

# From the Chair's Desk: A message from the IGRC2027 National Organising Committee Chair

**Welcome to the first edition of the IGRC2027 Newsletter.**

This marks the beginning of our journey toward bringing the global gas community together for a conference where ideas, innovation, and collaboration take center stage — reflecting both the challenges of today and the opportunities ahead. Preparations are well underway, and through this newsletter we will share key updates, insights, and momentum as IGRC2027 takes shape.

**I look forward to the journey with you.**

*Annamaria Fehér*

*Chair of NOC IGRC2027*

## Dear Community Member!

**We are excited to announce the International Gas Research Conference (IGRC) 2027, taking place 24–28 May 2027 in the heart of Europe, Budapest, Hungary. For the first time, IGRC will be hosted in Central and Eastern Europe, bringing the global gas and energy research community together at a crossroads of innovation, policy, and collaboration.**

# Why IGRC2027?

## **Collaboration for global impact.**

IGRC2027 is where industry experts, researchers, and clean-tech innovators unite to accelerate sustainable energy development worldwide.

## **Innovation beyond technology.**

IGRC2027 explores transformative ideas that are redefining energy systems, markets, and communities.

## **IGRC brings together global leaders.**

to showcase cutting-edge research, technologies, and solutions shaping the future of energy.

## **Gas is the future.**

IGRC2027 will spotlight how innovation in natural gas and gaseous fuels is driving the clean energy transition.

Your voice matters! Take just 1 minute to complete our survey.
