arrangement of the song was well done, and flowed well. I find myself wishing there was a point in the song highlighting the female's vocals. Overall, this song is well put together, had good lyrics, and is something I would definitley consider buying.	9
16-24		now this song is something i could enjoy listening to all day on repeat ! this is a really good song. i love the vocals and the music and basically everything about this song is so good. i would give this song a 9 out of 10 because overall everything about it was good. the lyrics are understandable and the voices are clear.	9
16-24		It feels like a sad song. I think it very pretty from the start. It needs a lot more feelings in the words. Maybe it even needs some more instruments in the background. But I'll give it a 6 for all their hard work they put into this song.	6
16-24		acoustic guitar always leads to a soulful song. The duet vocals suits this slow song however, the introduction seems a little too blunt to begin with. The female's voice is lovely and smooth while the male compliments it with its fairly deep sound. Allows the listener to really listen to the song	7
16-24		Absolutely beautiful lyrics, very intriguing, amazing meaning. I feel like the acoustic background could use a little more sound, more instruments to make a hit. And i would love it more if there was a more dramatic build in the bridge, I feel like it would really suit the song. Wish i could hear it again.	10
16-24		The lyrics are not very inspiring. For Indie music, it feels very blase with little substance. It feels too contrived in a way that does not conjure any feelings. Vocals were not the most exciting. Instrumental was forgettable. The production was okay as the song is not offensive at least, but it would not be something I choose to listen to further.	3
16-24		The guitar is giving off an alternative vibe while her voice screams country music. The male harmonies could be a bit stronger. The way they are now, they are barely present. The lyrics will target a very specific audience and will not appeal to the majority of listeners.	3
16-24		I really enjoyed listening to this song, it reminds me of an old comforting song. The tone of it makes me happy and want to sing along. I love the guitar in the background as well, it makes me want to get into the song more.	10

I Enjoy this song. I can feel the beat and feelings. The vocalist was very well projecting and had a lot of feeling while singing this song. The interments went well with the song. The production I would say was the best of it all.

7

16-24

03-Feb-2017

Would definitely add it to my ipod. The rythm is nice and the tempo is good. The lyrics are interesting and the guy and girls voices combine nicely. The genre would be popular with many people I throughly enjoyed playing this song and wish that i knew the name of it.

10

16-24

03-Feb-2017

The song was very good. The use of instrumentals was nice and it had a good beat to it. I would listen to this song again because it had a good over all production, tone and rhythm to it which sounded well in all together.

8

16-24

03-Feb-2017

variation of tempo in beginning is very intriguing. great vocals and background vocals. very clear and articulated. all flows well together and noting is overpowering each. choice of music and instruments fits well with the lyrics and the emotion of the song. very wellly sung

9

16-24

03-Feb-2017

This song was lovely to listen to. The beat was very relaxing and the voices blend well together. It tells an interesting love story that you can clearly hear in their voices. The melody transitions well and the chorus tugs on the heart strings. Recommend for easy music listeners.

8

16-24

03-Feb-2017

Good chord progression. Harmonies aren't that bad, although vocals are a little weak. Lyrically solid, love the bridge. The guitar solo is good. Production seemed a bit low but that brought the rawness of the song. The song as a whole was good and relatable!

7

16-24

03-Feb-2017

I like the vocals on this track. They're that lovely combination of good/talented yet I can still sing along. I will admit I'm not the biggest fan of acoustic guitars, but the instrumentals in this track are well done and someone who likes acoustic music will not be disappointed if they hear this song.

8

16-24

03-Feb-2017

The instrumentals of the gutair were very soft, and so was the subtle woman voice was great, and i wish there was more contest between the man and the woman. I also think that this would give you sort of a sad vibe but all in all great song.

10

16-24

03-Feb-2017

The woman's voice is nice. There are nice harmonies between the two vocalists. The song doesn't tell a very moving story, and the music doesn't have very much in the ways of highs and lows. Overall, a nice sound, but the song structure needs some improvements.

5

16-24

03-Feb-2017

This is really calming. I usually hate country like this because I hate the melody but this is so different and so amazing and I could imagine myself listening to this on the way to school like I love this so so so much this is so great. The guitar in the background is great.

8

16-24

03-Feb-2017

Love the guitar right to start. the lyrics are really nice, and both of their voices are really light and pretty like they don't have to try to sound good. however in the chorus when they both sing "ghosts" it sounds pretty off key to me, not too sure but it sounds wrong

5

16-24

03-Feb-2017

i like her voice, her vocals are amazing. i just think it needs more like a little more up to beat. this not my genre, but so far i like it its amazing. and his voice needs to be more featured in the song i give them a 10.

10

16-24

03-Feb-2017

This is really good who ever is singing this has very good vocals. Though i do not like the male vocals in this but the beat really compliments her voice makes it stand out pretty good like a calm relaxing part kinda country makes me dislike it a little.

Acoustics are good, vocals are awesome! Good beat worth playing a guitar and a little bit of a dumb and tamborine. I really like the lyrics, its a nice song to listen to. I would listen to it if I was just walking or maybe everytime I'm alone.

She has a nice voice and the song is very meaningful, however, I think that there should be a little more in the back. Such as, maybe a soft piano playing simple chords. I like the instrumental section after the height of the song. The male voice in the background compliments her voice very well.

