MK10 presents an innovative patented clipping solution which enables simple and fast installation, with MK10 Rooms able to be adjusted between the various sizes with minimal additional new parts. With in-built power, ventilation and it's mobile-in-nature design, reconfiguration and relocation can occur with ease. Alongside globally recognised safety certification bodies UL and Declare, Schiavello regards the MK10 range as powered furniture.

From a private call to a team meeting

MK10 Rooms are available in various sizes to create the right place for an array of tasks or needs. Designed to use a common kit of parts, Schiavello's MK10 Rooms can adjust between the various sizes with minimal additional new parts.

The MK10 **Phone Room** is designed to fit a work shelf and stool to create a low footprint space for private calls. Sensor activated lighting and ventilation provides added comfort.

The mid-size **Work Room** comfortably accommodates one person and is ideal for video conference calls, longer phone calls or high concentration solo work. It has capacity for a generously proportioned lounge chair and a side table, or a task chair and 50" (1270mm) wide work point.

The **Gather Room** creates a space for small meetings of up to four people, designed for optimal video conferencing with ample space for wheelchair accessibility supporting an individual / single desk based work setting.

The **Gather+ Room**, with an extended depth and accessibility presents ample space for two people to work at a desk or up to four in a group meeting setting.

Meanwhile, the **Meeting Room** is the most generous of the MK10 Rooms – a combination of furniture can be used, including a sofa and executive desk for a private office, or a table with chairs to create a confidential meeting room.

Leading acoustic performance

With an insulated ceiling, walls and thick 0.4" (10.38mm) laminated glass, paired with an automatic drop seal at the base of the door, MK10 achieves a high-level acoustic privacy of NIC 31. Allowing minimal opportunity for sound to intrude or escape, this beautiful piece of considered engineering results in a room where employees can go to focus with minimum disruption.

Unrivalled ease of installation

Using our patented clipping solution, Schiavello's MK10 Rooms can be installed and reconfigured in very short timeframes, allowing for minimal down time across a variety of floor types. Adding to this, our proven modular ceiling and integrated lighting and ventilation solution ensures MK10 delivers a highly reconfigurable solution.

Quality & safety assured

The MK10 Room range (Meeting Room, Gather & Gather+ Room, Work Room and Phone Room) has been engineered to align to **Global Building and Furniture Standards** across stability, ventilation, lighting; DDA compliance (AS1428) and fire safety compliance.

UL (Underwriters Laboratories) Certification

Under standard UL 962. Certificate download available online. Founded in 1894, UL is a global safety certification company, headquartered in Northbrook, Illinois.

Seismic Testing Kit

Designed and tested in accordance with International Building Code (IBC) 2021, California Building Code (CBC) 2022. A physical shake table test has been completed in accordance ICC-ES AC156 by the University of Technology Sydney and passed the requirements.

Seismic solutions ensure components will withstand and operate after an event such as an earthquake.

Red List Approved

The Declare label demonstrates alignment with other requirements within the Living Building Challenge and Core Green Building Certification, as well as LEED and WELL certifications.

These requirements include ingredient disclosure thresholds, VOC content and emissions, embodied carbon, and responsible sourcing, including FSC Chain of Custody.

Qualified in accordance with Red List Approved. Declare combines material transparency that are considered healthy for people, the environment and communities.

