SAVOX

HC-100

Helmet headset with boom microphone
Connect with Savox C-C440 and C-C550

Featuring a single speaker with two boom microphone options, there is also the option to use a bone mic or throat mic instead of the standard boom mic for specific tasks. This modular, flexible design, combined with outstanding audio quality, makes the Savox HC-100 Helmet-COM headset an excellent choice for versatile tasks. Easily attachable to different helmet types, this headset ensures crystal-clear and hands-free communication in any scenario. Included fixing options: Universal helmet fixing adapter with arm/strap, MSA Gallet F1XF helmet speaker adapter and velcro for mic.