This song has a calming beginning. Because it is country music, I do not like it that much. The male voice does not really complement the female vocal. The male voice sounds a little raspy. The lyrics are well written and makes sense with the type of music.

|    | <p>I love the vocals of both singers! It is relaxing and catchy. The only thing I don't like as much is country vibe i get but that is personal preference. Other than that, I love the song and think it would be very successful if produced!</p>  | 7  |
| 16-24  | 03-Feb-2017  |    |
|    | <p>I really like the country feel to it and the lyrics have meaning. Kind if taylor swift-ish. I really love it, it's a good duet but would probably be just as good as a solo. The girl's voice kind of drowns out the background voice</p>   | 8  |
| 16-24  | 03-Feb-2017  |    |
|    | <p>The lyrics themselves are relativable to a wide age bracket. The combination such powerful words and the mellow tempo is moving. While the song is not strong enough to move to tears, it is easy to imagine someone simply listening intently, with his/her headphones in and tapping his/her foot to the acoustics, while having his/her eyes closed and mouthing or quietly singing the lyrics to himself/herself.</p> | 10 |
| 16-24  | 03-Feb-2017  |    |
|    | <p>very understandable, great lyrics, easy listening, very catchy tune. easy to relate to real life situations. slow and calming music.girl singing has a very calming, relaxing voice.i did not NV lose interest to this. enjoyed it all the way to the end. not boring at all.</p>   | 7  |
| 16-24  | 03-Feb-2017  |    |
|  | <p>I love that acoustic guitar was used in the intro and later in the song. The vocalist had a pretty good and I really like the male harmony throughout. I also really liked the little guitar riffs after the chorus. I do wish this was a little faster tempo wise and I also found the lyrics a bit annoying but otherwise, it's a good song!</p>  | 7  |
| 16-24  | 03-Feb-2017  |    |
|  | <p>I really like the vocal, however, the guys voice could have made a better chorus. Also I felt like the vocal was a little too loud. The music seems to almost fade away in the beginning. The guitar was great! Gives it a sentimental feel to the song.</p>  | 7  |
| 16-24  | 03-Feb-2017  |    |
|  | <p>I really enjoyed this song! The vocals blended so well and were so smooth. The instrumentals were a little too basic but it fit the lyrics. The lyrics are beautiful and were well written, I can totally relate to this song which makes me want to listen to it 100 times more.</p>   | 9  |
| 16-24  | 03-Feb-2017  |    |
|  | <p>ABSOLUTELY LOVE THE GUITAR AT THE BEGINNING! Even better that you can hear a males voice every once in awhile. Added a freshness to the song and even more emotion. I like how this song has a tambourine back beat instead of a drum beat.</p>   | 7  |

At very beginning sound I already love the acoustics for it. I love the lyrics for it, and when the man joins in with the woman vocals it's pretty beautiful. I would buy this song on itunes. The production is perfect, and professional sounding. I do hear the instrumental over the vocals every now and then but overall this is a near perfect song/production/lyrics. It's a mix between country/acoustic/slight pop. Some vocals should go deeper though, with a voice like hers, a deeper tone on some parts of the song would perfect it.

The guitar playing is nice, but I feel it was really close to a country song feel, and I personally don't like country songs. Some of the lyrics were sweet and give you feelings of reminiscing about past loves gone wrong. Taylor Swift-esque but with nicer vocals and a bit more meaningful lyrics.

Introduction is nice, makes me want to know what's next. Love the voices! Introduction of the male voice is nice and pleasant. Can't wait to find out who the artists are! Will definitely listen to this again! Love it, will pass it onto my sister too as she will also love this! Thank you!

very smooth sounding beginning. the vocals are quite nice. quit vibrant. voices are very clear as well. the back up vocals add a nice touch as well. i do wish there were drums beginning the first chorus, i don't think the tambourine fits this song. i like the guitar that comes in later on in the song, its a nice solo. i think with true drum kit would make this song a lot better. otherwise, very talented group and has a lot of potential. well done.

16-24

Some nice guitar picking, classical guitar with a lovely womans voice. The additional background vocals are a nice touch. The Lyrics are mediocre but as a coffeshop song it suits well. The quality is what it is, sounds like it was made as a whole song and not edited, like an unplugged live edition. I give it a solid 6.

I love country music like this it will cheer you up if your sad or if you are down. I love the beat that the instruments make are using. Her voice is so incredible. It is so awesome. This is one cool song. The rhythm is very cool also. Sometime it makes you sad though.

02-Feb-2017

16-24

This is really relaxing. Her voice is beautiful to listen to and heart warming to. The chorus is really strong, showing both voices toning up and expressing themselves. The beat is relaxing and able to sleep to or relax. This could be a big hit on the radio and a great cover.

16-24

If you listen to the lyrics of the song, you can hear the story that the artists are portraying. Both of the vocalists voices sound great alone, but sound absolutely amazing together. The tamborine in the background got annoying quickly. The voices did not blend well with the guitar, tamborine, and drum. The instruments sounded like they were supposed to be in different songs. The guitar was way to happy for the song as well as the tamborine. The drum was so dull in the background it was almost inaudible.

02-Feb-2017

16-24

The female vocal has a nice range, but I think the male vocal could be better at harmonizing. The instrumentation is very emotion-grabbing. You can really feel the emotion put into the song. The female vocal is really good with the intonations and vibrato. The acoustic guitar just adds a touch of originality to it.

02-Feb-2017

16-24

the vocals in this song are good. i specifically liked the duet. the guitar chords progression that was chosen for this track is good and was very well chosen. it fits very well with the track. the tambourine in the background is a good addition to the track.

02-Feb-2017

3

16-24

the female vocals on this track i felt were on point and adding the male vocals in the background really helped filling the song out. the guitar has a nice texture to it and the drums were perfect for this track . this song was great

16-24

I like the guitar. The singers sound very nice and the lyrics are nice. The duet makes the song better! Emotional but I love it, would recommend to a friend. 10/10. I would buy on iTunes for sure love it!!!! The lyrics and singers fit along with the melody

The guitar is phenomenal. Her voice blends into perfection with the mans voice. The mix over all is spectacular. I could listen to the marvelous song again and again. They did great with this song and this is not a genre I listen to very often. Great job!