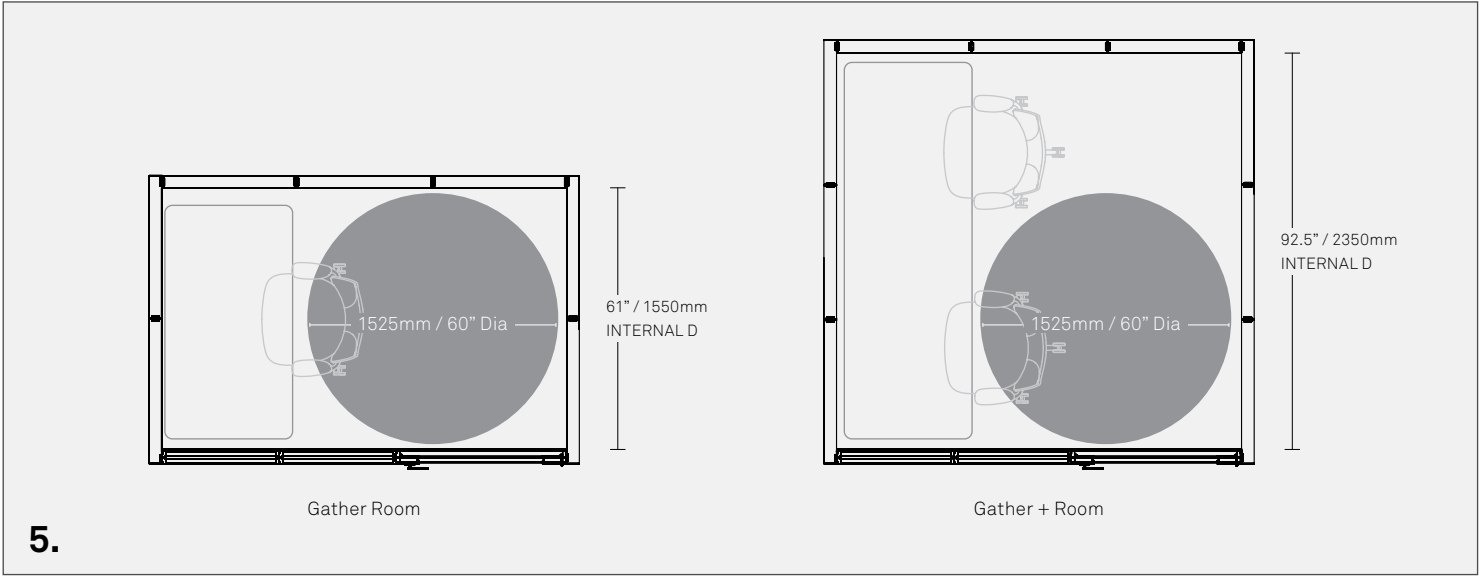

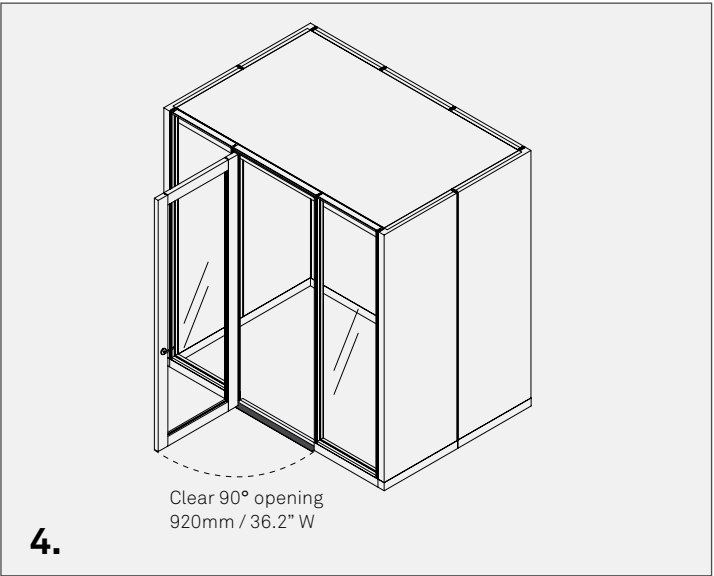

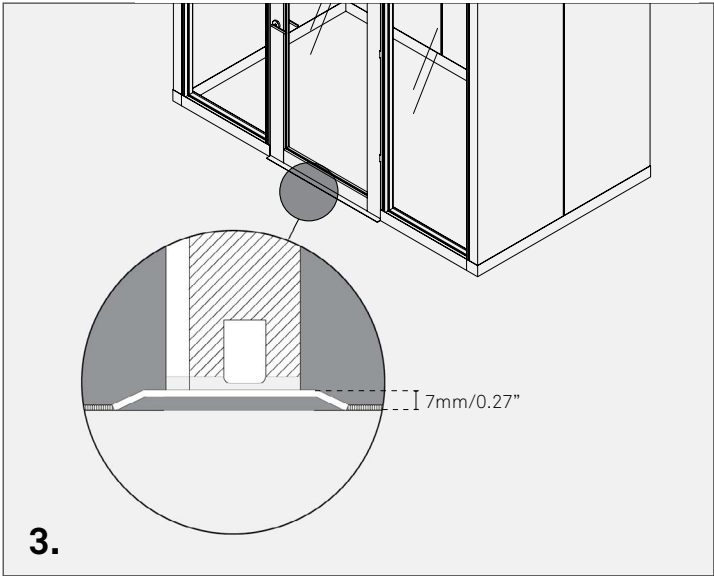

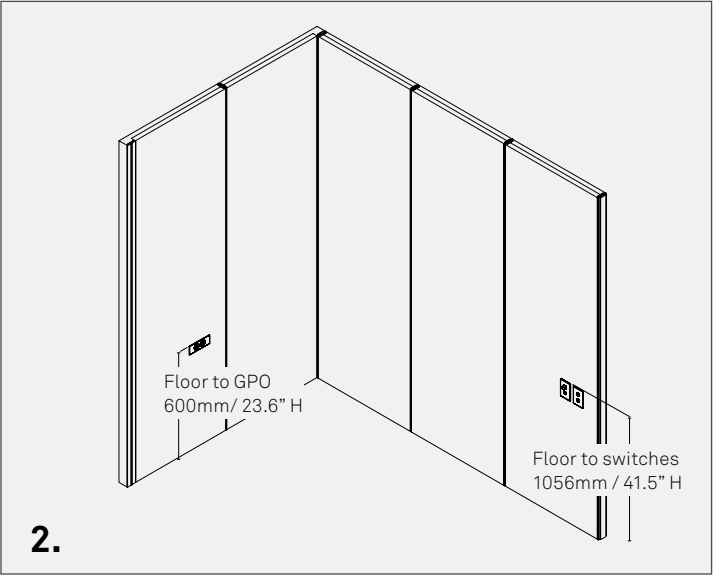

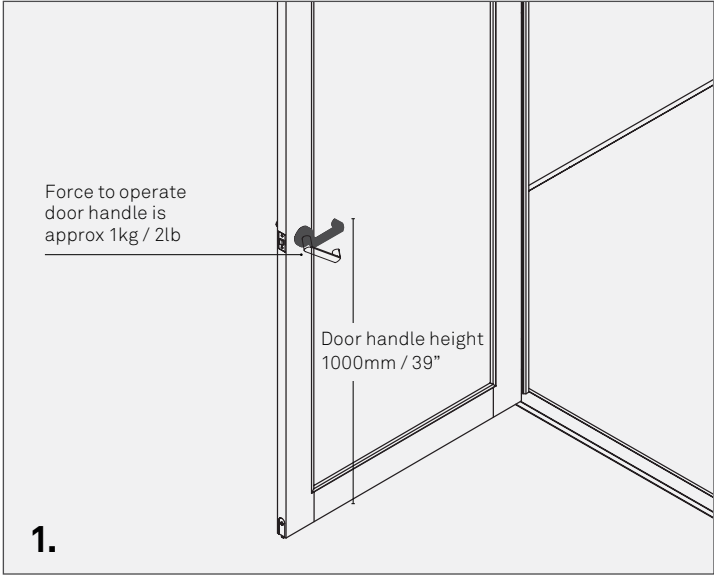

Best practice accessibility

Specific features that enhance the accessibility of MK10 Rooms include:

- 1. Door handle placement is at a height within reach and requires minimal force/strength to operate
- 2. Interior power unit and switches are placed at a height within reach
- 3. No-step floor means minimal change in level
- 4. Door opening features ample width (full width opening 906mm/34.2")
- 5. Doorway access delivers ample circulation space within Gather and Meeting Rooms*

*Subject to interior furniture selection.

