

# Focus Booth

## A symbol for Retreat

Focus is a curated selection of booths that provide a quiet refuge for a private conversation or to reflect.

schiaavello

# The Knowledge collection

Schiavello’s Knowledge collection is comprised of cutting-edge products that are based on extensive research conducted by our Schiavello Design Studio and People and Culture Consulting teams. Led by strategic research into how businesses and employees function, these products help achieve goals and solve problems within the workspace furniture industry.

# NICK *TENNANT*

Since 2011, Nick Tennant has been a lead designer within the Schiavello Product Design and Development team. With over 15 years' experience in interior design, Nick's distinctive work is informed by his time collaborating on award-winning projects for leading Australian and international architecture and interior design firms. A value-adding resource for clients, Nick consults on tailoring workspace planning and bespoke product design.

In 2013, Schiavello identified the need for more quiet zones in open plan offices and soft architecture work booths.

Drawing from his experience with workspace planning, Nick developed the diversity in configurations and optional finishes for Focus. The progressive design features tactile materials and a flexible design that supports the physical and cognitive activities of the modern office worker.

After years of design and development, spent considering and reconsidering how to construct and bend the timber panels, Schiavello invested in new machinery and arrived at an innovative design.

# Introducing Focus Booth

# Space to think

Today's offices provide fewer boundaries concerning when and where to work, and a lack of private areas is a shortcoming in activity-based workplaces. Workspace research indicates that users are dissatisfied with their privacy and would like more of it. Providing a place to retreat, Focus creates an ideal working space for concentration, even within high-traffic, openplan offices.

# A silent investment

Intrusive noise can lead to poor concentration and fatigue and is a costly problem for businesses today. Research suggests that office workers lose over an hour of productivity per day due to uncontrolled interruptions. Focus forms a shield from the surrounding environment, providing privacy and creating a quiet retreat and shelter from visual and acoustic distractions.

# Retreat to comfort

In a single day, a worker attends to different activities that need a varying degree of focus: thinking, writing, reading, creating, analysing, problem solving, to name a few. The planning flexibility of Focus helps organisations to optimise their real estate by delivering the right workspace in a highly efficient footprint. Available in a variety of intelligent configurations and soft finishes, Focus transforms under-utilised transitional spaces into desirable destinations.

# Healthy mind, healthy body

Creating the right spaces for the task at hand can increase productivity through a physical change in the working environment. The ability to easily adapt from one task to another by creating a choice in working spaces can enhance a sense of psychological security. Designed to be good for your body and good for your brain, Krossi height adjustable tables bring sit/stand work surfaces to Focus.

# Tools and support for project work

Empowering the user through freedom of choice, Focus Booths are customisable, making them an inviting space to work. Integrated power for video conferencing, a diverse set of accessories and a variety of finishes allow for a desirable experience.

ColourLab materials and finishes

- 1. Laminate
- 2. Spotless Laminate
- 3. Timber Natural
- 4. Timber Paint
- 5. Timber Wash
- 6. Linoleum
- 7. Fabric
- 8. Metal Powder Coat

## Ecology and sustainability

Schiavello's most important commitment to sustainability is the company-wide Environmental Management System under ISO 14001. The environmental design principles realised means we design for the environment, focusing on efficient energy use and minimum emissions, longevity and durability, re-use and recycling of our products.

Our principles of ME WE (Materials, Energy, Waste Emissions) give us a simple way to think about how our operations impact the environment.

Our brochures are printed on an Australian made paper stock that is PEFC Certified and made from elemental chlorine-free bleached pulp, sourced from sustainably managed forests and non-controversial sources. The paper is manufactured by an ISO 14001 certified mill using renewable energy sources.

## About Schiavello

Schiavello is a multi-disciplinary company dedicated to developing intelligent, inspiring, ecological and resilient solutions for the office, the home and public spaces.

Schiavello's concepts and products are developed in Australia by applying a design process that brings together the company's core design principles and engineering with the creativity of local and international designers.

The Schiavello head office and world-class manufacturing facilities are integral to our continually developing rich tapestry of knowledge. This knowledge ultimately assists us in informing the right solutions and tools for each organisation's needs and people, allowing us to consistently achieve our philosophy that 'Anything is possible'.
