Release news CARS Release 2024.00

In this release we send a warm welcome to our Secure Gateway solution to Volvo and Polestar!
You will also get a much easier and fully integrated Secure Gateway solution for Renault.

You will find several helpful and smooth functions in the software. One is that you will see information about the limited functionalities that occur if the software turns invalid.

Another helpful function is the new information bar in the software. It will get new icons for the battery status, for showing the connection status, and one that tell if you have any news to read. In the information bar you will also find a new button to the Secure Gateway Portal login. You can also see if any of your colleagues is logged in to the portal.

Besides that, there will be a lot of updates on database content on new and old vehicles, new models, year models and systems.

Find more detailed information about updated models below.

			Engine	Brake	Instrument	AC	Gearbox	Immobiliser	Restraints	Multifunction	Service	EV	Suspension	TPMS	ADAS
Abarth															
Abarth 500	Year model updated	2008-2022	•												
	Dump valve replacement	2008-2022	•												
	Wastegate valve, activation	2008-2022	•												
Abarth Punto EVO	Year model updated	2007-2011	•												
	Dump valve replacement	2007-2011	•												
	Wastegate valve, activation	2007-2011	•												
Alfa Romeo															
166	Year model updated	2000-2004	•												
	Dump valve replacement	2000-2004	•												
	Particulate filter regeneration	2001-2004	•												
	Wastegate valve, activation	2000-2004	•												
147	Year model updated	2000-2010	•												
	Dump valve replacement	2000-2010	•												
	Particulate filter regeneration	2000-2010	•												
	Wastegate valve, activation	2000-2010	•												
156	Year model updated	2000-2005	•												
	Dump valve replacement	2000-2005	•												
	Particulate filter regeneration	2001-2005	•												
	Wastegate valve, activation	2000-2005	•												
Giulia	Year model updated	2015-2022	•												
	Air filter replacement	2015-2022	•												
	Cylinder head and/or Intake manifold replacement	2015-2022	•												
	Fuel pump high pressure replacement	2015-2022	•												
Stelvio	Year model updated	2017-2022	•							•					
	Air filter replacement	2017-2022	•												
	Cylinder head and/or Intake manifold replacement	2017-2022	•												
	Fuel pump high pressure replacement	2017-2022	•												
GT	Year model updated	2004-2010	•												
	Dump valve replacement	2004-2010	•												
	Particulate filter regeneration	2004-2010	•												
	Wastegate valve, activation	2004-2010	•												
Tonale	Year model updated	2022-2023	•				•					•			•
	Battery state of health	2022-2023										•			
	CVPM Service Calibration	2022-2023													•
	Low Temperature Coolant Fill	2022-2023										•			
MiTo	Year model updated	2008-2018	•												
	Dump valve replacement	2008-2018	•												
	Particulate filter regeneration	2008-2018	•												
	Wastegate valve, activation	2008-2018	•												
159	Year model updated	2006-2011	•												
	Dump valve replacement	2006-2011	•												
	Particulate filter regeneration	2006-2011	•												
	Wastegate valve, activation	2006-2011	•												
Brera/Spider	Year model updated	2005-2010	•												
	Dump valve replacement	2005-2010	•												
	Particulate filter regeneration	2005-2010	•												
	Wastegate valve, activation	2005-2010	•												
Giulietta	Year model updated	2010-2018	•												
	Dump valve replacement	2010-2018	•												
	Particulate filter regeneration	2010-2018	•												
	Wastegate valve, activation	2010-2018	•												
Audi															
A3 [13-20]	Year model updated	2013-2020	•		•							•			
	Pressure reduction/expansion, high-pressure line	2013-2020	•												
A3 [20-]	Year model updated	2020-2024	•	•	•	•	•	•	•	•	•	•			•
	1. Calibration of gearbox auxiliary hydraulic pump -V552.	2024					•								
	1. Establish basic setting of the CAN installation information	2024					•								
	1. Establish basic setting of the CAN installation information	2024					•								
	2. Basic setting of the mechatronic	2024					•								
	2. Calibration of travel sensors -G487 - G490.	2024					•								
	2. Oil level check	2024					•								
	3. Calibration of clutch valves -N215, -N216.	2024					•								
	3. Hydraulic pump basic setting	2024					•								
	3. Test drive after basic setting	2024					•								
	4. Adaption of clutch kiss points.	2024					•								
	4. Gearbox basic setting	2024					•								
	5. Calibration of gear sensor -G676.	2024					•								
	5. Conventional gear selector and double clutch basic setting	2024					•								
	6. Decoupler K0 for electric motor basic setting	2024					•								
	AC-system 1234YF: flushing the refrigerant circuit	2024				•									
	AC-system heat pump: Service position, evacuate and refill process	2024				•									
	Activate brake lights	2024		•											
	Activate warning buzzer	2024		•											
	Activation of emergency braking indication	2024		•											
	Activation of red ESC warning lamp	2024		•											
	Activation of the Auto Hold function lamp	2024		•											
	Activation of the EPB function lamp	2024		•											
	Activation of the EPB-button indicator lamp	2024		•											
	Activation of yellow ESC warning lamp	2024		•											
	Actuator for engine temperature regulation - adaption	2024	•												
	Adaptation brake pedal position sensor	2024		•											
	Adaption after changing sensor wheel	2024	•												
	Adaption chain lengthening	2024	•												
	Adaption chain lengthening - after replacing timing chain	2024	•												
	Adaption fuel pressure regulation valve	2024	•												
	Adaption turbo control motor	2024	•												
	Adjust light setting	2024								•					
	Adjust the exhaust turbo offset correction	2024	•												
	Adjust the maximum speed limit	2024	•												
	Adjustment of the fuel pump	2024	•