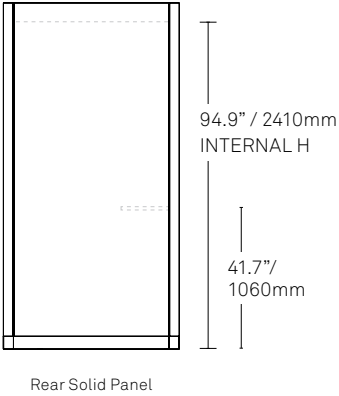

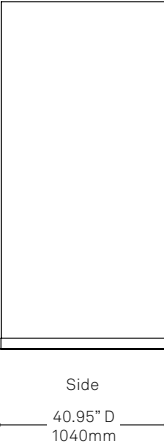

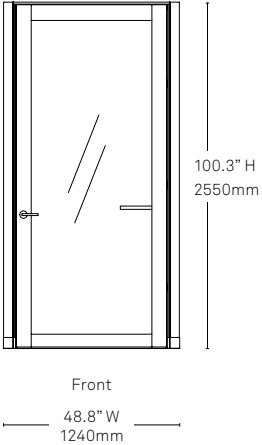

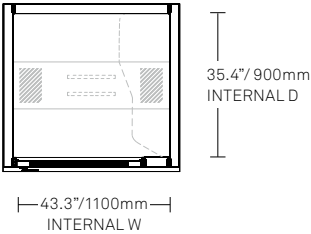

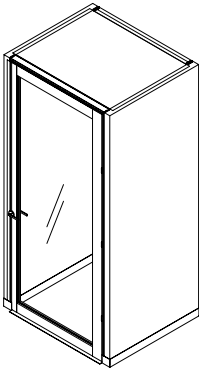

Specifications

MK10 Rooms are available in various sizes to create the right place for an array of tasks or needs. Designed to use a common kit of parts, Schiavello MK10 Rooms can adjust between the various sizes with minimal additional new parts.

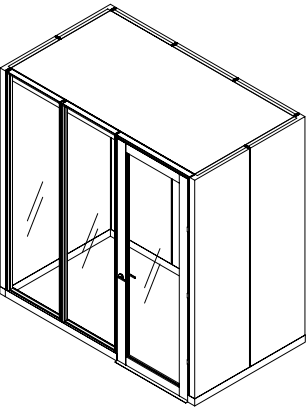

Phone Room

- Available heights:
90.5" / 2300mm
100.3" / 2550mm
- Rear wall available in a solid or glass panel
- Standard electrical for all Phone Rooms:
- 1 x motion sensor
 - 2 x LED lights
 - 2 x integrated fans
 - Double power socket / Dual USB*
 - 1 x provisional hole for fire sprinklers

*Contact your Schiavello Representative for further electrical and data options.

Work Room (offset door)

