Healing Essence

with 2% Polynucleotides (PN)

Excellent Recovering Effect

REJURAN® Healing Essence active ingredients activate the self-regenerative ability of the skin and improves the appearance of various skin concerns such as wrinkles, scars, large pores, redness, pigmentation, etc.

Improvement of Skin Tone and Texture

REJURAN® Healing Essence improves the appearance of pigmentation and overall brightness of the complexion which is helpful in recovering the tonicity and luminosity of smoother skin texture.

Improvement of Skin Elasticity and Appearance of Fine Wrinkles

REJURAN® Healing Essence active ingredients promote the secretion of collagen and restores the Extracellular Matrix (ECM) to recover thin and damaged skin inside caused by aging, while simultaneously improving skin elasticity and reducing the appearance of wrinkles.

Proven Safety

REJURAN® Healing Essence is composed of high biocompatible DNA fragments with no adverse reaction.

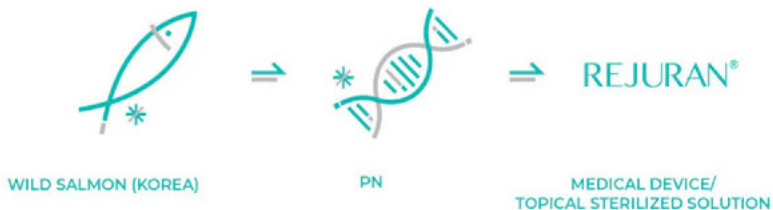

Natural Skin Beauty Effects

REJURAN® Healing Essence gives you the natural skin beauty effects resulting from increasing skin elasticity and hydration from deep inside of the skin.

What are Polynucleotides?

PN (Polynucleotide)

- DNA fragments extracted from wild salmon made possible by PharmaResearch's patented technology, DOT™
- Clear, colorless viscous solution
- Long lasting while maintaining uniform structure in tissue

- Proven to be the most compatible to human skin without causing any adverse effects
- Stimulating skin's own reparative and restorative capabilities
- Skin elasticity improvement by recovering the biological condition of the dermis and epidermis

How REJURAN® Healing Essence Works

REJURAN® Healing Essence uses the latest DOT™ innovation from South Korea and is formulated with 2% PN (Polynucleotides) for skin rejuvenation. PN is delivered into the dermis to support skin's natural growth factors, thus promoting cellular turnover and collagen production, improving microcirculation and anti-inflammation. Rehydrates severely dry skin and improves the skin's natural barrier for a more luminous, translucent-looking skin.
