

Long-Term Survivors of Suicide Loss Summit

Sponsorship Guide

The American Foundation for Suicide Prevention's Long-Term Survivors of Suicide Loss Summit is a unique conference designed for individuals who are typically five or more years beyond the loss of a loved one to suicide.

The Summit fosters connection and healing among long-term loss survivors through workshops, expert-led discussions, and social activities that explore how grief evolves over time.

“The Long-Term Survivors of Suicide Loss Summit is for those who want a feeling of community and belonging. We’ve always said that it’s the most loving and accepting club that none of us ever wanted to be a part of. But, since we are, we take great comfort in knowing that there are others who are willing to share their experience and grow and heal together.”
