# Export Limitation Solution

## What is Export Limitation Function?

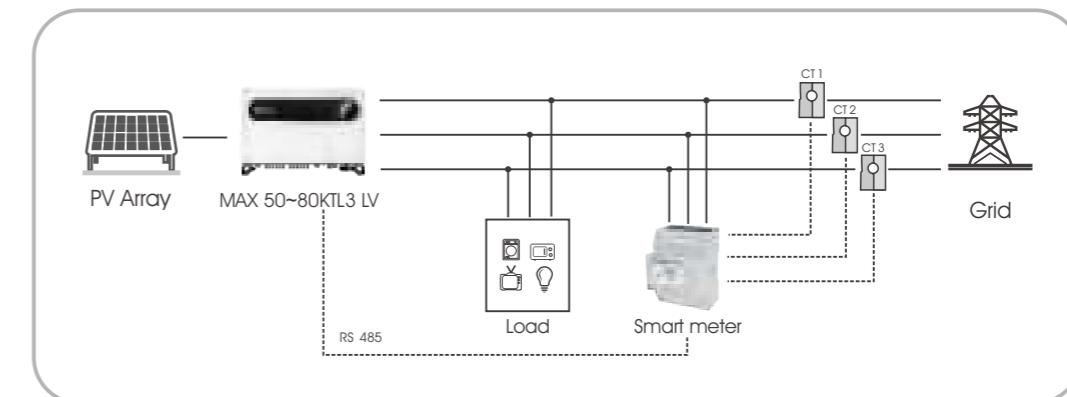

Growatt offers different export limitation solutions, all inverters firmware already support it, which can dynamically adjusts inverter production.

## Growatt Export Limitation Solution Benefits

- ◆ The limit power can be set according network restriction
- ◆ Fast response time
- ◆ Failsafe operation protection function

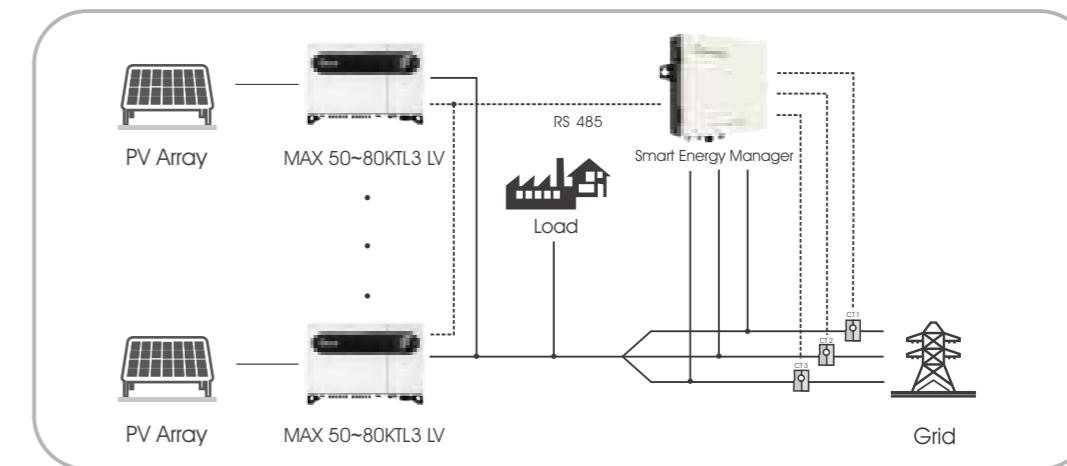

## Export Limitation for Single Inverter

If the system is only one inverter, then use one three phase meter can do the export limitation, for MAX inverter, need use meter with 3CTs.

## Export Limitation for Multiple Inverters

If the system with multiple inverters, then use Smart Energy Manager to do the export limitation, maximum can communicate 64 inverters. It can also monitoring system self-consumption on Growatt monitoring portal.
