

PORTABLE COOLER

SERIE AQool 350

The AQool 350 portable cooler is ideal for large work environments and for localized cooling.

Aquarial portable coolers refresh and purify the air in open spaces and can also be used outdoors. They are ideal for large commercial or work environments. Suitable for localized cooling of specific

areas of warehouses or workstations, machinery, offices, shops, hospitals, schools, greenhouses, gyms, outdoor areas, patios, bars, restaurants, pools, and beach clubs.

PORTABLE COOLER

SERIE AQool 350

The AQool 350 portable cooler is the most efficient, economical, and eco-friendly solution for any indoor or outdoor work environment.

Unlike traditional air conditioning systems, which are costly to install and consume significant energy while being inefficient in large or open spaces, Aquarial portable coolers refresh and purify the air and can also be used outdoors.

Ready to use with no installation required, and easy to position and move.

Plus

Easy to transport, place,
and maneuver

Low energy consumption

Less than €2 per day

Ready to use and simple
operation

Localized cooling for indoor
and outdoor areas

Ideal for small environments
