## Our Mission, Our Values

Opération Enfant Soleil raises funds to support the development of quality paediatrics for all the sick children of Quebec.

Thanks to the funds raised, around a hundred projects come to fruition each year in the region, where children can be cared for close to their families, as well as in major paediatric centres, which can outfit themselves with cutting-edge technologies and create welcoming spaces.

To date, over 255 million dollars has been awarded in the different regions of Quebec thanks to the generosity of the public, the support of our volunteers, and the dedication of our partners.

To do this, four values guide the Opération Enfant Soleil team each day in carrying out its mission.

- » solidarity
- » proximity
- » transparency
- » ambition

## Our Vision

Opération Enfant Soleil's vision is to be the great unifier of Quebecers around the cause of sick children by significantly increasing their financial support to the province's healthcare institutions.

We want the scope of our actions to be as extensive as possible, which is why we support the healing of children across the province, regardless of the disease. Our involvement is present at every stage that an affected family must go through, from awareness to prevention, including investigations, diagnoses, the equipment used during treatments, or outpatient care at home.

# A Word from the Chair of the Board and the CEO

For 33 years now, Opération Enfant Soleil has brightened the lives of thousands of sick children and their families by helping them find the path to health. The quality care and the equipment suited to children's needs that have been funded thanks to your generosity over the past three decades have allowed for the completion of thousands of projects essential to the lives of children. In total, more than 255 million dollars has been distributed in every region of Quebec since Opération Enfant Soleil was created in 1988.

Over the past year, the pandemic that is raging across the planet forced the cancellation of several of our organization's fundraising activities. But thanks to the dedication of our partners, the generosity of our donors, and the support of our volunteers, staff, and Board of Directors, more than \$18 million was raised for the benefit of sick children—an unhopd-for amount that will allow us to continue our mission with strength and determination.

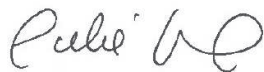

The extraordinary solidarity of the Quebec population has not wavered in these times of crisis. Because children continue to need care despite the pandemic, we made every effort to present a different version of our Telethon on June 7, 2020. The event was held remotely and was hugely successful, which demonstrated the extent to which Quebecers wear their hearts on their sleeves and are committed to the cause of sick children.

This activity report presents the progress made together over the course of this turbulent year. We wish to express all our gratitude to you for your unwavering support, which is an inexhaustible source of comfort for sick children and their families. Thanks to each of you, Opération Enfant Soleil can help medical staff perform little and big miracles every day, in all regions of Quebec.

From the bottom of our hearts, thank you!

# Our Enfants Soleil

Each year, seventeen families from all regions of the province agree to share their touching story publicly. Through their journey, determination, resilience, and courage, our Enfants Soleil inspire each of the initiatives of Opération Enfant Soleil and its partners. Along with their families, they are incredible ambassadors of the cause and the very essence of the work we do every day.

## Our Spokespersons

Opération Enfant Soleil can count on the involvement of several personalities who take the well-being of children to heart. Whether it's during the provincial hospital tour, visits to hospitalized children, or activities organized by our valued partners, they voluntarily get involved and leverage their talent for the well-being of sick children.

In this year filled with challenges, we wish to thank them for their support. Stopping at nothing to support the cause, our spokespersons greatly contributed to the continuation and success of the 33<sup>rd</sup> Opération Enfant Soleil Telethon with their ideas and passion. For all the little and big miracles that they help us perform year after year, we thank them for their invaluable contribution.

**On behalf of the children,  
thank you from the bottom  
of our hearts to:**

Mélissa Bédard

Arthur L'aventurier  
Annie-Soleil Proteau and  
Félix-Antoine Tremblay.

Thanks also to 2Frères and all the collaborators who have supported Opération Enfant Soleil's great chain of solidarity over the year!

# The 33<sup>rd</sup> Opération Enfant Soleil Telethon

The latest edition of the Opération Enfant Soleil Telethon wrapped up with a figure of \$16,724,819 announced at 10 p.m. However, the public's support didn't stop there. Indeed, the donations continued to pour in online, by phone, and from the valued partners of the cause, allowing us to announce a total of \$17,066,729 a few hours later! Thanks to the extraordinary generosity of Quebecers, more than \$2.75 million was raised on June 7 alone, which makes the 2020 Telethon one of the most successful of the past 10 years.

