# Management's statement

The Executive Board and Board of Directors have today considered and adopted the Annual Report of Fonden Mærsk Mc-Kinney Møller Center for Zero Carbon Shipping ("the Foundation") for the financial year 1 January - 31 December 2024.

The Annual Report is prepared in accordance with the Danish Financial Statements Act.

In our opinion the Financial Statements give a true and fair view of the financial position at 31 December 2024 of the Foundation's and of the results of the Foundation operations for 2024.

In our opinion, Management's Review includes a true and fair account of the matters addressed in the Review.

Copenhagen, 8 May 2025

# Independent Auditor's report

To the board of Fonden Mærsk Mc-Kinney Møller Center for Zero Carbon Shipping and the Foundation Authority

## Opinion

In our opinion, the Financial Statements give a true and fair view of the financial position of the Foundation at 31 December 2024 and of the results of the Foundation's operations for the financial year 1 January - 31 December 2024 in accordance with the Danish Financial Statements Act.

We have audited the Financial Statements of Fonden Mærsk Mc-Kinney Møller Center for Zero Carbon Shipping for the financial year 1 January - 31 December 2024, which comprise income statement, balance sheet, statement of changes in equity and notes, including a summary of significant accounting policies ("the Financial Statements").

## Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the Financial Statements" section of our report. We are independent of the Foundation in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Statement on Management's Review

Management is responsible for Management's Review.

Our opinion on the Financial Statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the Financial Statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, in our view, Management's Review is in accordance with the Financial Statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement in Management's Review.

## Management's responsibilities for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, Management is responsible for assessing the Foundation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the Financial Statements unless Management either intends to liquidate the Foundation or to cease operations, or has no realistic alternative but to do so.

This file is sealed with a digital signature.  
The seal is a guarantee for the authenticity  
of the document.

# Independent Auditor's report

## Auditor's responsibilities for the audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the Financial Statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Foundation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Foundation to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# Management's review

## The Foundation's purpose Primary activities

The foundation was established to operate as a not-for-profit, independent, global research- and development center contributing to an accelerated decarbonization of the global maritime industry. With partners, the Center explores new technical solutions, supports the implementation of needed regulation, and develops business models across the maritime ecosystem. The Center offers an independent, cross-disciplinary collaboration platform across the energy and maritime value chains including private and public stakeholders, academia, and NGOs.

The Centers work is divided into four work programs each addressing significant challenges in the transition towards zero carbon shipping:

- Reducing fleet energy demand
- Transforming the energy system
- Catalyze ecosystem transition
- Advance transition at scale

By end of 2024 the Center employs 71 full time employees (2023: 62) working closely with experts seconded in from partner companies where the in-kind contribution in hours is equivalent to 41 FTEs in 2024 (2023: 32) – all supported by 15 student assistants (2023: 12).

This highly diverse and international team runs the Center's portfolio of projects and engages closely with public and private stakeholders to ensure the needed mobilization of the maritime industry. The Center has in only a few years built a strong brand and reputation as a central player in decarbonization of shipping and credible and trusted source of analyses, insights and information.

During 2024 the Center launched 15 publications (2023: 17) that all reflect new knowledge and insights from Center projects and subject matter experts. These publications include technical project reports covering new ship designs, assessments of alternative marine fuels, guidelines for regulations and standards and mapping of energy efficiency measures. On top of this the Center has submitted multiple papers to support the ongoing work in the International Maritime Organisation (IMO) and help transform their revised and strengthened Green House Gas strategy (agreed in July 2023) into global regulation.

In accordance with the Center's main purpose all Center publications are made publicly available on the Center website providing easy access to highly specialized research results and in-depth knowledge, playbooks and news. In 2024, the Center also launched the first in a series of interactive tool – the Fuel Cost Calculator – that allows users to calculate the bottom-up production cost of sustainable fuels and benchmark them against fossil fuels.

A final, but important example of Center contributions in 2024, is the launch of "Katalist" – a not-for-profit so-called 'Book and Claim' platform developed by RMI and the Center in collaboration with 29 organizations across the value chain in a true collaborative effort to accelerate the decarbonization of the maritime industry. This platform serves as a bridge between freight customers who want to reduce their shipping emissions and shipping companies using low emission fuel. It simplifies the purchase of low emission shipping through a verified, trackable, auditable mechanism.

## Management's review

During 2024, we made significant progress in reviewing the partner agreements. Several agreements were renewed except for one, where the partner ultimately decided to withdraw. The strategic partner chose to change status to mission ambassador leaving the number of Strategic Partners at 23 by end of year (2023: 24), 17 Knowledge Partners (2023: 16) and the formalized network with Mission Ambassadors increased to 64 (2023: 53). The close connection and strong relationship between Center and its partners were cemented during the 2024 Accelerate Partner Summit gathering over 400 partner representatives at a very successful in-person event in May.