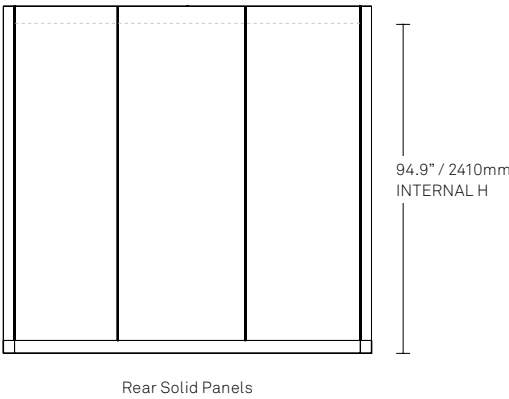

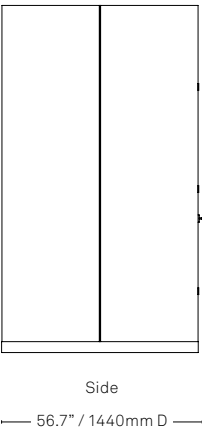

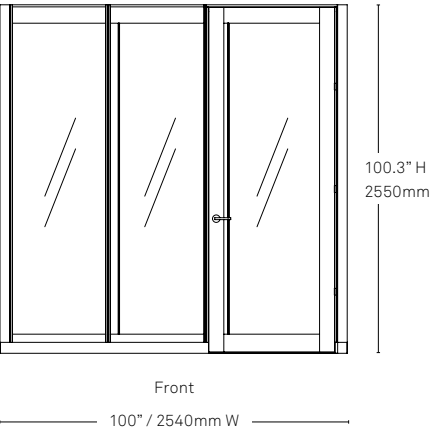

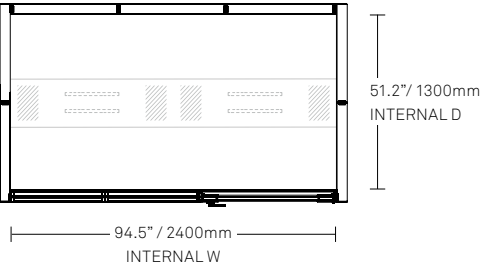

Available heights:
90.5" / 2300mm
100.3" / 2550mm

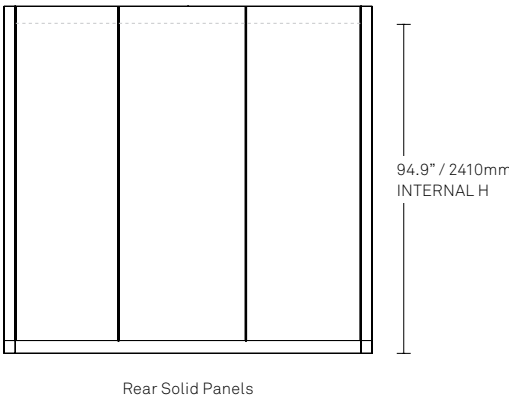

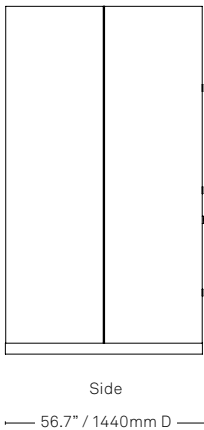

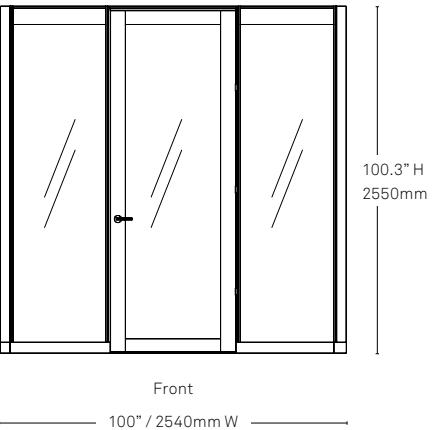

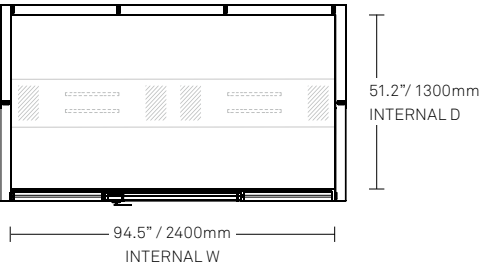

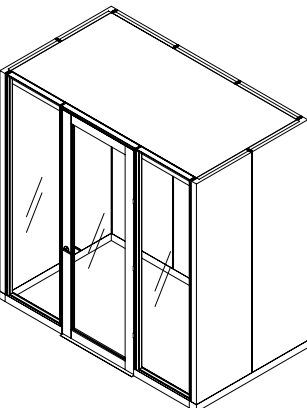

Rear wall available in 2 x solid and 2 x glass panels or 1 x solid and 1 x glass panel

Front wall available in central or offset glass door and 2 x glass panels

Standard electrical for all Work Rooms:
1 x motion sensor
4 x LED lights
4 x integrated fans
Double power socket / Dual USB*
1 x provisional hole for fire sprinklers

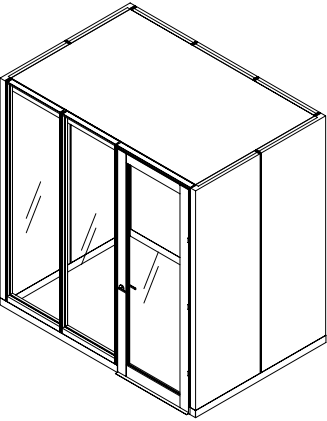

Work Room (central door)

*Contact your Schiavello Representative for further electrical and data options.

Gather Room (offset door)

