

MPF Broadband

Keeping customers connected where full fibre hasn't reached.

Affordable, dependable broadband over the existing copper network, for locations where full fibre or SoGEA isn't available yet.

MPF broadband · Metallic Path Facility

A practical bridge to full fibre

MPF (Metallic Path Facility) is a cost-effective broadband solution that uses the existing copper access network to deliver reliable business connectivity.

Ideal for locations where full-fibre or SoGEA services may not yet be available, MPF provides a simple, dependable data service, with straightforward installation and support.
