

RESEARCH STUDY FOR PEOPLE WITH LIVED EXPERIENCE OF SUICIDALITY

Researchers from the Illinois Institute of Technology's National Consortium on Stigma and Empowerment are conducting a 15-20 minute anonymous online questionnaire about your experiences talking about (i.e. disclosing) suicidality.

Help us understand why you may or may not tell others about your past experiences with suicide.

- Have you ever had serious thoughts about suicide?
- OR
- Have you ever attempted suicide?