		Engine	Brake	Instrument	AC	Gearbox	Immobiliser	Restraints	Multifunction	Service	EV	Suspension	TPMS	ADAS
Basic adjustment tailgate	2024								●					
Basic setting	2024								●					
Basic setting / Bleed brake system	2024		●											
Basic setting for inlet/cut-out valves	2024		●											
Basic setting of brake system	2024		●											
Basic setting of parking brake	2024		●											
Basic setting of the mechatronic	2024					●								
Basic setting tire pressure monitoring	2024		●											
Battery matching	2024								●					
Battery state of health	2024										●			
Bleeding, fuel system	2024	●												
Boost pressure regulator adaption	2024	●												
Brake pressure sensor, reset	2024		●											
Brake system air bleed	2024		●											
Calibrating 360° Camera System - ACS Cars	2024													●
Calibrating Camera - ACS Cars	2024													●
Calibrating Camera - ACS Trucks	2024													●
Calibrating Camera - OEM Standard	2024													●
Calibrating Camera - W.EASY ADAS Calibration	2024													●
Calibrating Radar - ACS Cars	2024													●
Calibrating Radar - OEM Standard	2024													●
Calibration of steering angle sensor	2024								●					
Calibration of transmission neutral position sensor	2024	●												
Calibration position sensor	2024					●								
Calibration rear view camera - ACS Cars	2024													●
Calibration rear view camera - OEM Standard	2024													●
Catalyst Reset	2024	●												
Catalytic particle filter (CPF) change	2024	●												
Change air mass meter	2024	●												
Change operating mode	2024	●												
Check ATF level	2024					●								
Check fuel delivery rate of the metering pump	2024				●									
Circulation pump	2024				●									
Clutch slipping point adaptation	2024					●								
Clutch timing:adaptation	2024		●											
Code control unit	2024	●	●	●	●	●	●		●		●			●
Code trailer function	2024													●
Combustion air fan	2024				●									
Conventional gear selector and double clutch basic setting	2024					●								
Cooling efficiency control / AC compressor initialization	2024				●									
Cruise control function	2024	●												
Decoupler K0 for electric motor basic setting	2024					●								
Delete crankshaft sensor adjustment values	2024	●												
Delete injectors adaption values	2024	●												
Delete sensor adjustment values	2024	●												
Delete sensor customization values	2024	●												
Delete the sensors' fine-tuning values	2024	●												
Difference pressure sensor replaced	2024	●												
Differential pressure sensor	2024	●												
Differential pressure sensor learning	2024	●												
Drain ATF	2024					●								
Dynamic calibration front camera	2024													●
Dynamic calibration of several driver assistance systems	2024													●
Dynamic calibration radar	2024													●
Electronic throttle control	2024	●												
End position adaption front power window	2024								●					
End position adaption rear power window	2024								●					
Engine run-in oil pressure	2024	●												
ESP driving test	2024		●											
Establish basic setting of the CAN installation information	2024					●								
Exhaust flap adaption	2024	●												
Exhaust gas pressure sensor 1 adaption reset	2024	●												
Exhaust gas recirculation valve	2024	●												
