

IP Voice Connect

Flexible, low-cost inbound and outbound calling.

A scalable, IP-based voice solution that starts your customers on the road to fully IP communications.

IP voice connect

Scalable IP-based voice for your customers

IP Voice Connect is an IP-based voice solution made up of several IP Voice channels, delivered to your customers' premises over one of our Broadband or Leased Line connections.

It lets customers keep making inbound and outbound calls using their existing PBX, with compatibility for most leading PBXs directly or via an approved SBC. Bespoke interoperability testing is available.

At a glance

Use your existing PBX
directly or via an approved SBC

SIP channel bursting
flex 10%, 20% or 30% of channels

UK-based support
expert technical help when you need it

Key features

Use your existing phone system, directly or via an approved SBC

SIP channel bursting: flex 10%, 20% or 30% of committed channels

Up to 8,000 channels per trunk (for a 1Gb circuit)

Support for up to 10 calls per second

Up to 4 trunks per trunk group, with multiple service options

UK-based support and an easy, quick install

For you

How it will benefit your business

Single provider, 99.95% availability

An end-to-end service run over our core network, supporting your connectivity and communications together.

Resourceful partner portal

Our 'My Voice' feature gives full access to account details, billing and CDR files, plus campaign support, collateral and training.

Consistent quality

Uncompressed voice for high-quality delivery, with a resilient core platform that maintains quality of service.

For your customers

How it will benefit your customers

Reduced costs

Save up to 50% on line rental and over 15% on call costs versus ISDN, with free internal calls across the organisation.

Full scalability

Instantly burst channels up to 30% with no infrastructure changes, a pay-as-they-grow service for seasonal and campaign demand.

Seamless continuity

Advanced call re-routing, number management and disaster recovery, compatible with most current PBX systems.