An adapted and largely pre-recorded formula was presented alternately on TVA and Facebook. The major Telethon team—production, hosts, technical, and Opération Enfant Soleil employees—had to start from scratch with everything they knew. There was no longer any experience or reference, and everything had to be rethought and reinvented out of a concern for preserving the soul and the essence of the Telethon. Mission accomplished! All the caring people involved in the cause rallied to the team and brilliantly took up this big, beautiful challenge. Thank you to the partners, the Enfants Soleil, the artists, and the volunteers for their invaluable cooperation. Thanks to TELUS and its partner, Thrio, which pulled off the feat of dematerializing the call centres, 300 volunteers were able to collect the generosity of thousands of donors in total safety in the comfort of their homes.

## Planned Giving

A type of donation that goes a long way...  
and does good for the generations of tomorrow

Although still little known to donors, planned giving is reaching more and more people. It is with pride and gratitude that we have seen this type of commitment gradually increase over the past four years.

We are touched by the trust that our donors have in our organization, our mission, and our values. Their generosity will have long-term impacts.

To that end, we wish to say THANK YOU to these valued donors and their families who have left greater opportunities for healing as a legacy to the future generations of Quebec.

Much simpler than it seems, this act comes first from the heart, but it has matured in the head to take on a lasting dimension. Whether it is publicly traded securities, creating an endowment fund during your lifetime, or a donation in your will that ensures that you will continue to be there for sick children, donors who choose planned giving also make sure not to put their family's legacy into question. Beyond assets and property, they also pass on their values, their convictions, and their commitment to the society of tomorrow.

Regardless of your age or the wealth that you have accumulated over the years, everyone has the ability to make an inspiring gesture during their lifetime through an immediate or deferred donation.

## One couple's project: a major philanthropic scope

Line and Marc have supported Opération Enfant Soleil from the very first Telethon in 1988 and given monthly as Parents Soleil since 2015, and they were thinking of a way to leave some form of legacy to the generations of children to come.

*"Among the different possible options, we chose to move forward with our own endowment fund. Creating this fund during our lifetime will allow us to see its effects, see it evolve, and add to it over the years. This way of helping even more sick children makes us happy and proud!"*

"Above all, it was out of love for children that we've supported Opération Enfant Soleil from the beginning. We haven't experienced the joy of being parents, and we were looking for a way to help sick children and their families. We had already discussed donations in our wills without really knowing what that involved. One day, a little leaflet on planned giving sparked our interest, so we contacted Opération Enfant Soleil for more information and started thinking about the possibility of leaving a significant mark for the well-being of the following generations by bequeathing a share of our assets to the organization we've always supported.

By carrying out this project, we're ensuring the continuity of our commitment. Making a difference in the lives of sick children also makes us even happier. We're also so proud and touched to see how much the people around us support us in this project."

BEING A PARENT SOLEIL  
MEANS BEING PART  
OF THE BIGGEST FAMILY  
IN QUEBEC

## 2020: A GROWING FAMILY THAT HELPS CHILDREN GROW

More than 1,800 new Parents Soleil joined this big family during the last Telethon, providing additional support that is more than welcome in the context of the pandemic.

Today, more than 11,000 donors join forces to support sick children and their families across Quebec and offer them hope and comfort throughout the year.

# \$1,403,098

## UNPRECEDENTED GENEROSITY!

Last June, a record amount of \$1,403,098 was awarded to Opération Enfant Soleil from the Parents Soleil family!

We are extremely grateful to all the Parents Soleil, who have proven to us once again this year that they were willing to commit themselves to our cause!

A special thank you to the Parents Soleil who have been with us for a long time and who have shown solidarity by increasing the amount of their monthly donation.

# 11,498

PARENTS SOLEIL

## PROUD TO BE PART OF THIS FAMILY

Being a Parent Soleil is above all a matter of the heart. Here are a few of the inspiring testimonials that we have received from Parents Soleil who shine month after month through their reassuring presence for sick children!

