- Establish performance goals, conduct evaluations, and promote accountability and continuous improvement
- Foster collaboration across supply chain, production, and operations teams
- Coordinate material availability with manufacturing schedules and production demands
- Balance forecasts, inventory targets, and capacity constraints to maximize throughput and minimize downtime
- Support MRP/MPS planning processes and schedule optimization initiatives
- Maintain optimal inventory levels for raw materials and finished goods
- Reduce excess inventory and carrying costs while preventing stock shortages
- Monitor inventory accuracy and implement corrective actions as needed
- Build and maintain strong supplier relationships
- Negotiate contracts and monitor supplier performance metrics
- Resolve delivery, quality, and supply issues efficiently
- Serve as a subject-matter expert for ERP systems including AS400, Insights 2020, and Excel-based MRP tools
- Ensure system data accuracy and integrity
- Generate reports and provide operational insights to leadership

- Develop advanced Excel reports, dashboards, and macros for KPI tracking and operational analysis
- Analyze trends related to inventory turns, on-time delivery, supplier performance, and forecasting accuracy
- Lead initiatives focused on reducing lead times, improving efficiency, and lowering operational costs
- Ensure supply chain activities comply with company policies, industry standards, and workplace safety requirements.
