

Nara

kettal

## Description

---

Nara is a refined indoor fabric that combines a soft, elegant appearance with a subtle and balanced texture. Its smooth finish and understated character bring comfort and sophistication to upholstered furniture, making it suitable for a wide range of interior spaces.

Suitable for indoor use only

Technical specifications

|                       |                                                                                                                                                       |
|-----------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| Composition           | 100% Polyester Trevira CS                                                                                                                             |
| Width (cm)            | 140 cm                                                                                                                                                |
| Weight (g/m²)         | 510 g/m² (715 g/lin. m)                                                                                                                               |
| Abrasion (Martindale) | Martindale: In progress (ISO 12947-2)                                                                                                                 |
| Pilling               | 5 (2,000 rubs) ISO 12945-2                                                                                                                            |
| Color                 | Slight colour differences between batches may occur                                                                                                   |
| Lightfastness         | 6 (ISO 105-B02)                                                                                                                                       |
| Fastness to rubbing   | 4/5 (ISO 105-X12)                                                                                                                                     |
| Fire tests            | EN 1021-1 & 2, BS 5852 Crib 5, DIN 4102 Class B1, NF P 92-501 Class M1, UNI 9175 Class 1 IM, California TB 117:2013, NFPA 701, NFPA 260, among others |