"The godmother of a little boy who succumbed to illness when he was just 4 years old, I was 17 years old when I started donating to Opération Enfant Soleil, and I haven't stopped since. One day, I understood that becoming a Parent Soleil allowed me to offer a little more than the amount of my annual donation without breaking the bank. I'm really proud that I embarked on this inspiring adventure!"

**Manon Plante**  
Parent Soleil since 2012

"I became a Parent Soleil because, for me, children are clearly the driving force behind a better future. In that sense, it's up to us as adults to provide them with all the tools and all the assurances necessary for their full blossoming and the development of their skills."

**Josias D. Tekou**  
Parent Soleil since 2018

"I've always had the health of children tattooed on my heart. Since I was 18, I've donated to the Telethon every year. Opération Enfant Soleil is MY cause! My boy is healthy, and I'm thankful for it every day.

I wanted to do a little more, so I joined the Parents Soleil family, and now I donate each month without it making a big difference in my budget.

There's no big or small amount; the important thing is to be consistent."

**Cara Fafard**  
Parent Soleil since 2017

# Entreprise Enfant Soleil

Three years ago, Opération Enfant Soleil launched the first philanthropic certification for Quebec businesses: **Entreprise Enfant Soleil**.

This certification is a set of marketing tools that allow businesses to stand out, implement an innovative strategy, mobilize their employees, and convey strong and tangible values to their clients, suppliers, and consumers. It allows certified companies to belong to an exclusive business community that shares common values.

Certification continues to charm entrepreneurs who are committed and willing to invest in children's health. This is not surprising when you know that 90% of business leaders\* deem it important to do business with socially responsible suppliers and that 69% of Quebecers\*\* consider it important to work for a company that is socially engaged in its community.

## ENTREPRISE ENFANT SOLEIL CERTIFICATION IS...

A business community of more than 50 companies

An opportunity to stand out from the competition

A great way to retain and mobilize your employees

## Children's health is also a matter for businesses!

# The Provincial Hospital Tour

Each year, Opération Enfant Soleil visits the four corners of Quebec in the context of its provincial hospital tour to award the grants to the hospitals and organizations in each region. This is also an opportunity for the team to meet the Enfants Soleil families to soak up their history. Although the tour had to be cancelled halfway through, Opération Enfant Soleil honoured all its commitments to the province's recipient institutions. To adapt to the situation, the recipient institutions had the opportunity to modify the nature of the grants received according to the contextual needs imposed by COVID-19.

Opération Enfant Soleil: partner of Quebec's four major paediatric centres

\$2,701,015 awarded to the Centre mère-enfant Soleil du CHU de Québec-Université Laval

