Dr. Deepak Dugar

Patients looking for subtle nose jobs fly in from around the world to see

Dr. Deepak Dugar at Beverly Hills Rhinoplasty Center (scarlessnose.com). His trademarked Scarless Nose Surgery

—a technique that uses closed rhinoplasty—provides discreet changes that enhance each patient's natural beauty. Something clients appreciate with

Dr. Dugar is his honesty. If he feels a patient is not in need of surgery (or if Scarless Nose Surgery is not for them), he'll make that clear. "Often, I will tell patients, "Your nose looks great with your face. Don't touch it," says Dr. Dugar. "This might sound shocking from a nose surgeon, but I believe in integrity over operating. Not everyone needs surgery."