16-24

very good song but the music could be a little bit more pronounced. i enjoyed the vocals and the lyrics of this song, the main complaint i have with the song is for a first time listener its hard to understand what the song is about.

02-Feb-2017

7

16-24

Lively temper and good vocals on both people. i do like the sound of the music and a good And its got a great story background the intruements was chosen well and played very well and i would buy this song if i wanted to for at least 5 pounds.

16-24

The recording quality is solid, nice and clean. Vocals are a very clean. Overall sounds very good. Good structure. Lyrics are very well written. Good transitions into each chorus from each verse. Song isn't very original in structure, verse, chorus verse chorus, ect. Song is easy listening

02-Feb-2017

9

16-24

This song has solid and meaningful lyrics. The rhythm goes well with the lyrics. The only critique I have is towards the end of the song, the singer starts to pick up, but I was expecting the chorus to be a little more intense. Overall, the song is a great song, and I would listen to it again.

02-Feb-2017

7

16-24

great music for who wants to relax. guitar notes are well played and the rythem was so orgnized, the lyrics are so meaningful and the singer's sound was so great and. Moreover, the tones are making a good combination in this fantastic song, don't hesitate to play it

16-24

This song is a nice piece. It has a nice rhythm to it and instrumental. A very nice duet with very nice voices. This could become very popular as most people would enjoy this kid of style of music. It is very smooth and relaxing.

02-Feb-2017

16-24

Pronounce the R's in your words less, more like "ahh", but not too much. The two voices helped the song come together a lot. Make the instruments in the chorus a little more powerful to match your voice. Also, a violin might make the song run even smoother and make a soft tone in the music. Hope this helps!!

02-Feb-2017

6

16-24

perfect sone all i have to say is their voice is on point.The music goes well with the beat this type of music should be world wide. And the main idea, is pretty good the beat is on point. The lady has a good reason to sing this song and i think that sinors would like this.

02-Feb-2017

10

16-24

It starts off with an acoustic guitar that has some percussive qualities to it. A lower male harmony comes in after a few lines which is cool to hear a lower harmony like that. The second verse comes in with a tambourine to not only cover the rhythm but the high end too. The guitar solo has a great tone with slight overdrive to it. Overall, this song would fit the medern take on country music but still sticks to the old country musicianship

02-Feb-2017

8

16-24

Great instrumentals with great vocals that make up for a great song. The whole song has a clear crisp sound and a new sheen of consummate professionalism that gives this song a big boost. The production value is off the charts and is clearly a great product from Record Label standards. I vividly recommend!

02-Feb-2017

10

16-24

I really liked the intro to this song it was relaxing and it made me want to move my head to the guitar. The singer had a really nice voice and the male that sang with her at certain parts was a nice touch. The lyrics were really nicely written as well.

02-Feb-2017

7

16-24

The introduction was really alluring and extremely distinctive. The lyrics were also great too. There are literally no flaws in this song and is mostly interesting. The vocals were amazing and also distinctive. The tempo was perfect so was the melody which was my favorite part of the song. Also, the song sounds quality. I love how it was raw and appealing.

02-Feb-2017

8

16-24

I think your vocals are really good and the audio quality was really nice. I think you could have used more instrumentals this song is really catchy. But the song still is sad. The lyrics are really saddening but I think that you clearly put lots of effort into this.

02-Feb-2017

8

16-24

It is very well worded and the storyline is great. Something that maybe sounded weird is how the words went with the background. As a duet, this sounds great though. But sometimes the words can confuse me but I probably would listen to this on my own time.

02-Feb-2017

16-24

Songs on a very good I really like to beat and the bass was very good also. Her voice is really good also and how good she can sing surprised me very very very much. I am going to probaly get this song and it was

02-Feb-2017

6

16-24

Nice soft intro that this track has right here. The rhythm has a nice tempo every thing seems good so far. Aye the beat of the guitar beat though. The instrumental seem stay well together. The vocals are where its at. The soft voice that the female vocalist has contrasting with the male vocalist is just so beautiful. I feel like I'm staring up into the night sky thinking of those hardships that I had faced in the past. Just releasing the pain and telling myself that I only am enough. I rate this an eight for touching my soul.

02-Feb-2017

8

16-24

I love the tune, words of the song are very meaningful great song. the vocals are dope on this song. I want to know who's the artist I would buy this song. makes me think of life very soothing. Great job on creating this song thumbs up!!!!

03-Feb-2017

10

16-24

The song is very nicely written, sung, and played on the guitar, that has next to no issues that I can hear. However, in parts where the male vocalist would start to sing in unison with the female, his voice was just a bit soft on the entry to the lines, and seemed to fade just the taddest bit too quickly at the end of his verses. Alongside this, the Tambourines were perhaps slightly louder than they had aught to be, while not being a huge distraction, they made it harder to continue to be immersed in the lyrics with their entry.

03-Feb-2017

8

16-24

I love the song its amazing and i love the girl in the background amazing. Im rating this 8. Thanks for the great music. Sound kind of a Country song so nice. The vocals are pretty good too cant lie. This was a amazing song and it sounded like a love song as well.

03-Feb-2017

8

16-24

I like the beat of the song and The singer. This song makes sense and the singer did a good job. The guitar beat was really good and all of the band combined was really good and I liked it because the be in the rhythm of the song it makes it a better type of feeling than a normal song that's rock so if you're into like country music this is the song for you.

03-Feb-2017

7

16-24

Very calm mellow intro, they have really good voices. I like the folk guitar strumming but its just not my kind of style. It has a good production sound very wholesome they are a band im assuming its a very soothing vibe to play in the background.

03-Feb-2017

3

16-24

i love this song. I love the guitar part a lot. the man and women singing together is awesome. the song is a little sad like but i still love it so much. i wish i was in this song because it seem so heart felt.