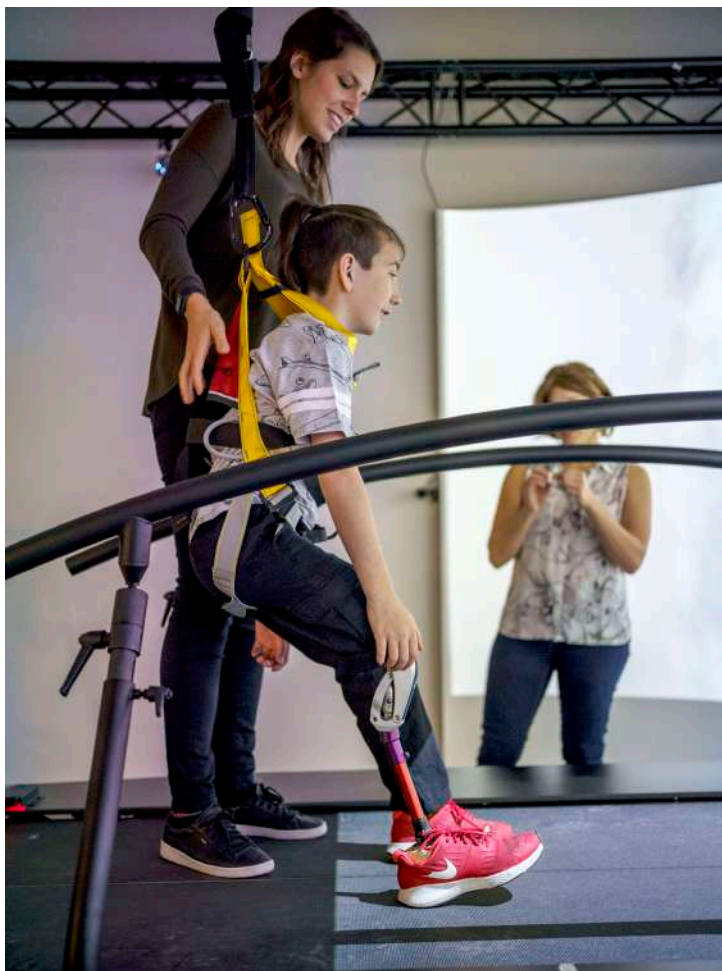

Centre mère-enfant Soleil

This amount contributes to the deployment of paediatric neurosurgery by allowing for the purchase of a 3-Tesla magnetic resonance imaging (MRI) device and the development of the premises that will be used to host this new cutting-edge device. The amount awarded this year is also used to purchase equipment to support the performance of complex surgeries and paediatric traumatology. An expansion of the operating room is also possible thanks to this donation, increasing the capacity of seven intensive care beds.

## \$2,660,996 granted to CHU Sainte-Justine

In particular, this amount contributes to the acquisition of GRAIL, an innovative gait rehabilitation technology that is the result of the Technopôle paediatric rehabilitation project. This ultra-modern virtual reality system allows the child to strengthen their exercise endurance in a fun and motivating universe. For caregivers, this tool maximizes patient care while ensuring more precise and personalized interventions.

## \$2,660,996 contributed to the Montreal Children's Hospital

This amount helps fund the purchase of equipment and the implementation of several projects that contribute to children's well-being, including the acquisition of the ROSA robot, an ultra-specialized tool used for neurosurgery on patients suffering from epilepsy. The grant also improves the program of surgical procedures outside the operating room, offering an environment conducive to reducing anxiety and pain in children. A portion of this amount is dedicated to the eating disorder therapy program, as well as complex at-home care. It also supports the implementation of the mobile communication platform, allowing for safe and simple care for clinicians and patients. Finally, this grant provides funding for the BAH project, which assists young people with hearing impairments by greatly improving their hearing.

## CIUSSS de l'Estrie – CHUS, Hôpital Fleurimont receives \$700,263

The creation of an Oral Immunotherapy Clinic (CITO) is possible thanks to this grant. The CITO assists patients suffering from food allergies. This amount is also part of Opération Enfant Soleil's continued support in creating the new Pavillon Enfant-Soleil. A total amount of \$10 million will be contributed to CIUSSS de l'Estrie — CHUS, Hôpital Fleurimont for the construction of this brand-new centre.

## Children treated in their regions thanks to your donations!

To support the regions in tandem with the four major paediatric centres, nearly one million dollars was awarded to regional health and social services institutions to—among other things—acquire paediatric equipment. Several recipient institutions were also able to modify the nature of the grant requested according to the contextual needs imposed by COVID-19.

## Over 115 grants awarded to regional hospitals and organizations across the province

The equipment acquired thanks to Opération Enfant Soleil's grants allows children to remain in their region or return there faster to receive care. The amounts awarded help adapt hospital care and equipment to the needs of children across the province.

## Partnership with the Ministère de la Santé et des Services Sociaux (MSSS)

In the context of the Fonds pour le maintien et le rapatriement des nouveaux-nés, as well as capital projects, 25 grants awarded to regional hospitals were enhanced by the MSSS. This year, a total amount of \$950,000, \$475,000 of which came from Opération Enfant Soleil, was awarded to support this type of project.

