Zeekr vehicles are equipped with 5G internet connectivity on board. This can be used by all vehicle passengers after purchasing the optional 1-year Premium Connectivity Services. However, accessing these features through a mobile hotspot may be subject to fees and restrictions imposed by your mobile carrier. In order to use some streaming services, it is necessary that the user already has a separate account with the respective streaming provider. Streaming providers may vary depending on local availability. Please note that the information provided here is subject to change. A paid subscription to third-party streaming services may be required to access music and media streaming.

ZEEKR CONNECTED PREMIUM PACKAGE:

Some features and services may become available at a later stage depending on market, vehicle model, or software version. Zeekr reserves the right to modify, update, or discontinue features and services without prior notice. Connectivity data services are provided by Vodafone. Availability and performance may vary depending on network coverage and market conditions. Streaming quality and available usage time may vary depending on network conditions, content provider, and market availability.
