

Offshore Wind Leasing Round 6 - PDA Zones

Priority Area - Medium-term

Potential Area of Opportunity

Northern Ireland Marine Area *

Offshore Wind

Offshore Wind Agreements - The Crown Estate

Offshore Wind Agreements - Crown Estate Scotland

Offshore Wind Agreements - Europe

Base Mapping

UKHO Territorial Waters Limits

Renewable Energy Zone Limit and UK Continental Shelf

* Future Offshore Wind opportunity in Northern Ireland will be reviewed after publication of the NI Strategic Environmental Assessment (SEA)

The locations shown are subject to further refinement to identify much smaller project development areas

Indicative size of 1GW Wind Agreement at 5MW/km² (200km²)

The final capacity of Round 6 is still to be determined, but is expected to be around 6GW, which would require approximately 40% of the space identified in the PDA Zones.