5-Hour Cardio Challenge  
**\$199,975**  
 raised

## Fonds Josée Laviguer

Created in 2006 in collaboration with Énergie Cardio, Opération Enfant Soleil's Fonds Josée Laviguer aims to promote physical and mental health in children through physical activity. The 2019 edition of the 5-Hour Cardio Challenge helped raise an amount of \$199,975 and carry out 52 projects dedicated to physical activity in children under 18 in several institutions and organizations. In total, 570 projects have emerged thanks to the funding offered to organizations by the Fonds Josée Laviguer.

\$1,333	CPE Mini-Monde-BC Since 2017: \$2,302

Total amount contributed to the region  
since 1988: **\$1,783,051**

## Attribution of the grants

To all the members of the Grant Analysis Committee, THANK YOU! Each year, healthcare experts come together on a voluntary basis to rigorously examine all the requests submitted by the hospitals, then recommend the attribution of the amounts in total fairness according to the needs. These recommendations must be approved by Opération Enfant Soleil's Board of Directors before the grants are distributed.

# Our Draws

**Maison Enfant Soleil signée Bonneville** is the largest home draw in Quebec. Since the first draw in 1993, more than 26 million dollars has been raised for the well-being of sick children.

This hopeful project is made possible thanks to the extraordinary commitment of our major partners, present for a 6<sup>th</sup> consecutive year. Thank you to Industries Bonneville, the official builder, to IKEA for the furniture and décor, to Lowe's Canada for the materials, and to TD, which offers the grant to purchase the land. Such a large-scale initiative could not take shape without the support of the companies that make up the provincial sales network, as well as our media partners. THANK YOU!

From left to right: Mélissa St-Pierre, Lowe's Canada; Ève-Catherine Métras, IKEA; Éric Bonneville, Les Industries Bonneville; Julie Lemieux, Opération Enfant Soleil; Jayden Forest-Aubut, Enfant Soleil ambassador; Alain Dumas, spokesperson; Dany Bonneville, Les Industries Bonneville; Odessa Bargoné, TD Bank Group; Marie-France Cyrenne-Payeur, IKEA; Guillaume Théoret, TD Bank Group; Jules Foisy-Lapointe and Stéphane Chevalia, Lowe's Canada.

## New draw date January 28, 2021

Live on Salut Bonjour, on TVA

Due to the context imposed by the pandemic, Opération Enfant Soleil, in conjunction with the Régie des alcools, des courses et des jeux (RACJ), moved the Maison Enfant Soleil signée Bonneville 2020 draw to Thursday, January 28, 2021.

Postponing the draw date made it possible to recover the significant loss of revenue caused by the pandemic and thereby raise as much money as possible to support sick children and their families.

To learn the identity of the winners, please visit [www.maisonenfantsoleil.ca](http://www.maisonenfantsoleil.ca).

# PASSEPORT

✈ DE RÊVE ✈

AIR CANADA

Launched on August 22, 2019, the second edition of the Air Canada Dream Passport helped raise more than \$500,000 to benefit sick children. Thanks to the remarkable involvement of the official sales networks—Bikini Village, Bizou, Staples, DeSerres, Leon's, and Tuango.ca—and all the dedicated partners who helped sell tickets, we can award this amount to hospitals across Quebec.

On February 20, 2020, live from Rythme FM studios, Ms. Guylaine Turgeon from Saint-Zacharie (ticket No. 044080) became the big winner of the Air Canada Dream Passport 2020. The draw, carried out in the company of Anick Dumontet and Alexe Gagnon, Enfant Champion, allowed the big winner to receive \$60,000 to travel wherever she wants for the next three years!

# Our Campaigns

Opération Enfant Soleil stands out by offering people a multitude of ways to get involved to help sick children. Our turnkey fundraising campaigns are original and easy to organize. They are aimed at both small and large organizations that want to make a difference in the lives of the families.

Fans from across Quebec dedicated their country activities and events to sick children.

Hundreds of gaming enthusiasts took up the challenge at the time of their choice on their favourite platform (video games, board games, etc.) for the benefit of the cause.

On Halloween night, thousands of piggy banks went around and \$40,000 was raised thanks to the solidarity of the schools, daycares, and CECs of Quebec.

Relis Don is a promising and unifying project that encourages reading and advocates for ecology by giving books a second life.

