SCHIAVELLO DESIGN STUDIO

The Schiavello Design Studio is made up of a number of multi-disciplinary designers and engineers with expertise in industrial design, interior design and product engineering. Supported by an array of trade-based professionals, the technically focused team brings a diverse expertise to new and evolved product development.

Maintaining thoughtful, innovative and research-driven outlooks on workplace design, the Schiavello Design Studio has been the driving force behind a number of the company's most successful solutions. The most notable concepts include Krossi – the first and only Australian made and designed sit/stand desk – in 2013, the pioneering Climate malleable workplace system in 2010, and the industry-leading acoustics 'room within a room', Focus Quiet Room collection in 2019.

Now, introducing the latest sofa collection Valli in 2022, the studio continues to develop solutions catering to changing typology, business and people needs and technology requirements. All while maintaining product quality, longevity, effortless visual appeal and environmental sustainability.

Introducing Kayt Collection

Kayt's distinctive lines express the connection between the seat and back elements, creating a unique language common to all elements within the collection, yet distinguishing it from many others of this typology.

Kayt Quiet

Kayt Quiet is a distinctive booth-like lounge. Offering high sides and back, the cocoon creates an instant meeting space for private conversation, concentration or relaxation. As a part of the broader Kayt Collection, Quiet is both a sofa, meeting place and room within a room.

Kayt Rest

Kayt Rest embellishes reception and waiting areas, meeting rooms and casual breakouts with poise and purpose, complementing modern interior landscapes. Meanwhile, its polished chrome base delivers understated elegance.

Elegant, streamlined and highly customisable, Kayt Rest is easily at home in a number of environments – waiting rooms, breakout spaces, agile working environments or the home.

Kayt Pause

Kayt Pause is an bold individual dining, meeting or waiting chair designed for formal and informal spaces across workplace, retail or hospitality. With a strong connection to the Kayt Collection through it's distinctive lines and legs, it is the personal solution of the statement collection.

Kayt Pause is flexible and adaptable, offered in a range of colours and fabrics from the ColourLab palette, with 2 base configurations, and a height-adjustable 5-star base in polished aluminium with castors or glides.

Ecology and sustainability

Schiavello's most important commitment to sustainability is the company-wide Environmental Management System under ISO 14001. The environmental design principles realised means we design for the environment, focusing on efficient energy use and minimum emissions, longevity and durability, re-use and recycling of our products.

Our principles of ME WE (Materials, Energy, Waste Emissions) give us a simple way to think about how our operations impact the environment.

Printed on an Australian made paper stock that is PEFC Certified and made from elemental chlorine-free bleached pulp sourced from sustainably managed forests and non-controversial sources. It is manufactured by an ISO 14001 certified mill using renewable energy sources.

About Schiavello

Schiavello is a multi-disciplinary company dedicated to developing intelligent, inspiring, ecological and resilient solutions for the office, the home and public spaces.

Schiavello's concepts and products are developed in Australia by applying a design process that brings together the company's core design principles and engineering with the creativity of local and international designers.

The Schiavello head office and world-class manufacturing facilities are integral to our continually developing rich tapestry of knowledge. This knowledge ultimately assists us in informing the right solutions and tools for each organisation's needs and people, allowing us to consistently achieve our philosophy that 'Anything is possible'.
