

Nasstar Talk

Simplify your communications with a single platform.

A cloud-based PBX and unified communications platform, with no on-premise hardware to maintain.

Nasstar talk

One platform for all your communications

The need for a physical PBX deployed on-premise, with trained personnel to maintain and upgrade it, is gone. Nasstar Talk is a next-generation, real-time communications and collaboration platform that combines a cloud-based PBX with a best-in-class unified communications platform.

You administer and manage subscriptions through the portal, with maintenance and upgrades handled easily and remotely, freeing up resources for critical business processes.

Powered by Alcatel-Lucent Enterprise technology.

At a glance

**Cloud-based PBX**

no on-premise hardware to maintain

**Any device, anywhere**

office, home, on the road, any device

**Self-service management**

administer subscriptions remotely

How it works

Real-time communication and collaboration

Comms and collaboration

Communicate by voice, video or chat, work in groups, share your screen or desktop, and store and share files.

Any device, anywhere

Your communications follow you at the office, on the road or at home, on any device including phone, PC, tablet and smartphone.

Self-service and analytics

Be in full control. Manage your subscriptions, your company and your users, with detailed analytics.

Flexible traffic model

Services and traffic are bundled together through an intuitive web portal, keeping everything in one place.

Three levels of service

Choose the right level for each customer

01

Voice Business

Telephony

Unlimited telephony plus limited collaboration: group chats up to 100, 1GB storage and 1-on-1 conferencing.

02

Voice Enterprise

Collaboration + Telephony

Unlimited telephony plus full collaboration: group chats up to 300, 20GB storage, conferencing up to 120, and Microsoft 365 and Google integration.

03

Voice Attendant

+ Voice Attendant Console

Everything in Enterprise plus a voice attendant console: hold up to 10 calls, blind or announced transfers and supervision of user groups.

Bundled commercial model: services and traffic are bundled and sold as an all-inclusive price per user, per month, under one contract and billing.

Service levels compared

What each level includes

Capability	Voice Business	Voice Enterprise	Voice Attendant
Unlimited telephony features	✓	✓	✓
Record all calls	✓	✓	✓
Team collaboration (group chat)	Up to 100	Up to 300	Up to 300
File sharing and storage	Up to 1GB	Up to 20GB	Up to 20GB
Conferencing	1-on-1	Up to 120	Up to 120
Microsoft 365 and Google calendar	—	✓	✓
Outlook plug-in and directory search	—	✓	✓
Voice Attendant Console	—	—	✓
