

CD Label

CD-L001-ALL

Transition to mirror band / clear centre. Colors may shift inside this area

Artwork should fill the entire centre. Live print ends at solid line.

Outer dotted line is bleed – extend all background art to this line.
Middle solid line is cut line – this is where the art will be cut.
Inner dotted line is safety margin – keep all important elements within this line.
Keep “Template” layer locked and separate from art. Work only on “Art” layer or any additional layers you create.
