

FONTANA LAUNCH IN CASCADA DE CAMOJAN

Fontana is a collection of five new, architecturally curated villas, developed by Sir John Beckwith of UK-based Pacific Investments, in conjunction with Penna Property Partners, which launched in spectacular style with a glamorous party at the Cascada de Camojan site in Marbella. The evening featured a Champagne reception, live music and a performance from famous Soprano Laura Wright. Situated at the highest point within the distinguished Cascada de Camojan estate, the villas, designed by local architects Torras y Sierra, are an ode to classic elegance, ushering in a new, contemporary era for Marbella property development. The first residence is targeted for completion at the end of 2017, with final completion of the project expected for September 2018.