From a collaboration perspective, we enhanced our engagement by focusing on strategic-level cooperation in key areas. This included targeted efforts on topics such as the International Maritime Organization (IMO), mobilizing the supply chain, and advancing ammonia safety measures. These initiatives reflect a deepened and more focused strategic alignment with our partners, ensuring impactful progress in these critical areas. All 23 partners have expressed continued commitment to the Center and the partnership collaboration model and acknowledge the unique value the Center provides with reference to the original vision and value proposition of the Center.

In March 2024 the Center moved to a new office at Marmorvej 8, 2100, Copenhagen Ø. The office lease agreement has a duration of a minimum of 7 years.

### Financial review

For 2024 the Foundation has recognized a positive result of TDKK 18,362 (2023: negative TDKK 7,620). The Centers cost level is stabilized after the ramp up period, the contribution from the 23 strategic partners (in-kind and cash) is contractually fixed and donations from the "A.P.Møller og Hustru Chastine Mc-Kinney Møllers Fond til almene Formaal" is planned according to cash and equity requirement. A result between TDKK 3,000 - 5,000 was expected for 2024 but was positively affected with TDKK 12,626 being in-kind contribution from partners converted to cash.

The result for the year is transferred to retained earnings under the equity and the reserve for distribution is kept unchanged at TDKK 15,000, hence the change in reservation is TDKK NIL (2023: TDKK NIL). Hereafter, the total retained earnings under the equity amounted to TDKK 28,662 on 31 December 2024 (2023: TDKK 11,554).

The Foundation was established in 2020 by A.P.Møller og Hustru Chastine Mc-Kinney Møllers Fond til almene Formaal with a contribution of TDKK 50,000 of which TDKK 1,000 was allocated to fund capital and TDKK 49,000 to retained earnings. To secure the future financial conditions of the established Foundation a framework agreement was made with the A.P. Møller Fonden in 2020 for additional donations of TDKK 350,000 and in 2022 this has been increased with an additional donation of TDKK 320,000, where the total expected donation will be TDKK 720,000 of which a total of TDKK 445,500 remains to be received as per 31 December 2024.

The Center works for the greater good and provide the output from the projects publicly available. The costs for projects are expected to increase in 2025 and the maturation of the organization will also result in a slight increase in cost. The Center has income from strategic partners and donations but limited project funding. A positive result for 2025 is expected to be between TDKK 3,000 and TDKK 5,000 depending on the timing of, when the Center decides to call donations from the A. P. Møller Fonden. In-kind contribution from partners converted to cash is not included in the expectation for 2025, as both the Center and partners have the desire to contribute with in-kind resources.

# Management's review

## Policy for distributions

The primary purpose of the Foundation is to operate a not-for-profit, independent, global research- and development center contributing to research, innovation and development of technologies and solutions aiming at lowering and eventually eliminating greenhouse gas emissions from the global shipping industry.

The Center facilitates a neutral and open platform to stimulate cross-disciplinary collaboration across the energy- and maritime value chains accelerating the development of zero carbon technologies and -fuels to decarbonize the global shipping industry. The foundation's research will be translated into viable commercial solutions and may influence industry standards.

As a means of achieving this purpose, the foundation can fund projects in the Foundation's own organization or by external parties and give donations in any form e.g., by giving loans, providing guarantees or collateral, making capital contributions against issuance of shares and by providing start-ups or researchers access to the foundation's test facilities.

The profits of the Foundation are allocated at the discretion of the Board of Directors and are used in connection with the Foundation's own activities and to maintain and develop its activities on a long-term basis. Available funds are distributed as grants to support the objectives of the Foundation.

No distributions were made in 2024 (2023: nil).

## Review of Foundation governance

The Foundation complies with the recommendations on foundation governance in accordance with section 77a of the Danish Financial Statements. The Foundation follows all the recommendations on Foundation Government with the exemption of point 2.5.2 and 3.1.2.

“2.5.2 It is recommended that an age limit for members of the board of directors be set.”  
The Foundation has not introduced an age limit as the board is composed based on competences in accordance with the Foundation statutes.

“3.1.2 It is recommended that the financial statements provide information about the full remuneration received by each member of the board of directors and any executive board from the commercial foundation...”

In respect of the privacy of the individual board members and the Executive Board, the Foundation has chosen not to disclose the individual remuneration but shows it collectively in the notes.

The statutory statement is available on the Foundations website and can be accessed via the following link:  
<https://www.zerocarbonshipping.com/foundation-governance/>

## Statement of foundation governance

The Board of Directors is the Fonden Mærsk Mc-Kinney Møller Center for Zero Carbon Shipping's supreme authority, and has the overall responsibility of the Foundation's activities, and ensures that these are organized, managed and exercised properly in accordance with the provisions of the legislation and the Foundation's statutes.

## The competencies of the board

The Board of Directors continuously assesses and determines which competencies it must have and its disposal to carry out the Foundation's objectives. This ensures that the Board of Directors possesses professional insight and relevant experience at both national and international level within or related to shipping, marine technology and/or low carbon energy.

The individual member's competencies are stated in the Foundation's annual report and by clicking on the members' names at the top of the foundation's web page.