03-Feb-2017

10

16-24

The vocals of the track are very soothing, and very crisp. the guitar and vocals work hand in hand, there is a good balance between the instruments and the vocals and the vocals are not too overpowering, the tempo for the entire track is spot on

03-Feb-2017

10

16-24

The song is incredibly touching and very very good. The vocals are just awesome and outstanding and makes me want to listen over and over again. The choice of instrumentals used in this song is just perfect because it fits in well with the song. Finally the production is of high quality making the song wow!

03-Feb-2017

9

16-24

I like the beat of this song. It is very smooth and the voice is very soothing. The guitar is also played nicely. The lyrics ar enice and the melody is nice as well. I am not a huge fan of this type of music, but this song stood out to me.

03-Feb-2017

8

16-24

This song sounds homemade, which is a great thing. The vocals are homegrown, and the guitar playing is wonderful. I love the concept of this song too, because it makes sense. This song all together comes along nicely, and i honestly really enjoy it. It has a modern sound to it.

03-Feb-2017

8

16-24

I like how its so calm and relaxing. it really brings out its melody. I gotta admit this is one of the most relaxing songs I ever heard. I should really start listening to this type of music more. Even though I'm more of a pop kind of person. I really like this song.

03-Feb-2017

8

16-24

The harmonies are amazing! The melody and instrumental give the song a nice warm feeling and the vocals really complement that. The lyrics seemed a little awkward at times for female artist but could be due to having to stick to the Melody. The song is catchy and emotional. The ending should have maybe more of a twist or effect as it seemed to end abruptly.

03-Feb-2017

7

16-24

You may want to layer the vocals of the female for a wider, stereo sound. Also, the bass drum is a little hard to hear and a bit muddy. However, apart from these nitpicks, the vocals, drums, and guitar melody are catchy, and makes for a great down tempo song.

03-Feb-2017

8

16-24

There's a good intro, but sounds like country. Personally I don't like country. The male voice complements the female's. The melody is a little too slow for me. It is not too repetitive. Beautiful lyrics. The instrumental is pretty good, but I do not like the tambourine in the background.

03-Feb-2017

7

16-24

acoustics are really well, vocals sound good with male and female singers. not really my type of music but i don't mind it. Good beat, creepy song that she's living with ghost and it makes me feel a bit weirded out. Swears to god which isn't appropriate.

03-Feb-2017

6

16-24

Well, this one is a beautyfull song, with the most melodic and balanced vocals I've heard in a long time. The performance was passioned. The background is a simple guitar's chords successions. The lyrics are pretty emotional and the words has an accurate fluency with the melody and harmony. The production were just perfect, my solid 9/10.

03-Feb-2017

9

16-24

I love the instruments, and the singing is excellent! I would definitely buy this song because of its slower pace. This is exactly what would attract an age group from 13-30. The two singers singing together is absolutely amazing. The song is great, though I think it may be a tad to long. Excellent otherwise!! Great work!

03-Feb-2017

8

16-24

The instrumental goes well with the genre of music. The vocals are also great with very few pitch issues and the producers did a great job at combining all of the factors of this song together so that it blends into a good country song.

03-Feb-2017

7

16-24

It should be noted that country probably isn't my go to genre. However, I found myself sucked in. I probably wouldn't listen to it again, but only because it isn't my thing. The cool thing about listening to music blindly (Not knowing who you're listening to) is that you can focus on what you're hearing and whether or not you liked it. I loved her voice, I loved the chord progression, and the words she sang meant something real to her. Also, the duet chorus was a pleasant surprise. It added a much needed flavor to the track. He was a little flat, but overall helped the soundscape. My only complaint is how boring the song became after a while. It seemed like they forgot to add a bridge. The chorus ran into the verse and vise-versa (Get it?). Overall, I rate this a 6/10 over all.

03-Feb-2017

6

16-24

Great guitar playing, pleasing to the ear. The female vocals are quite good too, but I feel like they could be a bit more 'powerful' in a sense. The lyrics fit well with the overall mood of this song. Also, the male vocals work well with the female ones.

03-Feb-2017

7

16-24

The lady's voice in the back is very good and subtle. I really how there is also the male singers voice in the back too. I also really like how the guitar is played in this song. I would be very satisfied to listen to this.

03-Feb-2017

6

16-24

This is a calm song, perhaps not for gaming, but for other scenarios. I like the vocals, and the steady beat. Possibly, I would use in the background in some concentration video games. However, it certainly wouldn't be my first pick, but it'd be near that. 6 out of 10.

03-Feb-2017

6

16-24

this is great, they have nice vocals. the music has many moods and instrumentals. It is nice music and it has a great tone. The song is not to long or to short it is perfect size. it says nice things and has meaning behind it.

03-Feb-2017

10

16-24

I hate this song because it is bad. I do not like country music either. Because it is very slow and bad. It does not provide a clear understanding of the song. This is my worst genre of music to listen to because it is very bad.

03-Feb-2017

1

16-24

this music is really great and i love it. i love the singer is voice because it is really really clear and beautiful. also this is a type of music that someone should listen to all day long. it would be so cool if i could hear it again.

03-Feb-2017

8

16-24

The opening guitar strumming has a simple and catchy beat. The vocalist opening the song has a beautiful voice. The secondary singer adds to the song, but isn't equally as heard as the main singer. I would have liked to hear more of his voice. The vocals are very good. They have a nice tone. The chorus pairs well with the guitar. I love the simple but effective guitar riff that comes in. It is short, but sounds very clean, adding to the song.

03-Feb-2017

9

16-24

The production is clean. This person has a great voice. The instrumentals match the voice well. She definitely has potential as a country star. The guitar in it matches the mood. The recording is produced well, but I do not like country very much, so I do not really y super duper like it.

