# SCHIAVELLO DESIGN STUDIO

Led by Design and Marketing Director Anton Schiavello, the Schiavello Design Studio is made up of a number of multi-disciplinary designers and makers with expertise in industrial design, fashion design, engineering and medical design. With varying strengths and specialties, the team collectively shares experiences from in and around the furniture industry and brings its expertise to newly developed Schiavello products.

Maintaining thoughtful, innovative and research-driven outlooks on design trends, the Schiavello Design Studio has been the driving force behind a number of the company's most successful designs. Some of the team's most notable concepts include Krossi in 2013 – the first and only Australian made and designed sit/stand desk – and the pioneering Climate workplace system in 2010, which is still one of the most malleable products of its kind. In addition, the studio continues to develop Schiavello's furniture offering, catering to changing typology trends, business and people needs and technology requirements, while maintaining product quality, longevity, effortless visual appeal and environmental sustainability.

An Australian design classic, the Watsonette Chair adds a sophisticated and welcoming flair to waiting areas, meeting rooms, restaurants and hotel lobbies.

Watsonette's ergonomically moulded polyurethane foam provides contoured, firm support for the lumbar during long periods of sitting. With a seat height of 430mm, Watsonette is slightly higher

than traditional guest seating. The high, hugging form of the back and sides provide further assistance in raising and lowering oneself in and out of the chair.

# Specifications

The Watsonette is available as a single tub chair or two-seater. The high, hugging form of the back and sides provide further assistance in raising and lowering oneself to and from the chair.

## Single tub chair

## Two-seater

# ColourLab

Schiavello's innovative ColourLab brings a considered and cohesive palette of finishes to working and living spaces. Curated by Giulio Ridolfo and developed by Schiavello, the palette beautifully balances colour, texture and layering across a variety of materials.

## Ecology and sustainability

Schiavello's most important commitment to sustainability is the company-wide Environmental Management System under ISO 14001. The environmental design principles realised means we design for the environment, focusing on efficient energy use and minimum emissions, longevity and durability, re-use and recycling of our products.

Our principles of ME WE (Materials, Energy, Waste Emissions) give us a simple way to think about how our operations impact the environment.

Printed on an Australian made paper stock that is PEFC Certified and made from elemental chlorine-free bleached pulp sourced from sustainably managed forests and non-controversial sources. It is manufactured by an ISO 14001 certified mill using renewable energy sources.

## About Schiavello

Schiavello is a multi-disciplinary company dedicated to developing intelligent, inspiring, ecological and resilient solutions for the office, the home and public spaces.

Schiavello's concepts and products are developed in Australia by applying a design process that brings together the company's core design principles and engineering with the creativity of local and international designers.

The Schiavello head office and world-class manufacturing facilities are integral to our continually developing rich tapestry of knowledge. This knowledge ultimately assists us in informing the right solutions and tools for each organisation's needs and people, allowing us to consistently achieve our philosophy that 'Anything is possible'.
