

User manual

After installation, you will find the user manual under Documents in the software menu. Read the user manual before using the product.

You can also scan the QR code to access the manual.

USB security dongle

Use the attached USB dongle to use the software. You find it in the short end of the VCI. The dongle protects the software and links ICON to your software licence level.

Safety

This equipment is not suitable for use in locations where children are likely to be present. Risk of fire or explosion if the battery is replaced by an incorrect type.

See battery replacement instructions in the user manual.

System requirements

Find the system requirements at our website autocom.se.

WEEE

This product must be recycled according to the WEEE directive.

Support

If you need help or more information, please contact your distributor.

Quick start guide

1. Insert the USB security dongle in the PC
2. Go to autocom.se/en/releases
3. Download the software and run the installation
4. Start the software
5. Create an account and log in

CARS software

TRUCKS software

**Fixing any vehicle
is extraordinary.
And super easy.**

Congratulations on your ICON!
Together with CARS or TRUCKS software,
you get a fast, user-friendly and secure
tool that supports your daily work.

Autocom Diagnostic Partner AB
Grafitvägen 23 B, SE-461 38 Trollhättan, Sweden

Autocom diagnostic software

Always keep your software licence valid to maintain access to all diagnostic software functions. This ensures safe, accurate and efficient service and repair. And it keeps your customers safe and satisfied.

In your Autocom software you have access to security locked systems [Secure Gateway] and in CARS you can get brand-specific technical support [Repair Services].

Autocom Secure Gateway

Your key to locked vehicle systems. Secure Gateway gives you authorised access - automatically.

It is quick, secure and included* in your licence.

Benefits for the workshop

With Autocom Secure Gateway you can access, diagnose and service all available security-locked systems.

- Easy and seamless
- Safe, secure and OEM-authorised solution
- One registration for all available vehicle brands
- Perform service on more vehicles

**Safe, secure and
OEM-authorised**
