LOQ = Limit of Quantitation; The reported result is based on a sample weight with the applicable moisture content for that sample; Unless otherwise stated all quality control samples performed within specifications established by the Laboratory. Terpene analysis result is an estimate as the sample response is typically outside the standard curve linear response.

686.166 mg/g

<LOQ

Total THC

Total CBD

Total THC = THCa * 0.877 + d9-THC + d8-THC + THCV; Total CBD = CBDa * 0.877 + CBD
LOQ = Limit of Quantitation; Cannabinoid potency values are reported by percentage of dry weight determined via loss on drying; Results are the average of three replicates; Unless otherwise stated all quality control samples performed within specifications established by the Laboratory.

Sample selection completed according to SOP 204. This product has been tested by ACT Laboratories using valid testing methodologies and a quality system as required by state law. Values reported relate only to the product tested. ACT Laboratories makes no claims as to the efficacy, safety or other risks associated with any detected or non-detected levels of any compounds reported herein. This Certificate shall not be reproduced except in full, without the written approval of ACT Laboratories.
