Product description

The product is a risk-only superannuation interest in the Fund which is a public-offer retail master trust. Consumers are enrolled into the product by their participating employer, who agrees to fund all insurance premiums and product administration fees associated with the product by making additional employer superannuation contributions on behalf of the consumer. The product provides eligible consumers with the ability to obtain insurance cover through an insurance policy within the superannuation environment.

The underlying policy is a contract of insurance between the Trustee and the Insurer selected by the Trustee to provide the insurance cover within the product. The Trustee is the owner of the insurance policy and the policy does not govern the consumers' membership of the Fund.

Any benefits paid under the policy will be paid to the Trustee. Premiums paid for the policy are paid by the Trustee, after it receives the required additional employer contributions in respect of an eligible consumer.

Any entitlements to:

- be paid a benefit received by the Trustee under the policy, and
- pay additional employer contributions to the Trustee for the Trustee to subsequently pay premiums to the insurer for the policy;

are subject to any restrictions or limitations that may apply under the Fund's trust deed and under superannuation law.