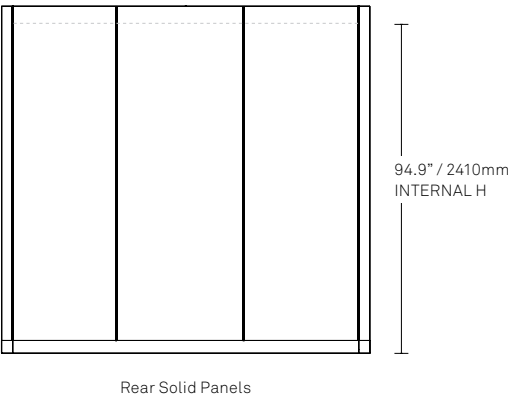

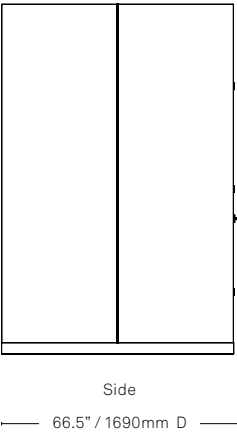

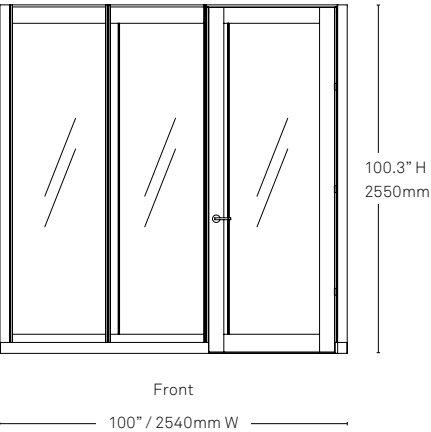

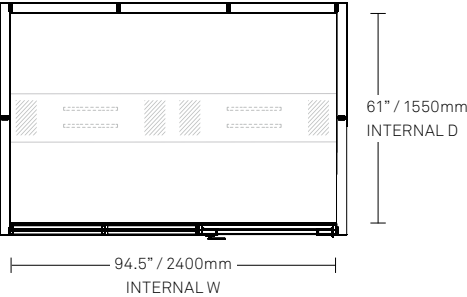

Available heights:
90.5" / 2300mm
100.3" / 2550mm

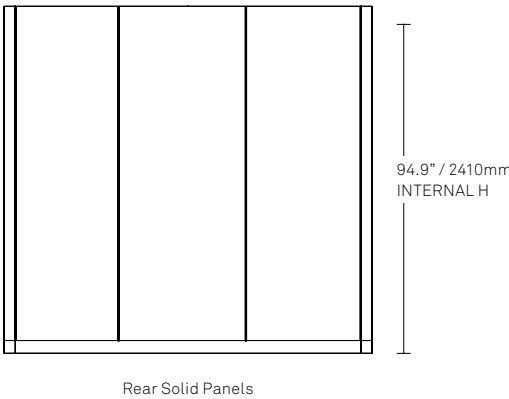

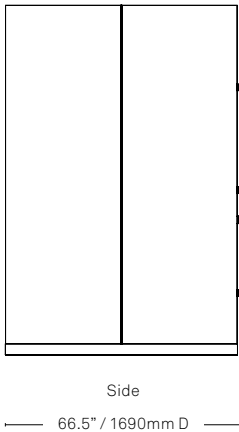

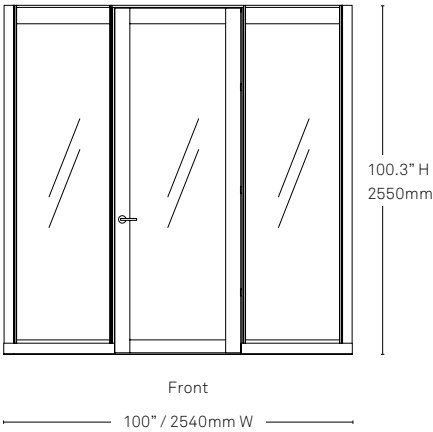

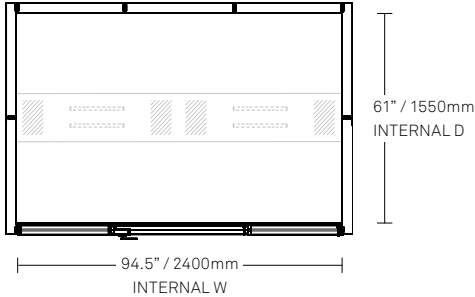

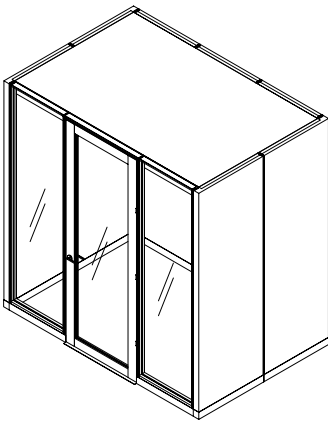

Rear wall available in 2 x solid panels, 2 x glass panels or 1 x solid and 1 x glass panels

Front wall available in central or offset glass door and 2 x glass panels

Standard electrical for all Work Rooms:
1 x motion sensor
4 x LED lights
4 x integrated fans
Double power socket / Dual USB*
1 x provisional hole for fire sprinklers

