DOSHI *LEVIEN*

The dynamic collaboration between Schiavello and Doshi Levien sparks on a singular cause – to explore the needs and opportunities for empowering people to work in alternative spaces of a workplace. The Doshi Levien duo – Nipa Doshi and Jonathan Levien – undertook an in-depth research program to inform their design process, converting the abstract into the practical and making educated and intelligent design solutions for products that would enhance working away from the traditional desk space.

Based on this research, Doshi Levien envisaged a new working environment that lies between a café and office; something spatially inspiring like a gallery but with the social informality, buzz and connectivity of a café. Personable and inviting, the Parley and Goodwood Tables are products that blur the lines between a resident space and an anywhere space.

Bridge the gap

Goodwood Table bridges the gap between a café and office, giving rise to warm, inviting spaces in which to share ideas, gather or simply relax. Reflective of the UK's Goodwood Racetrack, the tabletop features no straight lines, while its domed legs appear to prance off the ground. The differing heights of the two shapes have been designed to allow tops to overlap when used together.

The Oak edges and glass tabletop lend an aura of elegance and bring pleasure with an appealing tactile quality.

All in the details

With its curved, low profile, Goodwood sits neatly in front of an inviting sofa or in the middle of a chair grouping. With the choice between a top in toughened glass and powder coated or painted MDF on an Oak frame, it sets a contemporary stage for displaying magazines, fresh flowers, or a special book in a living room, waiting or reception area.

ColourLab

Curated by Giulio Ridolfo and developed by Schiavello, Colourlab brings a considered and cohesive palette of finishes suited to the needs of working and living environments. The palette beautifully balances colour, texture and layering across a variety of materials.

Ecology and sustainability

Schiavello's most important commitment to sustainability is the company-wide Environmental Management System under ISO 14001. The environmental design principles realised mean we design for the environment, focusing on efficient energy use and minimum emissions, longevity and durability, re-use and recycling of our products.

Our principles of ME WE (Materials, Energy, Waste Emissions) give us a simple way to think about how our operations impact the environment.

Printed on an Australian made paper stock that is PEFC Certified and made from elemental chlorine-free bleached pulp sourced from sustainably managed forests and non-controversial sources. It is manufactured by an ISO 14001 certified mill using renewable energy sources.

About Schiavello

Schiavello is a multi-disciplinary company dedicated to developing intelligent, inspiring, ecological and resilient solutions for the office, the home and public spaces.

Schiavello's concepts and products are developed in Australia by applying a design process that brings together the company's core design principles and engineering with the creativity of local and international designers.

The Schiavello head office and world-class manufacturing facilities are integral to our continually developing rich tapestry of knowledge. This knowledge ultimately assists us in informing the right solutions and tools for each organisation's needs and people, allowing us to consistently achieve our philosophy that 'Anything is possible'.