03-Feb-2017

6

16-24

This song is really really great because of its guitar and the slow rhythm that it gives you. you just listen to it are fall in love with the song. everything about this song was really nice and i would most definitely listen to it again

03-Feb-2017

9

16-24

Strong vocals. It really makes this song come alive, puts me in the mood I can feel how you feel. hard guitar comes in, love it. Perfection!!!! chorus is really there and on point. You should add some add libs in there for an extra pop.

03-Feb-2017

10

16-24

The vocal harmony produces a nice texture to the song the gives it more depth. I feel like the temp of the song is good for the mood you are trying to convey. I get a sense of remorse and sadness that is nostalgic for the way that things used to be. The melody is soft and sweet, it compliments the bluesy guitar solo. In general the instrumentation feels like it could be worked on. The acoustic guitar part could use work i feel that its lacking depth and character. I think the tambourine part is a distraction to the rest of the song

03-Feb-2017

8

16-24

I think that this would be a nice song, but I can tell that only country people would listen to it. The song is great, but I prefer that they could take more time on it, afterwards. Again, not that many people would listen to it

03-Feb-2017

4

16-24

The intro was kind of blah did not really pull me in with the slow acoustics. The melody is tuneful though. Very calming and warm and gentle. I can make out all of the lyrics the vocalists are saying. At the beginning there was a solid rhythm but it was not very engaging and now halfway through the song it is solid and engaging. Really getting me into the song. This song has a rich balance of instruments. Melodies are very tuneful and interesting. Vocals are distinct and warm to the heart. Lyrics are very original and distinct to me kind of a holiday song. Artist sounds experienced and professional. As far as commercial potential I think this song has a lot and could be a song a family could listen to by the fire or just relaxing. Production and recording quality is great, very smooth. Overall great music.

03-Feb-2017

9

16-24

This song is nice. The vocals are Amazing and the singing is outstanding in the writing and the accents and is is nice with acoustic guitar the voice is a little high in my opinion but i think most will find it quit pleasant. So in conclusion i highly recommend.

03-Feb-2017

3

16-24

the string instrument at the start sets the tone perfectly. maybe louder bass and a really good bass drop could be possible if you have the right producers but at least they try. its not the slowest paced song but maybe a fast beat with the vocals keeping up.

03-Feb-2017

10

16-24

Nice intro of both the vocals and the rhythm. The vocals are very rich and the artist is very imaginative! The lyrics are meaningful enough and original together with the background vocals make a great inspiring addition to the song. Not a very wide range of instrumentals. Very strong commercial value!

03-Feb-2017

8

16-24

I think the guitar in this really gives it a good vibe. I love! The girl's voice. It's something soothing and simple but yet so touching and meaningful. I love this! Something i can listen to everyday! Great way to see things! The lyrics in this really make it more meaningful

03-Feb-2017

5

16-24

The intro has a nice ring to it. it continues to drag you in. the melody is very rich i like it. the instrumental is very rich and impressive i like the guitar it goes perfect with the song. the vocals sounds very high pitched, the lyrics sounds like a story it sounds very deep and meaningful. overall this is a great song.

03-Feb-2017

8

16-24

The mixing was generally well done from a volume perspective, with the guitar clearly audible but never overriding the two vocalists. But you really missed a chance with the panning. You've got two vocalists who are pretty good, but you don't split them onto different audio channels? The duet parts should have definitely had a different singer for the two sides. The guitar solo was good, but needed to be slightly boosted in volume by a slight amount, and it didn't have the greatest tone, it could be much more crunchier and with a certain punch to it due to the lower pitch, but instead it just ended up sounding weak because of the tone. So look into improving that tone and potentially adding an extra bar or two into the solo (ascending/descending lick fading into the chorus again?)

03-Feb-2017

8

16-24

good song really enjoyed the guitar and your vocals where good. to both artist. I would really like to hear more from you. I could see my self listing to this song on a long road trip. or just driving to where I need to go. great song keep it up!

03-Feb-2017

10

16-24

I hear a guitar in the background and vocals of this person are really nice and relaxed, there's another person in the background but his voice is really quiet so it's hard to hear but I think he is just saying exactly what women are saying. They could add more instruments in the background for now I just hear 2 they could add a piano that would make the song way better, the song is not that good if they added more text to sing in the song this song would be much better. I give it 6 out of 10.

04-Feb-2017

6

16-24

The start of the song is nice and smooth. The singer has a nice voice to sing a love song. The lyrics are good so far. The drum beat is not needed. The voice has that area covered. They have a nice song all together. 9/10

04-Feb-2017

9

16-24

I don't particularly like the back singer it ruined the lead singer's feel to the song. I like the guitar beat but it makes the overall feel of the song bad. Should have used another instrument, it makes for a good breakup song for a moral boost. I wouldn't personally recommend this song to anyone if I had the choice to.

06-Feb-2017

5

25-34

The intro is too noisy to me. I don't enjoy listening to this type of song. The singer seems to sing in a constant pattern and it sounds a bit boring. The melody is too simple and annoying. I think this song could be a lot better. The singer has a nice voice.

The intro sounds nice. I love the sound of the acoustic guitar. The singer has a fantastic voice. I am absolutely in love with her voice. She sounds so calming and relaxing. The lyrics are cute and romantic. I like it. The melody is so simple but it is the perfect base for her voice.

This intro sounds calm, it has a beach touch or a kind of classic touch to it, which sounds very original and creative. I love the sound of the instruments in this melody, especially because the acoustic guitar does the beat as well which is awesome. The lyrics are quite deep and emotional. I love it. The singer sounds really cool and calming, I quite like that. The melody is so enjoyable.

