

# MIL II

## Passive tactical hearing protector

Passive hearing protection designed especially for use in tactical and military environments

## ROBUST AND COMPACT

With its slim profile and compact design, the Savox MIL II passive tactical hearing protector caters specifically to military applications and rifle shooting. The MIL II has a robust construction that withstands the rigors of tactical and military use. With its noise reduction rating of SNR 29 dB, it offers exceptional sound attenuation in its class. Designed for prolonged wearer comfort, the Savox MIL II features a foldable headband and an easily replaceable hygiene kit.
