Amsterdam / The Netherlands, 25 September 2024 – Global electric mobility technology brand Zeekr is introducing two new special editions exclusive to the Netherlands: the Zeekr 001 Travel Edition and the Zeekr X Wolf Edition. Both combine the state-of-the-art technologies, long range, fast charging and outstanding ride and handling that Zeekr EVs are renowned for, with even richer specifications. The new special editions will be available for a limited time only.

Zeekr Europe's Head of the Netherlands, Marc Bras, said: "With their distinctive designs and cutting-edge technologies, Zeekr EVs stand out from the crowd. On top of our existing competitive product lineup, we created the Zeekr 001 Travel Edition and Zeekr X Wolf Edition, making them even more desirable and affordable, and we're delighted to offer these limited editions to our customers in the Netherlands."

Introducing the Zeekr 001 Travel Edition

The Zeekr 001 Travel Edition is based on the single motor Long Range model. Designed to make every journey even more of an adventure, standard equipment includes a tow bar rated at up to 1,500 kilograms. The neatly integrated roof rails further expand the vehicle's storage capacity so customers can carry even more travel essentials with them in addition to the shooting brake's spacious 539-litre luggage compartment. Furthermore, the addition of floor

mats ensures that the luxurious interior is always kept clean and protected: whether hiking through muddy forests, exploring the mountains or taking a beach trip, the robust, easy-to-clean mats keep dirt and moisture out of the cabin.

As its name suggests, the Zeekr 001 Travel Edition can take you and your family long distances in unprecedented comfort. With an impressive range of up to 620 km (WLTP)[1], it is possible to drive carefree from Amsterdam to Paris on a single charge. With 200kW fast charging technology, the battery can be replenished from 10-80% in just 30 minutes[2], making it ideal for convenient charging while you take rest stops. And with a 200 kW (272 hp) electric motor, performance is just as impressive, with accelerating from 0-100 km/h in just 7.2 seconds.

Priced from €60,490 and a net monthly additional tax rate from €347, the Zeekr 001 Travel Edition is fiscally attractive to both private and business customers alike.

Zeekr X Wolf Edition: Power and precision

Zeekr is proud to introduce the Zeekr X Wolf Edition, a highly exclusive version of the brand's compact urban SUV. Distinguished by its elegant metallic grey paint, and based on the luxurious Privilege specification, it offers outstanding performance and rich equipment levels.

The distinctive new colour accentuates the vehicle's sophisticated, sleek design. Matching its elegant, sporty appearance are levels of performance and agility that make it an absolute frontrunner in its class, with the 315 kw (428 hp) dual-motor powertrain delivering acceleration from 0-100 km/h in just 3.8 seconds, with the traction and handling benefits of intelligent all-wheel drive. Range is up to 425km (WLTP).

Offered at a highly competitive starting price from only €44,990, the Zeekr X Wolf Edition is eligible for the SEPP subsidy (Private Electric Car Subsidy Scheme), enabling qualifying customers to receive a discount of €2,950. This makes the Zeekr X Wolf Edition not only an exclusive choice in style and performance, but also highly attractive financially too.

(Zeekr 001: Combined power consumption in kWh/100km: 17.3-18.5 (WLTP). Combined CO_2 emissions in g/km: 0. Zeekr X: Combined power consumption in kWh/100km: 16.4-17.3 (WLTP). Combined CO_2 emissions in g/km: 0). (Zeekr 001 Long Range: Now available as Travel Edition. Zeekr X Privilege: Now available as Wolf Edition).

Prices will remain fixed only until the end of this year

Zeekr is proud to confirm that all Zeekr 001 and Zeekr X orders placed in the Netherlands and delivered before the end of this year will be honoured at the original prices. However, for

deliveries made from 01 January 2025 onwards, pricing may be adjusted. All price changes will be communicated to customers in a timely and transparent manner.

[1] Range according to the WLTP drive cycle under controlled conditions. Real-world range may vary, dependent on vehicle and battery condition, actual route, environmental conditions, driving style, load, wheel and tyre specification, and optional equipment and accessories fitted

[2] Charging times will vary according to factors including the charging equipment, ambient temperature, battery temperature, battery state of charge, and age and condition of the battery and the vehicle

= End =

About Zeekr

Zeekr (NYSE: ZK) is the global premium electric mobility technology brand from Geely Holding Group. Zeekr aims to create a fully integrated user ecosystem with innovation as a standard. The brand utilizes Sustainable Experience Architecture (SEA) and develops its own battery technologies, battery management systems, electric motor technologies, and electric vehicle supply chain. Zeekr's value is equality, diversity, and sustainability. Its ambition is to become a true mobility solution provider.

Zeekr operates its R&D centers and design studios in Ningbo, Hangzhou, Gothenburg, and Shanghai and boasts state-of-the-art facilities and world-class expertise. Since Zeekr began delivering vehicles in October 2021, the brand has delivered over 320,000 vehicles to date including the Zeekr 001, Zeekr 001 FR, Zeekr 009 MPV, Zeekr 007 and Zeekr X urban SUV. Zeekr has announced plans to sell vehicles in global markets, and has an ambitious roll-out plan over the next 5 years to satisfy the rapidly expanding global EV demand.