The melody at the beginning sounds like one of the songs of Damien Rice. The singer has a nice voice but I don't quite like the pattern on the tunes of this song. The lyrics are nice but the singer sings and it sounds like a look of the same pattern.

This song sounds soothing as it starts out, though it is a bit too melancholic and somber without enough background depth from the music. The vocals harmonize well, but the lyrics could be more wordy and poetic to make the song more captivating and engaging to listen to. It sounds slightly dated and dull in the energy level, and the genre is not one of my favorites.

The tone of the guitar matched your voice because it was decent and calming to listen to. The tone was strong and melodic. Rhythm gives the song a simple tune to follow. Lyrics were very easy to understand. Instruments were played beautifully. I cannot get this song out of my head. I hope everyone goes to see you perform live.

I like the lyrics and guitar. She sounds a little bored like she doesn't like the song she's singing. Not the type of music I would listen to but it's okay. This music would put me to sleep. I wouldn't be interested in buying it.

Sounds really cool. The chorus does not really sound like a chorus to me, it feels like an alternative verse. Great production and recording. Sounds much better than some songs nowadays very good verse and the lyrics and the rhythm goes along the others parts really well

The music of this song is really pleasant to listen to. It is quite relaxing and chilling. I like the instrumental which is just a guitar and nice vocals of singers. Their voices match quite well. I like how it is similar to country music.

I really enjoyed this song! She has a beautiful voice and I like the occasional added male vocals. I like the guitar sound and the overall beat of the song. I can relate to the lyrics which is always a plus for me. Great song! I would definitely listen to this.

I like the acoustic feel of the song. I like the harmony of the male and female voice. This sounds a bit like country/pop, which I do not usually like but the male and female vocals here are good enough so that I don't mind it too much. The instrumentals are a bit too simple though. I think the song would benefit from a more orchestral sound.

I think the instruments give the song the perfect beat. I like how the tone is nice and calm. I don't like how it's almost related to country music since I really don't like country music. I like how there's a man and a woman singing the song because it gives the theme of the song more power.

The intro this song is absolutely awesome. I loved the strumming of the guitar in the beginning. It sets a very country feel for the song. The female and male lead singers work so perfectly together. High and deep voice just mix so well. I love how the song is so simple. Just a guitar and two great vocalists together. I love the song. I loved the beat. I loved the use of the acoustic guitar. I love the story that this song tells. This song is awesome! Great love story

The introduction of the song sounded so beautifully played, the tempo was perfect. I believe one of the artists is playing and singing at the same time because of how the emotions feel so much. The vocals were so alluring, the female and the male voices sounded so good together it was incredible. I think it was an outstanding performance, the lyrics of the song, everything was amazing. It was a great song, well produced!

The beat starts off really well and entering a duet very smoothly and leaves gently throughout the song. The gentlemen maybe needs to sing higher and deeper when it comes to his part. The parts where he sings can not be understood due to the higher tone of her voice. It's a really good song, but it just has a couple flaws.

Cant help but close your eyes and gently tap your feet to this smooth sounding tune. Just made me want to see them live in a dimly lit lounge on a cosy couch, perfect night. Storytelling voices, so easy to listen to, beautiful. The females voice so strong in some parts, bringing such meaning and emotion to the lyrics, joined together softly with the males voice, aesthetically pleasing.

The intro and harmonies are nice, I felt that something sweet would be coming and the singer voice is amazing! I loved her voice, I loved the duet as the second voice matches perfectly with her specially on the high notes. The lyric is touching and full of emotion. The singer makes a good interpretation of the lyric, she makes us feel it and imagine it. I can picture myself listening to this song laying on my bed looking at roof and the window open showing stars in the sky. I like her tune when she says "alone", it is nice. This song is very professional and they made a great job! I heard it till the end and I would listen to it more times. Great song, great arrangements!

I love the lyrics. Its a beautiful song. It has a nostalgic feel. Very sweet and romantic sound. I love the melody and the concept. The vocalist has a beautiful voice. The chorus is super good and i like the lyric "living with ghosts. Pretty food song.

The female vocal was quite good and I appreciated the male supporting vocal at certain points in the song. The tempo was a nice reflective speed-not too fast or slow for the lyrics. The guitar as the star of the song was a good choice to pair with the country-tinged female vocal.

The intro of the song was strong it lead the song into the vocals beautifully and the guitar played at the start was very atmospheric. The vocals of all the singers were strong and clear and the lyrics were easy to understand. I felt that the woman singer was very heartfelt and expressive. The vocals were very tuneful and easy to sing along too. I thought the instruments the whole way through were very balanced and accomplished and they all complimented the vocals well without being overbearing so you could really listen to the lyrics and although the instruments tended to play just one melody the vocals were very rhythmic and tuneful.

This song has a gentle folk-country vibe and the vocal harmonies are nice. The lyrics are pretty typical for a love-based song, and in this case, she seems to be singing about longing and sadness. I don't generally listen to slower songs like this with sad themes so I wouldn't listen to it on purpose, but if I saw this band perform live in a bar or heard this song while out somewhere, I wouldn't mind

I love the sound. the rhythm of the song. not a fan of the swearing to god. the lyrics of the song are alright...can use a little more explanation on the story line for the song. But the guitar sounds great with the track that was picked.

Really good vocals. Singer has a really good voice. The acoustics are beautiful and the words and beat just glide so smoothly. It's a really beautiful song. Words are really cute and meaningful. I would rate higher if the tempo or beat was higher. The song is very relaxing but maybe too relaxing.

Classic guitar rhythm in the beginning. While the first stanza's lyrics are creative, the rest are just okay. Having a generic folk like vibe, this song probably won't get much individual radio play. However, if used in a commercial, for example, they could make some air time. The artist has a nice voice, but nothing special. She will probably succeed as a musician on her own, but not with a big production company.

