Zeekr vehicles are equipped with 5G internet connectivity on board.

This can be used free of charge by all vehicle passengers for a period of 1 year. While the use of 5G internet connectivity is generally unlimited, Zeekr expressly reserves the right to temporarily reduce the connection bandwidth (e.g. in case of excessive use exceeding a fair daily usage).

After the 1 year free connectivity period ends, online features, such as video streaming, may remain available through Wi-Fi or mobile hotspots. However, accessing these features through a mobile hotspot may be subject to fees and restrictions imposed by your mobile carrier.

In order to use some streaming services, it is necessary that the user already has a separate account with the respective streaming provider. Streaming providers may vary depending on local availability. Please note that the information provided here is subject to change.

A paid subscription to third-party streaming services may be required to access music and media streaming.

**Zeekr 7X Energy consumption combined in kWh/100km: 19,9 – 17,7 (WLTP), CO₂-emissions combined in g/km:0, fuel consumption combined l/100km: 0. Subject to WLTP homologation. The figures provided herein are based on preliminary testing data and are subject to verification through final local certification; The electric range is influenced by factors including but not limited to driving style and road conditions.*

Charging times may vary based on the power supplied. Maximum DC charging power of up to 450kW (LFP) and 420kW (NCM) represents the vehicle's peak technical charging capability under specific test and operating conditions. Achieving this charging power requires compatible high-power DC charging infrastructure with enhanced cooling capabilities, which is expected to become more widely available as charging networks continue to develop across Europe.

Actual charging performance will vary on charger capability, battery temperature, ambient conditions, and other factors.

5year/100,000 km vehicle warranty, extendable up to an additional 5 years/100,000 km by following the Zeekr recommended service and maintenance schedule at Zeekr Hi-Tech Service Centers or Zeekr authorized Service Workshops. Terms and conditions apply.

The availability of vehicle models, options, specifications and colours may vary from market to market and Zeekr reserves the right to make changes without notice. Vehicles shown may include optional equipment not available in all markets and/or additional features that differ from the standard version. Images are for illustrative purposes only.