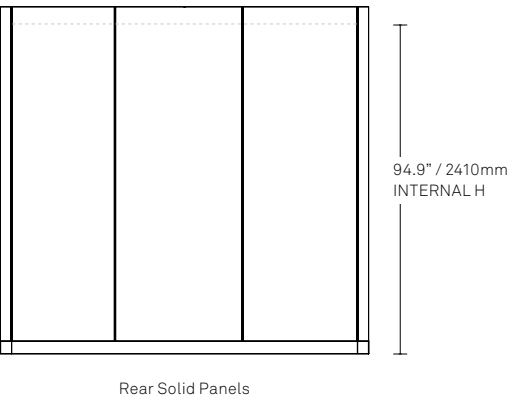

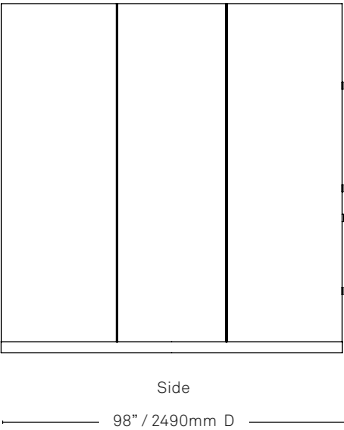

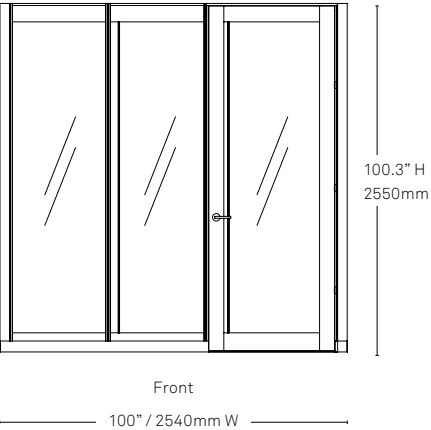

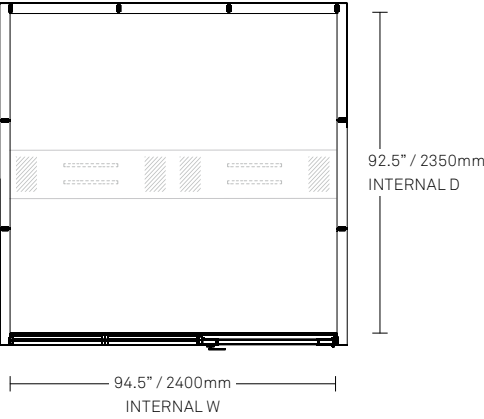

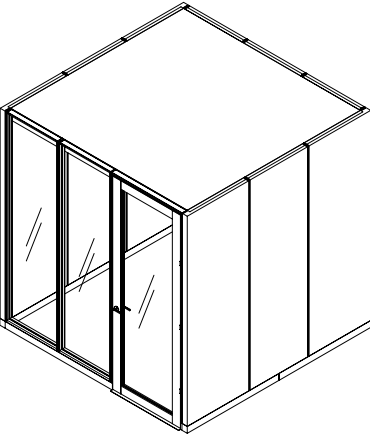

Gather Room (central door)

