

Enfant Soleil Equipment Fund

Submit a Grant Application

The Enfant Soleil Fund aims to support the purchase of adapted pediatric equipment that promotes proximity to home, comfort, and quality care.

Funding Focus Areas

- Adapted equipment for screening, assessment, maintenance, treatment, home lending, and safe transportation
- Therapeutic equipment (physiotherapy, occupational therapy, speech therapy, ID-ASD-PD assessments)
- Specialized neonatal and pediatric equipment based on the level of care

Eligibility criteria

- Be a healthcare establishment recognized and regulated by Santé Québec
- Comply with regional child health development policies
- Comply establishment's permit (level of care)
- Be dedicated to pediatric clientele
- Have the human and material resources required for use, maintenance and sustainability

Funding Allocation Criteria

Impact assessment and the difference made for children, families, and professional teams based on the three main priorities:

1. Deploy essential new local pediatric care services
2. Enhance and expand the offering of local pediatric care
3. Improve the experience of the child and their family throughout the pediatric care journey

Financial Contribution possible

- Up to 100% of the submitted cost may be funded
- Based on needs analysis, the number of units granted may be reduced or a lower-cost piece of equipment may be selected to align with the level of care provided by the facility and to adequately meet the identified need
- A prorated amount may apply based on the intended use for the pediatric clientele

Exclusions

- Replacement or renewal of standard operational equipment currently owned
- Maintenance or repair costs
- Obstetric equipment (only postnatal equipment is eligible)
- Disposable or regularly purchased equipment (e.g. dressings, tubing, single-use licenses)
- Requests for limited, individual use specific to a single child

Steps for Grant Allocation

1. Project approval by your facility's management
2. Submission of the application form, grouping and listing all requested equipment, prioritized across all departments of the facility
3. Analysis and recommendation in November by an external committee of independent experts
4. Approval of the grant in December by the Enfant Soleil Board of Directors
5. Approval by the MSSS (if applicable)
6. Agreement signed between Enfant Soleil and the applicant
7. Grant disbursement (around March of the following year)
8. Identification of funded equipment using sticker labels
9. Social media publication
10. Impact report to be completed via the online form within 12 months of receiving the grant

Derogation Request

Please note that once the grant has been approved, any changes must be sent to octrois@enfantsoleil.ca. Requests for exceptions will be reviewed and approved by the Board of Directors of Enfant Soleil.

Additional Information

If this is your first request, please contact us to obtain a user code for our online platform. For any additional information, feel free to reach out to us:

Examples of Funded Equipment

- Air-oxygen mixer
- Apnea monitor
- Audiometer
- Bilirubinometer (Bilichex)
- Blood pressure monitor
- Care table
- Continuous positive airway pressure (CPAP)
- Convertible incubator into neonatal care table
- Cradle bed
- Electric breast pump
- Electrocardiograph
- Electronic scale
- Electronic thermometer
- Ergotable
- Examination lamp
- Examination table
- Eye control device
- Feeding pump
- Glucometer
- Glucose monitoring system
- Hearing screening device
- Heating bed
- Heating lamp
- Heating mattress
- Heating table
- Incubator
- Incubator for intensive care
- Laryngoscope
- Monitor
- Multiparametric physiological monitor
- Nasolaryngoscope
- Neonatal resuscitation device
- Non-invasive ventilator
- Operating table
- Ophthalmoscope
- Otoscope
- Oximeter
- Oxygen therapy device
- Patient lift
- Pediatric glidescope
- Pediatric infusion pump
- Pediatric scale and case
- Pediatric stethoscope
- Pediatric stretcher
- Phototherapy blanket (Biliblanket)
- Phototherapy lamp
- Portable scales
- Resuscitation table
- Saturometer
- Scales for babies
- Sphygmomanometer
- Standard incubator
- Stretcher for transport incubator
- Suction device
- Suction pump
- Syringe pump
- Tensiometer
- Transport incubator
- Transport ventilator
- Vein illuminator
- Ventilation device
- Vital signs monitor
- Volumetric pump
