LOQ = Limit of Quantitation; The reported result is based on a sample weight with the applicable moisture content for that sample; Unless otherwise stated all quality control samples performed within specifications established by the Laboratory. Terpene analysis result is an estimate as the sample response is typically outside the standard curve linear response.

722.139 mg/g

<LOQ

Total THC

Total CBD

Total THC = THCa * 0.877 + d9-THC + d8-THC + THCV; Total CBD = CBDa * 0.877 + CBD
LOQ = Limit of Quantitation; Cannabinoid potency values are reported by percentage of dry weight determined via loss on drying; Results are the average of three replicates; Unless otherwise stated all quality control samples performed within specifications established by the Laboratory.