Exhaust gas recirculation valve 1	2024	●												
Fill ATF	2024					●								
Fuel high pressure lowering	2024	●												
Fuel pressure control valve	2024	●												
Function control of parking/extra heater	2024				●									
Gas tank pressure	2024	●												
Gear selection sensor calibration	2024					●								
Gear shift unit, action point reset	2024					●								
Gearbox basic setting	2024					●								
Glowplug with flame monitoring	2024				●									
High pressure EGR valve adaption	2024	●												
Hydraulic pump basic setting	2024					●								
Idle speed adjustment	2024	●												
Initialization of the steering angle sensor	2024		●											
Injector programming	2024	●												
Injector programming, 20-digit code	2024	●												
Injector programming, 3-cyl, 20-digit code	2024	●												
Injector programming, 3-cyl, 7-digit code	2024	●												
Injector programming, 4-cyl, 20-digit code	2024	●												
Injector programming, 4-cyl, 6-digit code	2024	●												
Injector programming, 4-cyl, 7-digit code	2024	●												
Injector programming, 6-cyl, 7-digit code	2024	●												
Injector programming, 7-digit code	2024	●												
Language Change	2024			●										
Learning end position damper motors	2024				●									
Low pressure EGR valve adaption	2024	●												
Metering pump	2024				●									
Move gear selector to neutral position	2024					●								
Move pistons forward (after service)	2024		●											
New adressing damper motors	2024				●									
Oil level check	2024					●								
Output diagnostic test mode ABS hydraulic unit	2024		●											
Parking brake activation, closing	2024		●											
Parking brake activation, open	2024		●											
Particle filter replaced	2024	●												
Particle filter, check the carbon content	2024	●												
Passenger seat standardization	2024								●					
Potentiometer for intake manifold runner	2024	●												
Potentiometer for intake manifold, control alignment	2024	●												
Presentation mode	2024								●					
Pressure reduction/expansion, high-pressure line	2020-2024	●												
Radiator blind basic setting	2024	●												
Reductant tank adaptation	2024	●												
Regeneration	2024	●												
Regeneration (During test drive)	2024	●												
Regeneration (Stationary vehicle)	2024	●												
Remote control adaption	2024				●									
Replace air filter	2024	●												
Reset adaption	2024	●												
Reset adaption values	2024								●					
Reset adjustment values for knock sensor	2024	●												
Reset all learned values	2024					●								
Reset charging socket connection cycles	2024										●			
Reset cylinder individual ignition counter	2024	●												
Reset learned values of pressure control valve	2024	●												
Reset mileage dependent inspection/extrawork	2024									●				
Reset of turbo adaption values	2024	●												
Reset oxygen sensor adaptions	2024	●												
Reset the amount of fuel in the oil	2024	●												
Reset the indication for worn brake pads	2024								●					
Reset the oil service	2024									●				
Reset the oil service interval	2024			●										
Reset time dependent inspection/extrawork	2024									●				
Resetting learned values of cylinder pressure sensors	2024	●												
Resetting of pistons (before service)	2024		●