A wonderful nod to our sick children, this solidarity movement brought together more than 195 schools across Quebec.

Bowlers from across the province dedicate their passion to children's health.

Several restaurants across the province have offered an amount to Opération Enfant Soleil for each "Soleil meal" sold.

## Media

## Thank you to our volunteers

Thank you to all the volunteers who get involved annually for Opération Enfant Soleil and to the many volunteer committees that assist us in several areas of our organization. There are hundreds of you across the province who give your time to the children and help grow this chain of solidarity, year after year. Your contribution is essential, and you have all our gratitude for the work accomplished!

## Goods and services

Opération Enfant Soleil thanks its goods and services partners for their commitment each year:

# Financial Results

This year, thanks to the generosity of its many donors, the invaluable cooperation of its partners, and the dedication of its volunteers, Opération Enfant Soleil is allocating and investing an amount of 14 million dollars to contribute to the development of high-quality paediatric care across the province.

All detailed financial information is provided annually on the T3010 form, accessible on the Canada Revenue Agency (CRA) website at the address [cra-arc.gc.ca](http://cra-arc.gc.ca).

The financial statements for our last fiscal year (2019-2020) have been audited by the Raymond Chabot Grant Thornton firm. This firm also takes care of providing our duly completed T3010 form to the government.

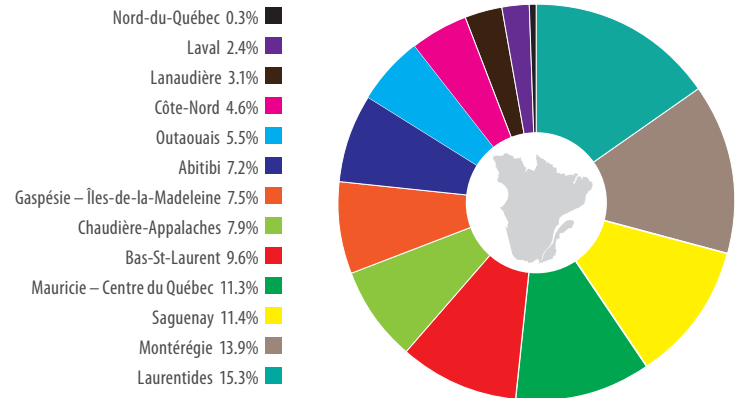

## Our donations by the numbers

87% of the revenue is earmarked for the four major paediatric centres offering specialized care to children: the Centre mère-enfant Soleil du CHU de Québec, the Centre hospitalier universitaire de Sherbrooke, the CHU Sainte-Justine, and the Montreal Children's Hospital (MUHC).

To meet the needs of the regions and provide local care to children, 13% of the revenue is awarded to health and social services institutions to acquire paediatric equipment and carry out various prevention and awareness-raising projects.

## Distribution of the donations by region (2019-2020)

## Highlights

- Number of children hospitalized in 2019-2020:

**65,471**

- Number of surgeries:

**36,886**

- 0–4-year-olds remain the most hospitalized age group, followed by 15–19-year-olds, a reality that holds steady over the years.\*\*

\*\*MSSS 2019-2020

## What We Learned

This year, 2019-2020, has been one of many challenges for Opération Enfant Soleil. The word “resilience” took on its full meaning and has been at the heart of our actions with sick children. There have been ups and downs, but we have all learned a great deal during this unprecedented crisis that has turned our lives upside down. We developed our agility to work remotely, do things differently, think differently, communicate differently. We created a completely different Telethon by sometimes making difficult but essential decisions that will also influence our ways of working in the future. We learned to trust our instincts even more and—above all—fight better and even harder to ensure the survival of our mission. We innovated and reinvented ourselves while preserving our achievements: the Grant Tour, the visibility of the partners, the fundraisers, the call centres, the testimonials from the Enfants Soleil, the Telethon as a whole... Everything was revised. But above all, we wanted to remain present for sick children and their families in this pivotal year, and you supported us tirelessly in this essential task. The biggest family in Quebec has demonstrated its strength, its solidarity, its empathy. And for this wave of love, thank you again...