# Notes to the Financial Statements

## 5. Accounting policies

The Annual Report of Fonden Mærsk Mc-Kinney Møller Center for Zero Carbon Shipping for 2024 has been prepared in accordance with the provisions of the Danish Financial Statements Act applying to enterprises of reporting class B as well as selected rules applying to reporting class C.

The accounting policies applied remain unchanged from last year.

The Financial Statements for 2024 are presented in DKK.

### Recognition and measurement

Revenues are recognised in the income statement as earned. Furthermore, value adjustments of financial assets and liabilities measured at fair value or amortised cost are recognised. Moreover, all expenses incurred to achieve the earnings for the year are recognised in the income statement, including depreciation, amortisation, impairment losses and provisions as well as reversals due to changed accounting estimates of amounts that have previously been recognised in the income statement.

Assets are recognised in the balance sheet when it is probable that future economic benefits attributable to the asset will flow to the Foundation, and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow out of the Foundation, and the value of the liability can be measured reliably.

Assets and liabilities are initially measured at cost. Subsequently, assets and liabilities are measured as described for each item below.

### Income statement

#### Revenue

Revenue is measured at the value of the consideration received and is recognised exclusive of VAT and net of discounts relating to sales. Fees from partners for access to the Foundations network is recognized as revenue at the rate of completion.

Revenue furthermore consists of in-kind contributions from partners as full-time employees or facilities made available for the Foundation. This income is recognised as revenue upon receipt of the contributions.

#### Other external expenses

Other external expenses comprise external consulting assistance, maintenance of office, advertising, rent etc.

Other external expenses also include research and development costs that do not qualify for capitalisation.

#### Gross profit

With reference to section 32 of the Danish Financial Statements Act, gross profit/loss is calculated as a summary of revenue, other operating income and other external expenses.

#### Staff expenses

Staff costs include wages and salaries including compensated absence and pensions as well as other social security contributions etc. made to the entity's employees.

#### Amortisation, depreciation and impairment losses

Amortisation, depreciation and impairment losses comprise depreciation and impairment of property, plant and equipment.

# Notes to the Financial Statements

## Other operating income and expenses

Other operating income and other operating expenses comprise items of a secondary nature to the main activities of the Foundation, including gains and losses on the sale of property, plant and equipment.

## Financial income and expenses

Financial income and expenses are recognised in the income statement at the amounts relating to the financial year.

## Tax on profit/loss for the year

Tax for the year consists of current tax for the year and changes in deferred tax for the year. The tax attributable to the profit for the year is recognised in the income statement, whereas the tax attributable to equity transactions is recognised directly in equity.

## Balance sheet

### Property, plant and equipment

Property, plant and equipment are measured at cost less accumulated depreciation and less any accumulated impairment losses.

Depreciation based on cost reduced by any residual value is calculated on a straight-line basis over the expected useful lives of the assets, which are:

IT Equipment	5 years
Furniture at office premises	5 years

### Impairment of fixed assets

The carrying amounts of property, plant and equipment and investments are reviewed on an annual basis to determine whether there is any indication of impairment other than that expressed by depreciation.

If so, the asset is written down to its lower recoverable amount.

### Receivables

Receivables are measured in the balance sheet at the lower of amortised cost and net realisable value, which corresponds to nominal value less provisions for bad debts.

### Prepayments

Prepayments comprise prepaid expenses concerning rent, insurance premiums, subscriptions and interest.

### Equity

### Dividend

Dividend distribution proposed by Management for the year is disclosed as a separate Dividend item.

### Provisions

Provisions are recognised when - in consequence of an event occurred before or on the balance sheet date - the Foundation has a legal or constructive obligation and it is probable that economic benefits must be given up to settle the obligation.

# Notes to the Financial Statements

## Financial liabilities

Loans, such as loans from credit institutions, are recognised initially at the proceeds received net of transaction expenses incurred. Subsequently, the loans are measured at amortised cost; the difference between the proceeds and the nominal value is recognised as an interest expense in the income statement over the loan period.

Mortgage loans are measured at amortised cost, which for cash loans corresponds to the remaining loan. Amortised cost of debenture loans corresponds to the remaining loan calculated as the underlying cash value of the loan at the date of raising the loan adjusted for depreciation of the price adjustment of the loan made over the term of the loan at the date of raising the loan.

Other debts are measured at amortised cost, substantially corresponding to nominal value.

## Distributions

### *Distributions paid out*

Distributions that have been adopted and paid out in accordance with the purpose of the Foundation at the balance sheet date are deducted from equity in connection with distribution of profit.

### *Distributions not yet paid out*

Distributions that have been adopted in accordance with the purpose of the Foundation at the balance sheet date and have been announced to the recipients, but have not yet been paid out at the balance sheet date, are deducted from equity in connection with distribution of profit and recognised as debt.

### *Distribution framework*

At the meeting of the Board of Directors at which the Annual Report is adopted, the Board of Directors lays down a distribution framework in respect of the amount expected to be distributed. This amount is transferred from distributable reserves to the distribution framework. Concurrently with being announced to the recipients, the distribution amounts are paid out, or they are transferred to debt or, in rare cases, to provisions relating to distributions.