A duet, I love duets .. The female artist voice is very beautiful and even the male voice is beautiful and together their voices sound nice. The instrumental in the background actually sounds very well with the both of their voices. The lyrics are catchy and understandable. The end of the track also ended fantastic.

This song has great potential, verses are greatly written, great melody, great story, the production could use a little bit of work, I think at 2:20 pickup it could incorporate some snare and full drum ensemble. All in all it's a great track. Hope to hear it on the radio!

The lyrics are heartfelt and very creative in painting the pictures, the word choices and descriptions are clever, such as "pieces of you at pawn shops all around town." The lyrics are A grae, thought the "living with ghost" theme itself has been done many times before by others. The female singer puts in a very solid and impactful lead performance, easy on the ears, and develops the dramatic value of the material with conviction. The male backing vocal fit well with her. The musical arrangement is a perfect style and wlel played for the material. This song is great.

As far as easy listening goes, this piece encourages county-like relaxation and peaceful serenity. I enjoy the simplistic choice of musical instruments and mix of soft vocals. The composition is balanced when considering the flow and climax of this song. I enjoy the integrity expressed in her voice. This is a great piece to meditate to and think about life. Although it is not my favorite type of music if is quite appealing to the ear.

5

25-34

this artist starts off this song a lot slower than others. the lyrics are clear as if she wants your complete attention on the message she is giving in her music. Although that's a risky thing to do not knowing if listeners will stay tuned. You must have confidence in your production to make tracks like this.

Very satisfying to listen to. The vocals are very soft to the ears and are comforting at every beat. The male and female voice blend in well and the instrumentals pair with them well. The lyrics are pretty good but could use some tuning up to make it excellent! Good Job Bud!

the guitar riff in the beginning is sweet! this girls voice is so soft makes me want to cry. and the dudes voice on the hook. the background sounds I don't know what they are but great. the drums really bring out there voices I love this instrumental

25-34

The guitar in the beginning has that muffled sound but then the vocals come in and bring the song back to life. The vocal has a nice amount of reverb and delay on it, which make it sit better in the mix and give it character and ambience.

25-34

The quitar is great but i can barely hear it when people start singing. If i had to guess what type of song this is i would say its a country romance. At some points i would've thought that the drums would be louder and a little more upbeat.

This track is very touching and it is a song that puts me in a very good mood with my partner. It has very good and sound vocals, the instrumentals is unique, the acoustic feeling smoothens the sound. It is a song that can be played in a cool coffee house.

03-Feb-2017

25-34

The acoustic guitar has a good tone. Sounds like a steel string with thin strings. The guitar player has a nice subtle groove to his strumming. The vocalist sounds pretty, and the harmonies between the female and male vocalist work very well. I like how the two lead vocals come together during the chorus. Pretty common technique, but they pull it off well. The lyrics are kind of cool and suggest something a little deeper than what's on the surface. Would like to hear more bass and drums on the production side, but the song itself isn't bad.

03-Feb-2017

6

25-34

This country song is amazing. I like how the beat is so mellow. The artist is great her voice is absolutely beautiful. She can git those high notes very high and the low notes very low. Even though i don't like the beat her oice go good with it.

03-Feb-2017

4

25-34

It's a very sad song, the vocals clearly convey this and the performance was well suited for this song, the instrumental work also complemented the song very well too. A very thought provoking song about how we should all avoid the fate of the singer in this song.

03-Feb-2017

5

25-34

The acoustic intro is nice, and the vocals seem pretty in tune to the music. The beat matches to the theme of the song pretty well. I can definitely tell it's a country song, which goes with the acoustics nicely, though the lyrics seem a little repetitive.

03-Feb-2017

7

25-34

I think this song as if someone is talking to someone else and singing them a song of how they feel about each other. And I think it would be kind of a good music to be in a consort too. But the only problem is that their vocals are not very strong enough and they sound pretty low to me. The production is ok and as well as the instruments.

03-Feb-2017

6

25-34

Nice strings on intro, Vocals felt a little rushed. Would have liked more strings on the intro. Has a good atmosphere on the strings must have used a slight reverb echo maybe? Good harmonies between the male and female singers. 02:20 in nice electric guitar solo. Vocals seem to have a bit too much gain and could do with going down -3db would open up the strings more and give more space to the music. Over all pleasant song I enjoyed it but seemed a bit rushed.

So i thought the vocals was really great. i have never wanted to listen to a full song unless it was by a big name artist. This girl changed that. the instrumentals was very calm and collected which for me is actually really big in my mind i like it when its just me relaxing to a calm song. as for the quality i think this girl need a record deal and who ever produced this needs an award. they did a good job. now she just needs a video and shell be on her way

Nice guitar rhythm. Her high pitched voice is actually very pleasant and the duet with the guy coming in and out in the background with i high cut out sounds very complimenting. I love songs about love and positive vibes. They make ugly topics sounds beautiful.

Love the sound at the very beginning. Then the artist starts to sing, and that voice just takes control. What a great song, the music is just right (doesn't overpower her voice). Love the guitar, and the other sounds in this song. I can truly listen to more of her music.

The vocals are amazing. she has such a beautiful voice and his really compliments hers. the instruments sound amazing and the lyrics are beautiful. this is a song to be your break-up go to. you can feel the emotion in her voice. it was produced really well, too.

02-Feb-2017

10

35-44

I like the lyrics to this song. The song is melodious with meaningful lyrics. It sounds like it was written and sung with passion and emotion. The rhythm of the guitar is precise with a constant steady beat at the correct tempo that makes you get lost in the song.

02-Feb-2017

9

35-44

The introduction is largely emotive and indicative of an alternative rock song. On the arrival of the vocals however, it soon becomes clear that the song is firmly rooted in Country/ Pop. The male and female dual vocal at points of interest throughout the verse, is very intricate and creates an atmospheric and haunting feel. The lyrics are typical of the genre, but I can appear slightly cliché at times, with obvious rhyming patterns. On the whole though, a very nice, easy listening song.

