

FIXED COOLERS

BQool 250

The BQool 250 fixed cooler is ideal for cooling medium and large industrial spaces.

MADE IN ITALY

The Aquarial fixed industrial coolers for large environments allow you to lower the internal temperature by up to 10 degrees compared to the external one, with a constant air exchange that helps to make the working environment more comfortable, productive and healthy. Furthermore, with the innovative SmartQool

system, developed and installed by Aquarial, you have a 4.0 ready cooling system, with electronic components inside the fixed coolers that facilitate remote control, real-time diagnostics and system maintenance.

FIXED COOLERS

BQool 250

BQool 250 has a power of 900 W and a water consumption of 15-20 litres per hour.

The fixed cooler **BQool 250** is the flagship of the Aquarial fixed industrial cooler line, it is part from the Aquarial range of coolers designed for medium and large work spaces, characterised by high summer temperatures and the need for frequent air exchange. It has a power of 900 W and a water consumption of 15-20 litres per hour. It allows you to cool the entire work space or specific areas of the shed, through the installation of one or more machines. The BQool 250 fixed cooler with the new brushless motor and 20-speed inverter reduces consumption by 20% compared to previous models. Thanks to the new SmartQool interface, with 100% made in Italy electronic components developed and installed by Aquarial, you always have your fixed cooling system at your fingertips.

Aquarial offers the possibility of creating fixed turnkey systems, calibrated according to the specific needs of each customer, with the installation of diffusers, complete ducting and possibly extractors, depending on the volume to be cooled, the sector to which it belongs and the number of openings available. Depending on the specific configurations of the property, the context and the work needs, BQool 250 can be installed on the roof, on the wall or in a shed.

OUR SERVICES

Emergency response

We are always available for a rapid intervention, even at your premises. Our specialized technicians guarantee a prompt intervention in just 48 hours from the customer's call, and can take on even faster requests in case of urgency.

Scheduled maintenance

Our maintenance programmed provides ideal support for our customers, who can schedule one or more interventions per year with our specialized technicians. A constantly monitored machine park allows us to safeguard its performance for longer and guarantee the established objectives.

Rental

We offer both short and long term rental options. Flexible and customized solutions in line with the customer's needs, which for a fixed fee eliminate the worry of fleet management.

Standard equipment

Our warehouse is constantly stocked with original accessories and spare parts for our machinery. Managed by expert technicians, it allows us to guarantee solutions for particular needs and at the same time ensure rapid response times.