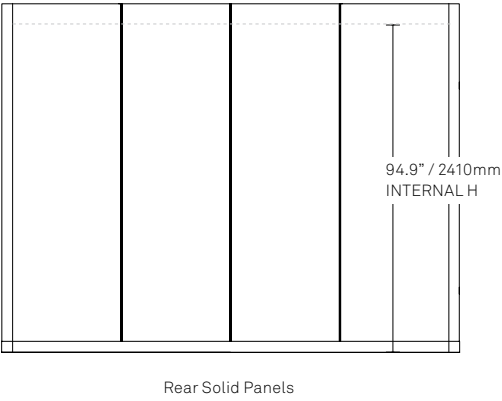

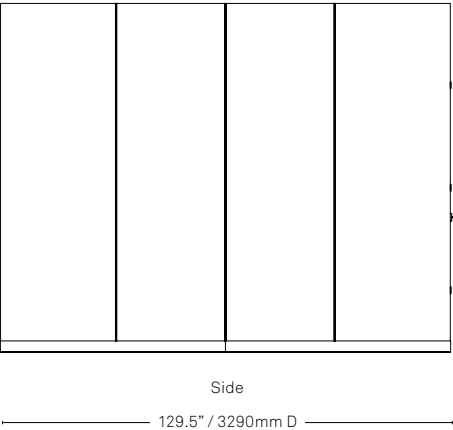

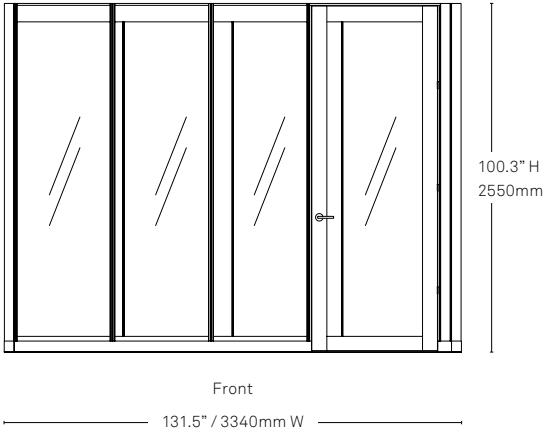

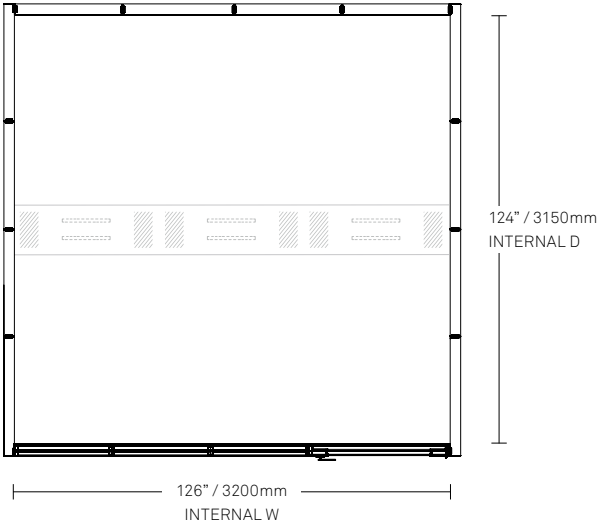

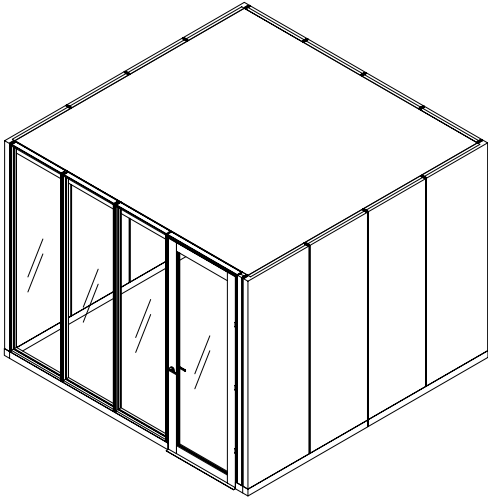

*Contact your Schiavello Representative for further electrical and data options.

Gather+ Room (offset door only)

Meeting Room (offset door)

- Available heights:
90.5" / 2300mm
100.3" / 2550mm
- Rear wall available in 3 x solid panels or
2 x solid panels and 1 x glazed panels
- Front wall available in central or offset
glass door and 3 x glass panels
- Standard electrical for all Meeting Rooms:
- 1 x motion sensor
 - 6 x LED lights
 - 6 x integrated fans
 - Double power socket / Dual USB*
 - 1 x provisional hole for fire sprinklers

Ecology and sustainability

Schiaavello's most important commitment to sustainability is the company-wide Environmental Management System under ISO 14001. The environmental design principles realised means we design for the environment, focusing on efficient energy use and minimum emissions, longevity and durability, re-use and recycling of our products.

Our principles of ME WE (Materials, Energy, Waste Emissions) give us a simple way to think about how our operations impact the environment.

—
Printed on an Australian made paper stock that is PEFC Certified and made from elemental chlorine-free bleached pulp sourced from sustainably managed forests and non-controversial sources. It is manufactured by an ISO 14001 certified mill using renewable energy sources.

About Schiaavello

Schiaavello is a multi-disciplinary company dedicated to developing intelligent, inspiring, ecological and resilient solutions for the office, the home and public spaces.

Schiaavello's concepts and products are developed in Australia by applying a design process that brings together the company's core design principles and engineering with the creativity of local and international designers.

The Schiaavello head office and world-class manufacturing facilities are integral to our continually developing rich tapestry of knowledge. This knowledge ultimately assists us in informing the right solutions and tools for each organisation's needs and people, allowing us to consistently achieve our philosophy that 'Anything is possible'.