03-Feb-2017

5

35-44

I feel that this is a cool song. The artist's voices blend together well and the instrumental portions make me want to keep listening. The only thing I'd like is to hear more of the electric guitar that's at around the 2:35 mark. I love hearing drums and electric guitar in any song.

03-Feb-2017

9

35-44

The guitar-work was beautiful, as well as the vocals. Wonderful harmony between the man and the woman. Reminds me of something you'd hear out on a range but not in the country way. I'd definitely listen to it while relaxing on the porch outside or doing housework.

03-Feb-2017

35-44

Your composition has a sweet and edgy introduction. I like the guitar parts as they establish tempo and soulfulness. Beautiful female vocal lead verse parts are clear and memorable. Very nice written lyrical concept and arrangement. The addition of the male vocal parts and the build into the bridge is charismatic. Great use of the loud tambourine as a snare down beat. Really good audio production that is marketable and professional.

It has a great sound. I like the two of them singing together. I really like the way her voice sounds in the song. The music has a great sound to it. I think my daughter would really like this song. She enjoys country music. I like it.

03-Feb-2017

5

35-44

The singers had very soft voices and sang in tune, they also harmonised well together. The music was just a little too simple with just a guitar and nothing else except what sounded like a tamborine, this works on some songs but this one had such a slow tempo that it felt to me like something was missing. The melody they were singing was good, but maybe a few more instruments might improve this track, it sounded like another guitar was added at about 3:19 into the track, this should have been added sooner in my opinion, and some drums came in after 3:40. I would add these instruments sooner if I was the artist.

03-Feb-2017

6

35-44

Great song! I love the lyrics to the song. My favorite part is when the lady vocalist sings ghost solo. One problem is when the two sing "ghosts" together; their voices are a little off. But other than that I love it! The best part in my opinion is that it's a country/pop song.

03-Feb-2017

9

35-44

The instrumentals that start the song sound just great for an introduction. The mix of the two voices for vocals just sound so amazing, got my attention right from the beginning. The harmonies sounded beautiful and so professional, it was astonishing. The lyrics of the song touched my soul and made me meditate of everything that has passed in my life. The melody just flows well and beautifully.

03-Feb-2017

10

35-44

The vocals are very concise and clear, both of them are good together, not actually harmonizing, but a nice ring. It is acoustic, that is also clean, no squeaky strings. The lyrics are very simple and uninspired unfortunately. Nice beat, easy listening music, good for an office or learning to play the guitar.

03-Feb-2017

6

35-44

The song begins with an acoustic guitar and it's not long before a woman begins to sing. At about thirty seconds a man also begins to sing sections with her. I really like the softness of both of their songs and it is a country song. I think this would be a hit in the charts. I can imagine them sitting together strumming the guitar.

The mood of the melody from the beginning is relaxing and interesting. The guitar is soft and smooth and not too slow. The base of the drums is supporting well and not overpowering the other instruments (for example the percussions that add sharpness). The singers have beautiful voices and the message in the lyrics is good. I like the bridge.

The beginning of the song with those guitars is good and the way that the female vocals appear is also very nice. The girl has a great voice ans it is very easy to understand her. The boy singing in the background is just average but that is not big deal since he is not the main actor here.

The song was okay. The lyrics made little sense. When the background vocalist came in it sounded a little off pitch to me. So the vocals were alright, a little irritating at times. Production as far as sound was good. Instrumentals was a little catchy. The song had a good beat, was a little dark.

A nice beat and rhythm type of acoustic guitar- also a a folk kind of artist starts to sing her vocals and lyrics- though the beat is quite catchy. This song has some country elements and also it has some cool creepy lyrics and vocals-but you could rock it out a bit more with the melody.

not bad start, the instrumental is fine, vocal has melody. lyrics are fine. i enjoyed some of the music but not my taste. i would still listen but wouldnt purchase the album. the genre seems leaning more depressing that I try to go after as i want happier mood tunes.

## DEFINITIONS

### Weightings

The better a Reviewer is at judging the broader consensus rating of the track, the higher weighting their opinion receives. When calculating the Overall Market Potential, each Reviewer's track rating is weighted in accordance with their influence. For example a track rating from a highly respected Reviewer, who has proven to be accurate at identifying strong or weak tracks in that genre, can carry a much heavier influence than a track rating from a newer Reviewer.

### Reviewers/Sample Group

This is the group of music consumers who have listened to the track online and left their track rating and written review. They are sourced from our sister site, Slicethepie and they do not know they are conducting market research when they hear the track, which helps to achieve honest and objective responses. The sample group is selected at random and screened by their age, gender, location and genre preferences. A diverse sample group of reviewers is required to form a "smart crowd" which ensures an accurate Market Potential. See "Wisdom of Crowds" below.

### Wisdom of Crowds

Wisdom of Crowds is a proven methodology that large groups of ordinary people organised under the right conditions (a "smart crowd"), outperform small groups of experts in making decisions and predictions. It is not new. It is the science behind Google and decision-making in some of the largest companies in the world. It has been proven time and again that collective wisdom consistently surpasses the experts. It also means that SoundOut can guarantee a high level of accuracy with results.

The 4 conditions required to form a "smart crowd" that delivers an accurate result are:

1. Diversity of opinion: A sample group of reviewers with many different points of view makes better decisions than one where everyone has the same information.
2. Independence: The reviewers' opinions are not influenced by others.
3. Decentralization: Answers are given by individual reviewers based on their own local and specific knowledge rather than by a central person.
4. Aggregation: There is a way of accurately measuring the sample group's collective answer.
